

# What impact do you think covid-19 has had on bullying both online and offline?

This is an opportunity to think about how this year has impacted bullying.

For example, has bullying increased online?

Or, do you feel more or less connected to your friends?

It might be that there haven't been any changes but it may bring up some issues you were not aware of.

**What are the positive and negative impacts of COVID-19 on bullying and the way we interact with each other.**

## Positives

- Made us realise how important friendships are

## Negatives

- Lockdown was hard if you didn't have any friends in school
- More cyberbullying?
