

Can I design an investigation and test materials? 

Design

I predict that _____ will be the strongest house.

I predict that _____ will be the weakest house.

Materials

Draw/attach pictures of your houses below and label what materials you used to build them.

Results and conclusions (here explain how did you test the strength of your houses and what did you observe)

Can I design an investigation and test materials?

Design

I will investigate _____

I predict that _____ will be the strongest house because

I predict that _____ will be the weakest house because

Materials

Draw/attach pictures of your houses below and label what materials you used to build them.

Results and conclusions (here explain how did you test the strength of your houses and what did you observe)
