# Community

Why is it important to be part of a community?

## Knowledge Harvest

What do we know about community?

Are you part of any communities?

### Living Together

When we play team games in PE, what skills do you have to show to be part of that community?

Are those skills useable in any other community?

What about online?

On your paper, make a list of which values do you think are important to make and community successful?

Think about what values we have in this classroom.

- Respecting one another
- working together

We all belong to many different communities – family, friends, sports teams, activity groups.

However, there is one thing that every community has in common – people.

We must learn how to respect, support and work with other people if we hope to become valuable contributors to the communities that we are a part of.

Task

Draw yourself in the middle of your page. Surrounding your picture, write and draw all of the different communities that you think that you belong to.

These can be in person or online

Some of these may not be happening at the moment due to COVID

Have you ever noticed how many communities that you are part of?

Community is a vital part of how we live and how we interact without each other.

Do any people live without a community?
