Can I Locate countries on a map of Europe during WWII?

Using the your learning about the Allies and Axis, can you label and colour code this map to show which countries were in allegiance, or occupied by which group?

You need to show:
- Allie countries

- Axis lead countries
- Axis occupied countries

- Neutral countries.

Challenges:

1. How will you reflect the changes which occurred in France during WWII?

2. For the countries you have not coloured in, can you research which allegiance they had in WWII?
