### Classrooms

#### How do you feel we could improve the classrooms?

Overall students are happy with classroom sizes and how they are presented. They did have some suggestions on how to make the learning experience.

- Adding blinds into classrooms for the summer time, helping keep the rooms cool whilst also stopping the sunlight from reflecting on the boards making it difficult to see.
- Redecorating the classrooms and hall ways, making them feel brighter and more welcoming. Students suggested calming cool colours.
- Some students mentioned that they are in the same room too many times during the day, leaving them finding it hard concentrate.

During our meeting students spoke about the gym equipment in the pool room and that it no longer works. They came up with the idea of having a proper gym room at school with different equipment. They were reminded that we offer combat academy each week but they feel that some students engage well with this some feel uneasy being seen in the town and would much prefer to have a gym in the school. Being able to use it during P.E lessons as well as an afterschool club. Students mentioned that the pool room is no longer a place they enjoy being during break times and would like to see some of this used as a gym room.

#### What would you like to add to the lunch menu?

#### Any other business?
