

Sports Premium Funding – Expenditure Academic Year 2019-2020

The Academy Coach

- For the weeks leading up to the change in normal school procedures, we once again employed The Academy Coach, Joe Butler (ex-Glyn pupil who trains the Chelsea U114 girls' team) who has provided CPD training and lesson plans throughout the whole year for an array of sports including football, tag-rugby, hockey, tennis, rounders, cricket fun-fitness and athletics. Joe (and his assistant Scott) have the complete respect of all the children and continue to be a very positive role-model for fitness.

Cost: £4590

Sports Leader

- The Sports Leader continues to train the school Netball Team, Football B team and various ad-hoc sports, as well as coordinate the inter school football & netball matches, House Cross-country, District Cross-Country, Sportshall Athletics teams, Tag-Rugby teams, Hockey team, Cricket teams, District Sports teams, Sports Crew and Sports Day, as well as all the admin for sporting events including communication with teachers and parents, liaising with all the Epsom junior schools, feeding back into the weekly bulletin, Active Surrey and governors' reports. She is also the leader at all sporting events that the school attends.

Cost £5240

Kit

- Additional school kit for inter-school fixtures and tournaments were purchased to replaced damaged or non-returned items.

Cost £346

Swimming lessons

- Swimming lessons were subsidised.
- Due to Covid restrictions swimming lessons halted early in March 2020 and have not yet resumed as of March 2021.

Cost £512

Updated current curriculum equipment

- Various curriculum equipment had to be replaced due to wear and tear. We also bought personalised feather flags in the four house colours plus a First Aid flag to assist in visual location at events, particularly Sports Day and District Sports.
- Top-up items were bought to ensure all children had sufficient equipment for PE lessons eg. cricket balls, tennis balls, footballs, netballs etc.

Cost £2419

Various playground equipment

- Targeting the less-active children at lunchtimes and encouraging team-play.

Cost £320

Active Surrey Sports Crew Training

- Eleven Year 6 children completed a training course at the Rainbow Leisure Centre, to learn skills to assist in promoting activity in sport amongst the less-active during break-times and to use their leadership qualities to influence their peers to strive for greatness!

Cost: £165

Positive Play Leader for playtimes and lunchtimes

- Our Positive Play Leader organises and encourages inclusive activities at break-times, incorporating the Sports Crew to lead various challenges; she also monitors progress which is fed back to Active Surrey.

Cost £ 442

Total spend from September 2019-August 2020: £ 14035

2019 – 2020 Planned expenditure for CPD

Sports Leader - £5240

Positive Play Leader £450

Academy Coach - £5520 (no Spring Term costs)

Yoga lessons for Year 4 £350

Dance lessons for Year 6 £200

Whole school skipping day - £500

Ongoing kit expenditure - £500

Ongoing equipment expenditure £3000

Rugby coach gift cards - £200 (if competitions are running)

£15960

Analysis: Autumn 2019 – Summer 2020

Average percentages across the whole school – **56%** of the children took part in a regular sporting extra-curricular activity and **37%** of the children represented the school in an inter-school competition. This figure would have increased greatly should the summer term have been “standard”.

(From 20th March 2020 there was no inter-school activity or after-school clubs during “lockdown”; therefore, more inter-house competitions were implemented to increase activity)

Participation in Year 3: -

- A very small number had the opportunity to represent the school in an inter-school competition since most events for the lower school happen in the Spring and Summer terms. Around a fifth of all boys and girls were scheduled to participate in events that were later cancelled.
- A third of SEN children competed in the inter-house Cross Country event, along with half of PP and a third of EAL students.
- Almost two-thirds of all the year 3 children joined an extra-curricular sports-based club during the first half of this year, with a higher percentage of girls compared to boys which is considerably different to last year.
- Nearly half of all SEN children in year 3 joined one of these clubs, with half of Pupil Premium students and almost two thirds of EAL children.
- These club statistics are much improved from last year, and that it can be presumed that more children would have been involved if summer clubs had been able to run.
- Overall, given the circumstances, a pleasing number of children were involved in sporting activity, especially in the uptake of extra-curricular clubs.
- A fifth of Year 3 children would have participated in inter-school events which were then cancelled.

Participation in Year 4: -

- As with Year 3, a smaller number of Year 4 children were given the opportunity to represent the school in an inter-school competition, although it did amount to a quarter of all children.
- A quarter of the boys and almost half of the girls were expected to participate in events that were later

	Year 3		Year 4		Year 5		Year 6	
	This year	This cohort last year	This year	This cohort last year	This year	This cohort last year	This year	
% of children who were due to participate in an event which was cancelled this academic year								
% of children	18	n/a	32	n/a	60	n/a	44	
% of boys	20	n/a	24	n/a	62	n/a	45	
% of girls	15	n/a	44	n/a	59	n/a	43	
% of SEN	0	n/a	11	n/a	75	n/a	25	
% of PP	13	n/a	0	n/a	50	n/a	50	
% of EAL	23	n/a	37	n/a	80	n/a	54	

cancelled. This included a tenth of SEN pupils and over a third of EAL pupils.

- The numbers competing in inter-house tournaments was very healthy, with almost two thirds of boys and only slightly fewer girls participating. Nearly half of SEN children and a quarter of EAL took part along with the full PP contingent.
- Just under half of the year 4 children joined an extra-curricular sports-based club this year, with quite a slant in favour of the boys. This would most likely have evened out if the summer clubs had taken place.
- Over half of SEN children in year 4 joined one of these clubs, with a third of Pupil Premium students and a fifth of EAL children.
- These club numbers are relatively similar to last year's figures with the exception of PP children, of which there is a very small percentage in this cohort.
- A third of Year 4 children were scheduled to compete in inter-school events that were cancelled.

Participation in Year 5: -

- Almost two thirds of year 5 represented the school, with considerably more boys than girls.
- Only a quarter of SEN children were selected, but three quarters of PP pupils and nearly two thirds of EAL children were involved.
- The representation statistics are generally a great improvement on last year, with the involvement of girls slightly disappointing. But again, this would normally have evened out over the course of the year.
- The inter-house statistics, however, show almost three quarters of children competing, with an excellent uptake by the girls and vastly improved numbers on SEN, PP & EAL students compared to this cohort last year.
- Less pupils joined a sports club, though these numbers are affected for similar reasons stated above. There were no SEN children participating and the PP numbers were down but EAL children were more involved than the previous year.
- Large numbers of Year 5 children were expected to take part in inter-school events that were ultimately cancelled.

Participation in Year 6: -

- Almost three quarters of the children competed on behalf of the school, involving a significantly larger percentage of boys compared to girls. This would be due to football matches being played earlier this year, where the A & B teams are boy-heavy. The Girls' team football matches are usually played nearer the end of the Spring term which, of course, didn't happen this year.
- 100% of SEN children were representing the school, all of which are boys. The very small number of PP children did not get the opportunity but half of the EAL students did.
- Whilst Year 6 were the only whole year group to be present for last part of the year, their inclusion in the inter-house competitions was almost 100%. Some children opted not to return, but to finish the year from home and therefore, the numbers aren't fully perfect but every child at school did compete in the various activities.
- Over half of the year 6 children participated in an extra-curricular club, with a slightly larger percentage of girls than boys. This is most likely due to the increasing interest and participation in girls' football.
- Half of both SEN and PP children joined extracurricular sports clubs, but only about a sixth EAL students.
- Nearly half of all the children were due to participate in inter-school events which were cancelled.

General Findings

This year, the statistics show a rising interest in activities and involvement amongst all the boys and girls in both sports clubs and inter-school competition and it is regrettable that they were not all able to fulfil their role in representing Wallace Fields. It is still a main focus to involve the lower school in as many Active Surrey-organised activities as possible when the situation allows.

A stronger message regarding health and wellbeing is fervent around the school, especially the connection between body and mind. The children have embraced this and are keen to put it into practice.

The morning Fitness Mile, break-time targeting of the inactive and coaches Joe & Scott continue to be having a very positive influence on the children's attitude to sport.
