## HEAD'S UPDATE

### Governor's Visit - Seeking Curriculum and Intervention Assurance

We would like to thank two of our school governors, Liz Berry and Jane Clayton, for coming into school to review our curriculum including the interventions, maths and English provision. Both governors are highly experienced in education and were extremely impressed with the quality of teaching and learning across the school. They were particularly struck by the strength of our interventions for SEND and EAL pupils.

They were available to meet parents at the front gate, although they didn't meet many parents on this occasion, they will be present at future school events to offer further opportunities for engagement.

They talked to the children and staff and looked at lessons in action and saw some of the work the children had produced. We are very grateful to them for giving up their time to see the school in person, and they have asked us to pass on their thanks to all staff for their continued hard work and dedication.

## Dojo System Breach Update

Last weekend, an individual gained access to our Dojo House Points system and sent inappropriate messages to some parents. Staff acted quickly on Sunday to shut down the messaging and 'story' functions. We have identified the breach, and our technical team is checking all systems linked with the Dojo platform to ensure full security in future.

Please note that we never use the Dojo platform to send any messages to parents. All official communication is sent directly from the school office via email.

Thank you to the parents who contacted us. The issue has been dealt with, and digital safety remains a key priority for our school.

## THIS WEEK

### Stars of Week

The latest **Stars of the Week** were announced in the assembly last week - they create a superb role model for their fellow peers through their efforts and commitment by following the school values.

Nominated each week in our Celebration Assembly every Friday. All of the Stars of the Week receive a certificate and five house points for showing one or more of the school BELIEVE values - **B**rilliance, **E**nthusiasm, **L**earning, **I**nspiration, **E**quality, **V**ision and **E**very pupil matters. Well done to this week's winners.

## Junk Percussion Music Workshop

On Monday this week, the children enjoyed making a bit (or rather, a lot!) of creative noise when they took part in their Junk Percussion workshop led by Mr Gilmore from Sussex Music Workshops. This workshop was planned as an introduction to our music composition projects that we are starting in each year group, based on *The Great Outdoors*.

The purpose of these sessions was to help the children understand that everyday objects can be used creatively to make a wide range of musical sounds - just as natural objects outdoors can create interesting noises. When combined, these sounds can build exciting musical textures.

I think my favourite piece of junk was the large water bottle - there were so many different ways to create different effects! The children also had to think carefully about how to structure their rhythms as a group in order to build their final composition.

Here are some photos from each year group to give you a little taste of the day.

Many thanks to the PTA for funding this lovely opportunity for every child.

For lots of photos and videos from the workshop click here<sup>4</sup>.

## Year 5 Poetry Festival

In Year 5, the children have been learning about Karl Nova and using his poems as inspiration to write their own. We have spent the last three weeks generating ideas for poems and the children wrote their own last week. We finished our poetry topic with a fabulous '**Poetry Festival**', where children could perform their poetry to the rest of the year group. We welcomed Mr Lee to perform, and the children loved his performance of 'Jabberwocky'. Well done to all the Year 5 children and we hope you enjoyed the poems they brought home.

## Panathlon

On Monday, Miss Hill and Mrs Short took 8 children from Year 4 (Ezra, Louie, Harry, Thomas, Ethan, Jake, Gabriel and Faye) to the Active Surrey Primary **Panathlon Sports Challenge** at NESCOL. The children worked incredibly well as a team and participated in seven different multi-skills style stations, scoring highly at each station. We are delighted to share the news that the team finished in first place and were presented with gold medals and a huge trophy to bring back to school! We are incredibly proud of each and every member of the team for their sportsmanship and how they represented Wallace Fields so well. The team have also progressed to the county final later this year - we will keep you updated as to their progress!

The boys played amazing throughout and were undefeated in every game."* Match Report by Mrs Dunn. See the photos attached.

**On Monday 2nd February 2026** we sent two football teams to the Epsom and Ewell Football Tournament at Priest Hill and both Year 5 & 6 got to the final but were pipped to the post and both came second.

### Wallace Fields Junior School are Going to the Moon!

Four astronauts will fly around the Moon and back on **Artemis II**, the first crewed flight under NASA's Artemis campaign. Artemis II will test NASA's deep space capabilities, as humans fly on the SLS rocket and Orion spacecraft for the first time. The approximately 10-day mission will launch from Launch Complex 39 at NASA's Kennedy Space Centre in Florida no later than April 2026.

To celebrate this monumental return to the Moon for the human race, each class in the school has received a special boarding pass and the submitted names will be included on an SD card that will fly inside Orion when the Artemis II mission launches... we also thought that we better send Mr Lee and Mrs Day to the Moon as well just for good measure, so they got their own individual passes!

If your child would like to have their personal name added to the SD card and join the mission, please feel free to enter your information at home by clicking on this website link: <https://www3.nasa.gov/send-your-name-with-artemis/#user-information>

## REMINDER AND USEFUL INFORMATION

### Online Subscriptions Fees

We are pleased to continue our online subscriptions to **Mathletics**, **Times Table Rock Stars**, **Spelling Shed** and **Linguascope** to name a few, which are used by the children both at school and to complete homework. These online portals are useful tools for children to develop their speed and confidence in maths, spelling and language comprehension.

The school purchases these online resources each year and in order to cover the cost of these subscriptions, we would like to request a voluntary contribution of **£10.50 per child** to cover these costs. If your child is currently on Free School Meals you will not be required to pay this.

We realise not everyone will be able to afford this, but if you are in a position to contribute, please do so via Scopay. Also, our **School Fund** Voluntary Contribution button which is available under **Products** in Scopay is always available for you to make a further voluntary contributions to our School Fund during the school year. We would also like to thank families who have donated to the School Fund this year – which again allows us to fund the extras that we wouldn't be able to afford from government funding alone.

## 10 Top Tips for Parents and Educators

# SUPPORTING SAFE USE OF AI

Artificial Intelligence (AI) is increasingly woven into young people's digital lives. It can offer some educational benefits and day-to-day assistance; however, it also raises concerns about misinformation, privacy, fairness, and safety. This guide provides parents and educators with practical strategies to support young people to navigate AI tools responsibly, and to use them safely and with discernment.

- 1 DEMYSTIFY WHAT AI REALLY IS**

Children encounter AI in most online places, including games, streaming platforms, and school tools. Explain that AI uses patterns from past data to make decisions, but it doesn't think or feel like humans. Use age-appropriate examples, like how recommendations on YouTube or Netflix work, to build understanding and prevent false beliefs about AI being all-knowing or alive.
- 2 TALK ABOUT RISKS OF MISINFORMATION**

AI can create convincing false information, including deepfake videos, photos, and fake facts. Encourage children to think critically about what they see and read. Teach them to double-check information using reliable sources, to look at images and videos carefully, and to ask an adult if something doesn't seem right.
- 3 DISCUSS DATA AND PRIVACY**

Explain that AI systems learn by analysing lots of data, sometimes including personal information. Help young people to be mindful of what they share online and why protecting personal data matters. Model good habits like reading app permissions together or reviewing what's collected by voice assistants like Alexa or Siri.
- 4 ENCOURAGE CREATIVE USE OF AI**

Support children, when using AI tools, to explore ideas, make art, or build projects. This fosters confidence, imagination, and independent thinking. When children use AI creatively, rather than just passively consuming it, they are more likely to stay engaged and make thoughtful choices.
- 5 USE AGE-APPROPRIATE AI TOOLS**

Not all AI platforms are suitable for children. Choose tools designed for education or creativity, with clear safety policies. Review terms of use and privacy settings, and help children use them in age-appropriate ways. For example, some chatbot tools mimic conversation but should only be used with guidance and boundaries in place.
- 6 USE AI TOGETHER**

Exploring AI tools together can help adults understand how they work and spot potential issues. Try co-writing a story with an AI writing assistant or experimenting with an AI art tool. This encourages curiosity, helps you stay informed about the latest AI tools, and allows you to reinforce safe and respectful use while modelling critical thinking.
- 7 SET BOUNDARIES FOR AI USE**

Establish when, where, and how AI tools can be used, just as you would with any digital technology. For example, you might agree not to use AI tools to complete school assignments without permission, or to avoid unsupervised use of voice assistants. Consistent boundaries help manage overuse and misuse.
- 8 WATCH FOR OVERRELIANCE**

Some AI tools, like homework help apps, may be tempting shortcuts. Encourage children to use AI to support their thinking, not replace it. Celebrate effort and process over perfect answers. Reinforce that mistakes are part of learning and that relying too heavily on AI can limit real understanding.
- 9 TEACH DIGITAL ETHICS AND LITERACY**

Help children explore how AI works, where it might be biased, and why ethical thinking matters. Building digital literacy alongside ethical awareness ensures children engage with AI critically, not just conveniently. Help young people to understand that not all people use AI for legitimate purposes; some use it for malicious reasons. Encourage questions about fairness, representation, and who benefits from certain tools; talk about algorithms, echo chambers, and the impact of automation on daily life.
- 10 STAY CURIOUS AND INVOLVED**

AI is developing rapidly, and staying informed helps you support the young people in your care. Follow trusted sources for updates and keep the conversation going. If a child brings up a new AI trend or tool, take the opportunity to learn about it together. Showing interest builds trust and strengthens digital resilience.

### ABOUT SCREENSAFE

I started Screen-Safe to help more parents, carers, teachers and anyone working with children, have access to support, the information they need now and the tools they need for the future when it comes to keeping our children and young people safer online. As a parent myself, I know just how challenging and sometimes, overwhelming it can be to navigate the digital world our children are growing up in. The online world can provide incredible opportunities but also some serious risks, especially where children are concerned.

We want them to be able to recognise the risks, be able to call out fake profiles or misinformation and have the confidence to say NO and get away from anything or anyone online that doesn't feel right or safe to them.

### ABOUT EDUTHING

eduthing are a leading technology provider to schools across the UK. As well as providing technical support to ensure teaching and learning runs smoothly, eduthing work with teachers, parents, carers and students with Computing, EdTech and Online Safety support and workshops.

We are passionate about ensuring the safety of children and young people when they experience the online world and immerse themselves in a safe and measured way.
