1. Aims

Our school aims to ensure that all personal data collected about staff, pupils, parents, governors, visitors and other individuals is collected, stored and processed in accordance with the UK-General Data Protection Regulation (UK GDPR) and the [Data Protection Act 2018 \(DPA 2018\)](#).

This policy applies to all personal data, regardless of whether it is in paper or electronic format.

2. Legislation and guidance

This policy meets the requirements of the UK GDPR and the DPA 2018. It is based on guidance published by the Information Commissioner's Office (ICO) on the [GDPR](#).

It also reflects the ICO's [code of practice](#) for the use of surveillance cameras and personal information.

In addition, this policy complies with regulation 5 of the [Education \(Pupil Information\) \(England\) Regulations 2005](#), which gives parents the right of access to their child's educational record.

In addition, this policy complies with our funding agreement and articles of association.

3. Definitions

4. The data controller

Our school processes personal data relating to parents, pupils, staff, governors, visitors and others, and therefore is a data controller.

The school is registered with the ICO / has paid its data protection fee to the ICO, as legally required.

5. Roles and responsibilities

This policy applies to **all staff** employed by our school, and to external organisations or individuals working on our behalf. Staff who do not comply with this policy may face disciplinary action.

5.1. Governing Body

The governing board has overall responsibility for ensuring that our school complies with all relevant data protection obligations.

5.2. Data protection officer

The data protection officer (DPO) is responsible for overseeing the implementation of this policy, monitoring our compliance with data protection law, and developing related policies and guidelines where applicable.

They will provide an annual report of their activities directly to the governing board and, where relevant, report to the board their advice and recommendations on school data protection issues.

The DPO is also the first point of contact for individuals whose data the school processes, and for the ICO.

Full details of the DPO's responsibilities are set out in their job description.

Our DPO is Lee Miller and is contactable via email on lmiller@plt.org.uk or by post at Wandle Valley Academy, Welbeck Road, Carshalton, Surrey, SM5 1LW.

Each Academy has their own data protection lead, if you need to contact the Academy regarding anything data related then please contact your data protection lead in the first instance. Details of who this is in each Academy is noted in Appendix B of this policy.

As first point of contact please contact the lead data protection officer of the Academy.

5.3. Headteacher

The headteacher acts as the representative of the data controller on a day-to-day basis.

5.4. All staff

Staff are responsible for:

- Collecting, storing and processing any personal data in accordance with this policy
- Informing the school of any changes to their personal data, such as a change of address
- Contacting the DPO in the following circumstances:
 - With any questions about the operation of this policy, data protection law, retaining personal data or keeping personal data secure
 - If they have any concerns that this policy is not being followed
 - If they are unsure whether or not they have a lawful basis to use personal data in a particular way

- If they need to rely on or capture consent, draft a privacy notice, deal with data protection rights invoked by an individual, or transfer personal data outside the European Economic Area
- If there has been a data breach
- Whenever they are engaging in a new activity that may affect the privacy rights of individuals
- If they need help with any contracts or sharing personal data with third parties

6. Data protection principles

The UK GDPR is based on data protection principles that our school must comply with. The principles say that personal data must be:

- Processed lawfully, fairly and in a transparent manner
- Collected for specified, explicit and legitimate purposes and not further processed in a manner that is incompatible with those purposes.
- Adequate, relevant and limited to what is necessary to fulfil the purposes for which it is processed
- Accurate and, where necessary, kept up to date. Every reasonable step must be taken to ensure that personal data that is inaccurate, having regard to the purposes for which it is processed, is erased, or rectified without delay.
- Kept for no longer than is necessary for the purposes for which it is processed. Personal data may be stored for longer periods insofar as the personal data will be processed solely for archiving purposes in the public interest, scientific or historical research purposes, or statistical purposes, subject to implementation of the appropriate technical and organisational measures required by the UK GDPR in order to safeguard the rights and freedoms of the data subject.
- Processed in a manner that ensures appropriate security of the personal data, including protection against unauthorised or unlawful processing and against accidental loss, destruction, or damage, using appropriate technical or organisational measures.

This policy sets out how the school aims to comply with these principles.

7. Collecting personal data

7.1. Lawfulness, fairness and transparency

We will only process personal data where we have one of 6 'lawful bases' (legal reasons) to do so under data protection law:

- The data needs to be processed so that the school can **fulfil a contract** with the individual, or the individual has asked the school to take specific steps before entering into a contract
- The data needs to be processed so that the school can **comply with a legal obligation**
- The data needs to be processed to ensure the **vital interests** of the individual or another person i.e. to protect someone's life
- The data needs to be processed so that the school, as a public authority, can **perform a task in the public interest or exercise its official authority**
- The data needs to be processed for the **legitimate interests** of the school (where the processing is not for any tasks the school performs as a public authority) or a third party, provided the individual's rights and freedoms are not overridden
- The individual (or their parent/carer when appropriate in the case of a pupil) has freely given clear **consent**

For special categories of personal data, we will also meet one of the special category conditions for processing under data protection law:

- The individual (or their parent/carer when appropriate in the case of a pupil) has given **explicit consent**

- The data needs to be processed to perform or exercise obligations or rights in relation to **employment, social security or social protection law**
- The data needs to be processed to ensure the **vital interests** of the individual or another person, where the individual is physically or legally incapable of giving consent
- The data has already been made **manifestly public** by the individual
- The data needs to be processed for the establishment, exercise or defence of **legal claims**
- The data controller is a foundation, association, or other non-profit body with a **political, philosophical, religious, or trade union aim**, and the processing is carried out in the course of its legitimate activities, provided that the processing relates solely to the members or former members of that body or to persons who have regular contact with it in connection with its purposes and that the personal data is not disclosed outside the body without the consent of the data subjects
- The data needs to be processed for reasons of **substantial public interest** as defined in legislation
- The data needs to be processed for **health or social care purposes**, and the processing is done by, or under the direction of, a health or social work professional or by any other person obliged to confidentiality under law
- The data needs to be processed for **public health reasons**, and the processing is done by, or under the direction of, a health professional or by any other person obliged to confidentiality under law
- The data needs to be processed for **archiving purposes**, scientific or historical research purposes, or statistical purposes, and the processing is in the public interest

For criminal offence data, we will meet both a lawful basis and a condition set out under data protection law. Conditions include:

- The individual (or their parent/carer when appropriate in the case of a pupil) has given **consent**
- The data needs to be processed to ensure the **vital interests** of the individual or another person, where the individual is physically or legally incapable of giving consent
- The data has already been made **manifestly public** by the individual
- The data needs to be processed for or in connection with legal proceedings, to obtain legal advice, or for the establishment, exercise or defence of **legal rights**
- The data needs to be processed for reasons of **substantial public interest** as defined in legislation

Whenever we first collect personal data directly from individuals, we will provide them with the relevant information required by data protection law.

We will always consider the fairness of our data processing. We will ensure we do not handle personal data in ways that individuals would not reasonably expect, or use personal data in ways which have unjustified adverse effects on them.

7.2. Limitation, minimisation and accuracy

We will only collect personal data for specified, explicit and legitimate reasons. We will explain these reasons to the individuals when we first collect their data.

If we want to use personal data for reasons other than those given when we first obtained it, we will inform the individuals concerned before we do so, and seek consent where necessary.

Staff must only process personal data where it is necessary in order to do their jobs.

We will keep data accurate and, where necessary, up-to-date. Inaccurate data will be rectified or erased when appropriate.

In addition, when staff no longer need the personal data they hold, they must ensure it is deleted or anonymised. This will be done in accordance with the school's record retention schedule.

8. Sharing personal data

We will not normally share personal data with anyone else without consent, but there are certain circumstances where we may be required to do so. These include, but are not limited to, situations where:

- There is an issue with a pupil or parent/carer that puts the safety of our staff at risk
- We need to liaise with other agencies – we will seek consent as necessary before doing this
- Our suppliers or contractors need data to enable us to provide services to our staff and pupils – for example, IT companies. When doing this, we will:
 - Only appoint suppliers or contractors which can provide sufficient guarantees that they comply with data protection law
 - Establish a contract with the supplier or contractor to ensure the fair and lawful processing of any personal data we share
 - Only share data that the supplier or contractor needs to carry out their service

We will also share personal data with law enforcement and government bodies where we are legally required to do so.

We may also share personal data with emergency services and local authorities to help them to respond to an emergency situation that affects any of our pupils or staff.

Where we transfer personal data internationally, we will do so in accordance with data protection law.

9. Subject access requests and other rights of individuals

9.1. Subject access requests

Individuals have a right to make a 'subject access request' to gain access to personal information that the school holds about them. This includes:

- Confirmation that their personal data is being processed
- Access to a copy of the data
- The purposes of the data processing
- The categories of personal data concerned
- Who the data has been, or will be, shared with
- How long the data will be stored for, or if this isn't possible, the criteria used to determine this period
- Where relevant, the existence of the right to request rectification, erasure or restriction, or to object to such processing
- The right to lodge a complaint with the ICO or another supervisory authority
- The source of the data, if not the individual
- Whether any automated decision-making is being applied to their data, and what the significance and consequences of this might be for the individual
- The safeguards provided if the data is being transferred internationally

Subject access requests can be submitted in any form, but we may be able to respond to requests more quickly if they are made in writing and include:

- Name of individual
- Correspondence address
- Contact number and email address
- Details of the information requested

If staff receive a subject access request in any form they must immediately forward it to the DPO.

9.2. Children and subject access requests

Personal data about a child belongs to that child, and not the child's parents or carers. For a parent or carer to make a subject access request with respect to their child, the child must either be unable to understand their rights and the implications of a subject access request, or have given their consent.

Children below the age of 12 are generally not regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

Children aged 12 and above are generally regarded to be mature enough to understand their rights and the implications of a subject access request. Therefore, most subject access requests from parents or carers of pupils at our school may not be granted without the express permission of the pupil. This is not a rule and a pupil's ability to understand their rights will always be judged on a case-by-case basis.

9.3. Responding to subject access requests

When responding to requests, we:

- May ask the individual to provide 2 forms of identification
- May contact the individual via phone to confirm the request was made
- Will respond without delay and within 1 month of receipt of the request (or receipt of the additional information needed to confirm identity, where relevant)
- Will provide the information free of charge
- May tell the individual we will comply within 3 months of receipt of the request, where a request is complex or numerous. We will inform the individual of this within 1 month, and explain why the extension is necessary

We may not disclose information for a variety of reasons, such as if it:

- Might cause serious harm to the physical or mental health of the pupil or another individual
- Would reveal that the child is being or has been abused, or is at risk of abuse, where the disclosure of that information would not be in the child's best interests
- Would include another person's personal data that we can't reasonably anonymise, and we don't have the other person's consent and it would be unreasonable to proceed without it
- Is part of certain sensitive documents, such as those related to crime, immigration, legal proceedings or legal professional privilege, management forecasts, negotiations, confidential references, or exam scripts

Responses to SARs shall be dependent upon the terms of the UK GDPR, the Data Protection Act (2018) and associated ICO guidance.

If the request is unfounded or excessive, we may refuse to act on it, or charge a reasonable fee to cover administrative costs. We will take into account whether the request is repetitive in nature when making this decision.

When we refuse a request, we will tell the individual why, and tell them they have the right to complain to the ICO or they can seek to enforce their subject access right through the courts.

9.4. Other data protection rights of the individual

In addition to the right to make a subject access request (see above), and to receive information when we are collecting their data about how we use and process it (see section 7), individuals also have the right to:

- Withdraw their consent to processing at any time

- Ask us to rectify, erase or restrict processing of their personal data (in certain circumstances); unless it can be demonstrated that the school's grounds for such processing override the data subject's interests, rights, and freedoms, or that the processing is necessary for the conduct of legal claims.
- Prevent use of their personal data for direct marketing
- Object to processing which has been justified on the basis of public interest, official authority or legitimate interests
- Challenge decisions based solely on automated decision making or profiling (i.e. making decisions or evaluating certain things about an individual based on their personal data with no human involvement)
- Be notified of a data breach (in certain circumstances)
- Make a complaint to the ICO
- Ask for their personal data to be transferred to a third party in a structured, commonly used and machine-readable format (in certain circumstances)
- Where a data subject objects to the school processing their personal data for scientific and/or historical research and statistics purposes, the data subject must, under the UK GDPR, "demonstrate grounds relating to his or her particular situation". The school is not required to comply if the research is necessary for the performance of a task carried out for reasons of public interest.

Individuals should submit any request to exercise these rights to the DPO. If staff receive such a request, they must immediately forward it to the DPO.

10. Parental requests to see the educational record

Parents, or those with parental responsibility, have a legal right to free access to their child's educational record (which includes most information about a pupil) within 15 school days of receipt of a written request.

If the request is for a copy of the educational record, the school may charge a fee to cover the cost of supplying it.

This right applies as long as the pupil concerned is aged under 18.

There are certain circumstances in which this right can be denied, such as if releasing the information might cause serious harm to the physical or mental health of the pupil or another individual, or if it would mean releasing exam marks before they are officially announced.

11. CCTV

We use CCTV in various locations around the school site to ensure it remains safe. We will adhere to the ICO's [code of practice](#) for the use of CCTV.

We do not need to ask individuals' permission to use CCTV, but we make it clear where individuals are being recorded. Security cameras are clearly visible and accompanied by prominent signs explaining that CCTV is in use.

Any enquiries about the CCTV system should be directed to the Data Protection Officer.

12. Photographs and videos

As part of our school activities, we may take photographs and record images of individuals within our school.

We will obtain written consent from parents/carers for photographs and videos to be taken of their child for communication, marketing and promotional materials. We will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil.

Any photographs and videos taken by parents/carers at school events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers have agreed to this.

We will obtain written consent from parents/carers, or pupils aged 18 and over, for photographs and videos to be taken of pupils for communication, marketing and promotional materials.

Where we need parental consent, we will clearly explain how the photograph and/or video will be used to both the parent/carer and pupil. Where we don't need parental consent, we will clearly explain to the pupil how the photograph and/or video will be used.

Any photographs and videos taken by parents/carers at school events for their own personal use are not covered by data protection legislation. However, we will ask that photos or videos with other pupils are not shared publicly on social media for safeguarding reasons, unless all the relevant parents/carers (or pupils where appropriate) have agreed to this.

Where the school takes photographs and videos, uses may include:

- Within school on notice boards and in school magazines, brochures, newsletters, etc.
- Outside of school by external agencies such as the school photographer, newspapers, campaigns
- Online on our school website or social media pages

Consent can be refused or withdrawn at any time. If consent is withdrawn, we will delete the photograph or video and not distribute it further.

When using photographs and videos in this way we will not accompany them with any other personal information about the child, to ensure they cannot be identified.

13. Data protection by design and default

We will put measures in place to show that we have integrated data protection into all of our data processing activities, including:

- Appointing a suitably qualified DPO, and ensuring they have the necessary resources to fulfil their duties and maintain their expert knowledge
- Only processing personal data that is necessary for each specific purpose of processing, and always in line with the data protection principles set out in relevant data protection law (see section 6)
- Completing data protection impact assessments where the school's processing of personal data presents a high risk to rights and freedoms of individuals, and when introducing new technologies (the DPO will advise on this process)
- Integrating data protection into internal documents including this policy, any related policies and privacy notices
- Regularly training members of staff on data protection law, this policy, any related policies and any other data protection matters; we will also keep a record of attendance
- Regularly conducting reviews and audits to test our privacy measures and make sure we are compliant
- Appropriate safeguards being put in place if we transfer any personal data outside of the European Economic Area (EEA), where different data protection laws will apply
- Maintaining records of our processing activities, including:
 - For the benefit of data subjects, making available the name and contact details of our school and DPO and all information we are required to share about how we use and process their personal data (via our privacy notices)
 - For all personal data that we hold, maintaining an internal record of the type of data, type of data subject, how and why we are using the data, any third-party recipients, any transfers outside of the EEA and the safeguards for those, retention periods and how we are keeping the data secure

14. Data security and storage of records

We will protect personal data and keep it safe from unauthorised or unlawful access, alteration, processing or disclosure, and against accidental or unlawful loss, destruction or damage. In particular:

- Paper-based records and portable electronic devices, such as laptops and hard drives that contain personal data, are kept under lock and key when not in use
- Papers containing confidential personal data must not be left on office and classroom desks, on staffroom tables, or left anywhere else where there is general access
- Where personal information needs to be taken off site, staff must sign it in and out from the school office
- Passwords that are at least 10 characters long containing letters and numbers are used to access school computers, laptops and other electronic devices. Staff and pupils are reminded that they should not reuse passwords from other sites
- Encryption software is used to protect all portable devices and removable media, such as laptops and USB devices
- Staff, pupils or governors who store personal information on their personal devices are expected to follow the same security procedures as for school-owned equipment. All work related emails/documents/information should be stored on work devices. If information is required to be on a personal device, it needs to be securely
- Where we need to share personal data with a third party, we carry out due diligence and take reasonable steps to ensure it is stored securely and adequately protected (see section 8)

15. Disposal of records

Personal data that is no longer needed will be disposed of securely. Personal data that has become inaccurate or out of date will also be disposed of securely, where we cannot or do not need to rectify or update it.

For example, we will shred or incinerate paper-based records, and overwrite or delete electronic files. We may also use a third party to safely dispose of records on the school's behalf. If we do so, we will require the third party to provide sufficient guarantees that it complies with data protection law.

16. Personal data breaches

The school will make all reasonable endeavours to ensure that there are no personal data breaches.

In the unlikely event of a suspected data breach, we will follow the procedure set out in appendix B.

When appropriate, we will report the data breach to the ICO within 72 hours after becoming aware of it. Such breaches in a school context may include, but are not limited to:

- A non-anonymised dataset being published on the school website which shows the exam results of pupils eligible for the pupil premium
- Safeguarding information being made available to an unauthorised person
- The theft of a school laptop containing non-encrypted personal data about pupils

17. Training

All staff and governors are provided with data protection training as part of their induction process.

Data protection will also form part of continuing professional development, where changes to legislation, guidance or the school's processes make it necessary.

18. Monitoring arrangements

The DPO is responsible for monitoring and reviewing this policy.

This policy will be reviewed every **2 years** and shared with the Audit and Risk Committee.

19. GDPR Retention Schedule

This schedule has been created for Parallel Learning Trust and the Academies within the Trust. The schedule contains guidance on how long to keep records and how these records should be disposed of once they no longer need to be held.

Records may be held in many formats. This includes paper, electronic (including databases), audio and visual.

This schedule allows for the Trust and Academies to ensure they are storing data in the correct way and for the correct amount of time, in accordance with the Data Protection Act 1998 and Freedom of Information Act 2000.

The retention schedule explains how long records should be held, and how they should be disposed of. If the data needs to be held longer than the specified guidelines, the reason for this needs to be noted.

Types of Data

Pupil Data

Until the child has left the school – for primary schools. When the pupil leaves primary, their file should be securely sent to their new school/secondary school. For 25 years from the child's date of birth – for the school where the child completes their compulsory education.

Child protection files

Keep child protection information in separate files, and these must be kept for 25 years from the child's date of birth and after this time, review whether you still need it. If no longer needed, destroy the data in the appropriate way.

Child sexual abuse files

It's currently an offence to destroy any records in relation to the Independent Inquiry into Child Sexual Abuse. This requirement overrides any GDPR regulations - see section 21 of the Inquiries Act 2005. These files must be kept separate to the pupil's file.

This includes any materials regarding:

- Allegations (substantiated or not) about anyone who may have been involved in or had knowledge of child sexual abuse or exploitation
- Allegations (substantiated or not) about individuals engaging in sexual activity with, or having a sexual interest in, children
- Institutional failures to protect children from sexual abuse or other exploitation
- Statutory responsibilities for the care of children in public or private care
- Development of policies or legislation on child protection
- The determination of an Honours award to anyone now demonstrated to have had a sexual interest in children, or suspected of having such an interest

Even if a pupil has transferred out of the school and you intend to move these child protection files with them, you should consider retaining a copy of these records.

The inquiry continues to consider whether records will be kept in the future, however until this inquiry closes you must adhere to the guidelines above.

Court Orders relating to pupils

Under the requirements of data protection law, you must not keep more personal information on file than is absolutely necessary. Therefore, you should only keep a copy of a court order relating to a pupil if having this extra information would be useful.

Staff Data

Staff Personal Files

Information needed:

- Tax code and National Insurance number
- Pay
- Holiday
- Hours of work
- Paid sickness (if more than 4 days) and statutory sick pay
- Copies of proof of right to work (keep for duration of employment, and for 2 years afterwards)

Information that should be included:

- Personal details
- Name
- Address
- Date of birth
- Emergency contact details
- Gender
- Education and qualifications
- Work experience
- Details of any known work-relevant disability
- References - if you're missing these, see another of our articles for advice on how to minimise the risk
- Employment history:
 - Date employment began
 - Any subsequent promotions
 - Employee's current job and job title
- Details of terms and conditions:
 - A copy of the written terms and conditions of employment, or the employment contract, and any changes to the contract
 - Any other benefits that they may be entitled to
- Absence:
 - Lateness
 - Sickness
 - Authorised or unauthorised absences, including - holidays, maternity leave, paternity leave, dependent leave and compassionate leave
- Any training or further education undertaken during the course of employment, whether it was internal or external
- Accidents at work or travelling to work, including the administration of first aid. See more on requirements for recording and reporting accidents
- Disciplinary action and termination of employment

DBS

Do not need to be included in files. If they are included, they need to be securely disposed of after 6 months.

Retention of personal files and staff information

No statutory requirement for retention of staff personnel files, however it is recommended they are kept for 6 years after an employee leaves employment. For the Trust and Academies, our policy is to keep them for 6 years after the employee has left employment with us, as recommended. After this time, they need to be destroyed in line with the guidance.

Unsuccessful candidates

Keep securely for 6 months, and then dispose after this time. It is important to keep this information for this amount of time in case of a discrimination claim. The type of data kept is all data you have on the candidate, which at this stage would include CV, cover letter and interview notes.

Allegations against staff data

If allegations of abuse made about staff were found to be malicious, remove details of allegations from the staff member's personnel file.

For all other allegations:

- Keep a clear and comprehensive summary of the allegation on the confidential personnel file of the accused, including details of how the allegation was followed up and resolved and a note of any action taken and decisions reached
- Provide a copy of the report to the person concerned

This is to make sure:

- Accurate information can be given in response to requests for a reference in future
- Clarification can be given where future DBS checks reveal information about allegations that did not result in criminal convictions

Records of allegations should be retained at least until the accused person has reached normal pension age, or for a period of 10 years from the date of the allegation if that is longer.

This is set out in the statutory safeguarding guidance Keeping Children Safe in Education, published by the Department for Education (DfE).

Retention of First aid, accident and medical records

Please refer to our Health and Safety Policy in records to the retention of first aid and accident records.

Medical

You should retain records for medicines administered to children for as long as those children are pupils at the school.

Major Incidents

A copy should be kept within the pupil file.

IMPORTANT – If you keep data longer than the periods listed in the retention schedule above, it is important you note why the data is being kept for longer than guidance suggests.

Disposal of records

When records no longer need to be retained, they need to be disposed of appropriately.

Paper records – Containing personal, sensitive information should be disposed of confidentially. They need to be shredded and disposed of or shredded by Third Party companies in order to be completely destroyed.

Electronic records – These records need to be deleted securely from the electronic systems they are held on. Any back-ups of these electronic data records need to be destroyed also.

Retention Schedule in full listed below.

1. Governance, Funding and Financial Management of the Academy Trust

Academies are governed by the Academy Trust, which will usually be a company limited by guarantee¹. The Academy Trust may also be a charitable trust.

1.1 Governance of the Academy Trust

¹ A **company limited by guarantee** does not usually have a share capital or shareholders, but instead has members who act as guarantors. The guarantors give an undertaking to contribute a nominal amount (typically very small) in the event of winding up of the **company**. In the case of an Academy, the guarantors will guarantee the sum of £10 each.

Appendix A Glossary

Admissions Policy

Academies are their own admission authority (although the LA or another organisation can be contracted to carry out the tasks associated with the role). The Admissions Policy must comply with the requirements of the admission code and must be reviewed and adopted annually, irrespective of any changes. A formal consultation for a period of at least eight weeks between 1 November and 1 March must be carried out where any changes are required. Admissions-related information should be uploaded to the academy website.

Accessibility Plan

A plan or strategy must be put into place, setting out how disabled pupils can participate in the curriculum and associated services, thereby maximising access to both the physical environment and written information provided to pupils.²⁶

Annual Report and Accounts

It is a condition of the funding agreement that Academy accounts must be produced for the 12-month accounting period ending on 31 August. The Annual Report and Accounts must be filed with Companies House by 31 May and should include the following elements:

Reports:

- A trustees' report;
 - A governance statement;
 - A statement on regularity, propriety and compliance;
 - A statement of trustees' responsibilities;
 - An independent auditor's report on the financial statements; and
 - An independent auditor's report on regularity.
-
- Financial statements;
 - A statement of financial activities;
 - A balance sheet;
 - A cash-flow statement; and

- Notes which expand on the statements, including a note on the Academy trust's accounting policies.²⁷

Annual Return

Every Academy must file a completed annual return at Companies House each year.²⁸

Articles of Association

The Articles of Association prescribe the internal management, decision-making and running of the Academy trust as well as its liability. The DfE has model documentation which schools are expected to adopt.²⁹

Annual Report – Trustees'/Directors' Report

The Directors of the Academy are responsible for the preparation of a Trustees'/Directors' report which supports the financial statements. The report fulfils the requirements for a Directors' report, as set out in ss. 415–419 CA 2006, as well as a Trustees' report under charity law, as set out in the Charities' SORP. The main objective is to supplement financial information with such further information as necessary for a full appreciation of the company's activities. The report describes what the Academy is trying to do and how it is going about it, demonstrates whether and how the Academy has achieved its objectives during the year, and explains its plans for the future.³⁰

Charging and Remissions Policy

An Academy is treated in the same way as a maintained school in respect of charging, particularly in relation to, charges, regulations about information about charges and school hours, voluntary contributions, recovery of sums as civil debt, interpretation regarding charges, and the obligation to enter pupils for public examinations. The terms also place an obligation

²⁷ *Ibid* p174.

²⁸ *Ibid* pp68-69.

²⁹ *Ibid* pp49ff.

³⁰ *Ibid* p175

on an Academy to have a Charging and Remissions policy.

The Education Act 1996 provides that parents and pupils cannot be charged for any activity, unless there is a policy in place. Charges per pupil cannot exceed the actual costs incurred, so that no extra cost can be charged to cover pupils who cannot afford the activity or in order to make a profit. Charges for activities taking place during the normal school day can only be on the basis of voluntary contributions and pupils will be treated no differently whether they pay the contribution or not.

Directors – Appointment

The method of appointment will depend on the category of Director and the terms of the Articles. However, there must be at least two parent governors and no more than a third of Directors – including the Head Teacher – can be Academy staff. Directors are generally appointed for a term of 4 years.

Directors – Disqualification

The Company Directors' Disqualification Act 1986 grants the court power to make an order disqualifying a person from promoting, forming or taking part in the management of a company without the leave of the court. There are numerous grounds for disqualification and the model articles set out specific instances which will be regarded as disqualification.

Directors – Termination of Office

Generally, Directors are appointed for a fixed term of office, which in the model articles is set at 4 years. A Director may resign by giving written notice to the clerk at any time, although the articles provide that this will only be valid if there are at least three Directors remaining in office when the notice of resignation is to take effect. The Companies Act 2006 provides that a "company may by ordinary resolution at a meeting remove a director before the expiration of his period of office, notwithstanding anything in any agreement between it and him". This very wide provision is slightly tempered by the model articles, which state that Directors can generally

be removed from office by the person or persons who appointed them. This means that where Directors are appointed by the members they can be removed from office, following a member resolution, by written notice to the clerk. Elected Directors cannot be removed in this way.

Funding Agreement with the Secretary of State

The Funding Agreement is effectively the contract by which the Academy agrees to provide educational services in exchange for funding provided by the DfE. There are model versions of the Funding Agreement, but these have been updated over time to reflect changes in policy and legislation. The DfE does not expect schools to deviate from the model documents.

Funding Records – Capital Grant

Specific prior written agreement by the Secretary of State must be obtained prior to incurring any capital expenditure on which capital grant payments are sought. Capital expenditure may include costs for building new premises or for substantially refurbishing existing premises.

Funding Records – Earmarked Annual Grant (EAG)

The EAG may be paid for either recurrent expenditure or capital expenditure for such specific purposes as have been agreed between the Secretary of State and the Academy. EAG may only be spent in accordance with the terms, conditions and scope of the grant, which are set out in the relevant funding letter.

Funding Records – General Annual Grant (GAG)

The GAG will be paid to cover the normal running costs of the Academy, such as salary and administration costs. The funding is equivalent to that which would be received by a maintained school with similar characteristics, together with an additional element for functions which would be carried out by the LA if the Academy were a maintained school.

General Members' Meetings

Meetings of the members are known as General Meetings. Apart from any specific requirement to call an Annual General Meeting, the Articles contain no specific obligations with regard to holding General Meetings. This means that it is feasible for long periods of time to pass without any meetings being held, since all resolutions are passed using the written resolution method! Members' meetings are closely regulated and the Companies Act 2006 has a whole chapter (Part 13, Chapter 3) dedicated to the requirements. This can be contrasted with Board Meetings, which have very little in the way of formal requirements.

Governance Statement

Academies are recipients of public funding and so must prepare a Governance Statement – this is a requirement by HM Treasury for all public bodies. It must be signed by the Chair and Accounting Officer on behalf of the board.

Memorandum of Association

Document confirming the three 'subscribers' who wish to form the Academy and become its members. The memorandum has no ongoing significance once an Academy has been incorporated.

Rules and Bylaws

The Directors are entitled to make "such rules or bylaws as they may deem necessary or expedient or convenient for the proper conduct and management of the Academy" in connection with matters that are "commonly the subject matter of company rules", such as in connection with meetings or members.

Special Educational Needs

The Academies Act 2010 provides that academies must have regard to the SEN Code of Practice. Published by the DfE, the Code of Practice includes adoption of a policy on SEN which sets out the approach to meeting pupils' special educational needs whether with or without a statement.

Strategic Review

Academies are now required to produce a strategic report, which must contain a fair review of the Academy's business as well as a description of the principal risks and uncertainties it faces. It will specifically include the following: achievements and performance; financial review; plans for future periods; and funds held as a custodian trustee on behalf of others. The Directors/Trustees must include a clear statement that they are approving the strategic report in their capacity as Company Directors.

Written Scheme of Delegation

The board can delegate any power or function to an individual Director, a committee, the principal or any other holder of an executive office. That person must report to the board when that authority has been exercised and any action taken, or decision made.

Appendix B: Personal data breach procedure

This procedure is based on [guidance on personal data breaches](#) produced by the ICO.

On finding or causing a breach, or potential breach, the staff member or data processor must immediately notify the DPO

The DPO will investigate the report, and determine whether a breach has occurred. To decide, the DPO will consider whether personal data has been accidentally or unlawfully:

- Lost
- Stolen
- Destroyed
- Altered
- Disclosed or made available where it should not have been
- Made available to unauthorised people

The DPO will alert the headteacher and the chair of governors

The DPO will make all reasonable efforts to contain and minimise the impact of the breach, assisted by relevant staff members or data processors where necessary (actions relevant to specific data types are set out at the end of this procedure)

The DPO will assess the potential consequences, based on how serious they are, and how likely they are to happen

The DPO will work out whether the breach must be reported to the ICO. This must be judged on a case-by-case basis. To decide, the DPO will consider whether the breach is likely to negatively affect people's rights and freedoms, and cause them any physical, material or non-material damage (e.g. emotional distress), including through:

- Loss of control over their data
- Discrimination
- Identify theft or fraud
- Financial loss
- Unauthorised reversal of pseudonymisation (for example, key-coding)
- Damage to reputation
- Loss of confidentiality
- Any other significant economic or social disadvantage to the individual(s) concerned

If it's likely that there will be a risk to people's rights and freedoms, the DPO must notify the ICO.

The DPO will document the decision (either way), in case it is challenged at a later date by the ICO or an individual affected by the breach. Documented decisions are stored in a secure folder on the DPO desktop and also a paper copy is stored in a locked cabinet at the Trust office and School Office.

Where the ICO must be notified, the DPO will do this via the ['report a breach' page](#) of the ICO website, or through their breach report line (0303 123 1113), within 72 hours. As required, the DPO will set out:

- A description of the nature of the personal data breach including, where possible:
 - The categories and approximate number of individuals concerned
 - The categories and approximate number of personal data records concerned
- The name and contact details of the DPO
- A description of the likely consequences of the personal data breach
- A description of the measures that have been, or will be taken, to deal with the breach and mitigate any possible adverse effects on the individual(s) concerned

If all the above details are not yet known, the DPO will report as much as they can within 72 hours. The report will explain that there is a delay, the reasons why, and when the DPO expects to have further information. The DPO will submit the remaining information as soon as possible

The DPO will also assess the risk to individuals, again based on the severity and likelihood of potential or actual impact. If the risk is high, the DPO will promptly inform, in writing, all individuals whose personal data has been breached. This notification will set out:

- A description, in clear and plain language, of the nature of the personal data breach
- The name and contact details of the DPO
- A description of the likely consequences of the personal data breach
- A description of the measures that have been, or will be, taken to deal with the data breach and mitigate any possible adverse effects on the individual(s) concerned

As above, any decision on whether to contact individuals will be documented by the DPO.

The DPO will notify any relevant third parties who can help mitigate the loss to individuals – for example, the police, insurers, banks or credit card companies

The DPO will document each breach, irrespective of whether it is reported to the ICO. For each breach, this record will include the:

- Facts relating to the breach
- Effects
- Action taken to contain it and ensure it does not happen again (such as establishing more robust processes or providing further training for individuals)

Records of all breaches will be stored on the schools computer

The DPO and headteacher will meet to review what happened and how it can be stopped from happening again. This meeting will happen as soon as reasonably possible

Actions to minimise the impact of data breaches

We will take the actions set out below to mitigate the impact of different types of data breach, focusing especially on breaches involving particularly risky or sensitive information. We will review the effectiveness of these actions and amend them as necessary after any data breach.

Special category data (sensitive information) being disclosed via email (including safeguarding records)

- If special category data is accidentally made available via email to unauthorised individuals, the sender must attempt to recall the email as soon as they become aware of the error
- Members of staff who receive personal data sent in error must alert the sender and the DPO as soon as they become aware of the error
- If the sender is unavailable or cannot recall the email for any reason, the DPO will ask the ICT department to recall it
- In any cases where the recall is unsuccessful, the DPO will contact the relevant unauthorised individuals who received the email, explain that the information was sent in error, and request that those individuals delete the information and do not share, publish, save or replicate it in any way
- The DPO will ensure we receive a written response from all the individuals who received the data, confirming that they have complied with this request
- The DPO will carry out an internet search to check that the information has not been made public; if it has, we will contact the publisher/website owner or administrator to request that the information is removed from their website and deleted
