

Count in twos to complete the sentences.

There are socks in total.

There are footballs in total.

There are fish in total.

6 Eva is writing 10×2 in different ways.

Find three more ways that you can write 10×2

Use counters to help you.

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

Make an array to show 12×2

Find three different ways to write it.

Use counters to help you.

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

$$\square \times \square + \square \times \square$$

Can you use your 12×2 array to complete this?

$$\square \times \square + \square \times \square + \square \times \square$$

Use $<$ $>$ or $=$ to complete the comparisons

$$9 \times 2 \quad 5 \times 2 + 1 \times 2$$

$$4 \times 2 + 3 \times 2 \quad \bigcirc \quad 9 \times 2$$

$$9 \times 2 \quad \bigcirc \quad 2 \times 2 + 7 \times 2$$

Make these comparisons true

$$7 \times 2 < \underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}$$

$$\underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad} = 11 \times 2$$

$$5 \times 2 > \underline{\quad} \times \underline{\quad} + \underline{\quad} \times \underline{\quad}$$
