

WALLACE FIELDS JUNIOR SCHOOL

SPRING TERM 2023

Whether coding is new, or an identified passion, Code Camp will let your child unleash their creativity in a fun, collaborative and supportive environment. All attendees will build their own apps, learn foundational coding principles and have ongoing access to the Code Camp World platform to keep coding long after the course has concluded.

[Code Camp](#) is now a global movement, having taught over 120,000 children how to code in the past 9 years. We focus on problem-solving, creating apps and improving computational thinking in a fun and engaging way, so your child will be ready to take on the digital world of the future.

Key details:

Mondays - Years 3&4

Monday 9th January - Monday 20th March, 3:30pm-4:30pm, £100 for 10 sessions
