

Your weekly guide to careers information, advice and news from Walton le Dale High School

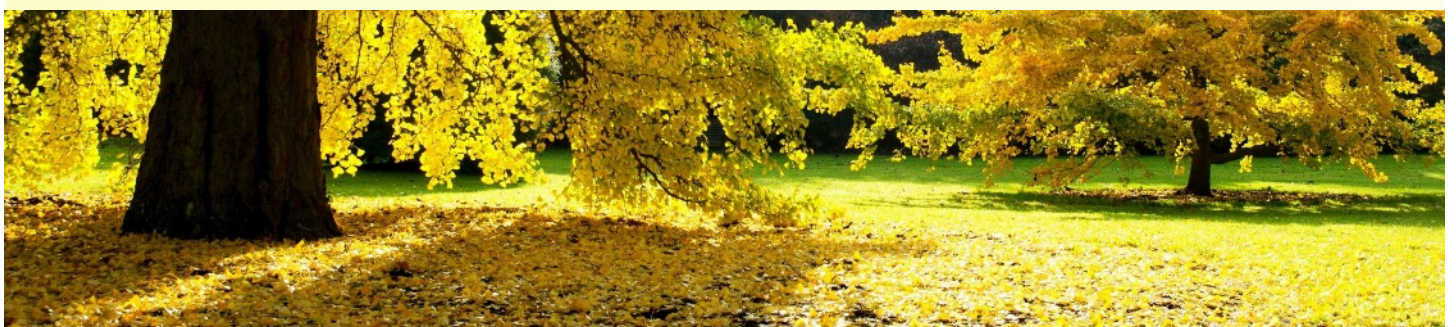

Welcome to the first edition of Career News - your go-to guide for up to the minute careers information and what's happening in the world of careers this week!

- Lots of open events at local colleges in the next few weeks, make sure you go to as many as possible so that you make a well-informed choice. These are aimed mainly at Year 11s who will be making their college choices shortly - there are usually further events after Christmas that are aimed at Year 10s. Many require registration in advance, so check before you travel.
- Young Professionals are offering a series of great events including a work experience session in Manchester with some global employers - this is during half term so no excuses for missing out!
- The Parent Perspective is highlighting careers in the Army - listen to the podcast or register for the webinar if you want to know more about Army life.
- Final call for weekend programmes with InvestIN Education - there are masterclasses in 15 different careers - available in person or live online. Not cheap, but there are bursaries available.
- Medic Mentor are hosting a number of conferences, a must for aspiring medics.
- If you are interested in engineering, why not watch the Oxbright video, where a leading expert discusses the possible solutions to sustainable energy storage. Oxbright have also extended the deadline for the essay competition to 15th October, for more details [click here](#).

Plus much more, including apprenticeship news and Career of the Week.

Have a great weekend

Engineering: The Missing Link In Renewables

Climate change is one of the most pressing issues of our time. In order to accomplish the Paris Agreement's goal - keeping the increase in global average temperature below two degrees Celsius - the world needs to transition from fossil fuels to renewable energy sources. This video discusses the potential of lithium batteries to provide the type of growth needed.

Do you believe that lithium batteries are the future of sustainable energy storage, or do you think there are alternative technologies that could eventually replace them? How might other up-and-coming technologies, like artificial intelligence, be used to optimise the performance and lifespan of lithium batteries?

If you're interested in the role of AI in the future of engineering, then our month-long Engineering Research Internship is an unmissable opportunity to explore the latest engineering breakthroughs in AI and Robotics! You'll explore the potential applications of AI-enabled robots, as well as the exciting possibilities for future developments in the field, and co-author an academic research paper alongside an expert Mentor.

YOUNG PROFESSIONALS

We are thrilled to extend an exclusive invitation to you for an upcoming work experience event featuring some of the world's leading employers.

Taking place on **Thursday, 26th October**, at the **Hilton Deansgate Hotel in Manchester**, this event promises to be a fantastic opportunity for you to connect with renowned companies such as Amazon, KPMG, Mazars, Mott MacDonald, Grant Thornton, RAF, CIMA, and many more.

You won't want to miss this!

The event takes place from 9:30am - 1:30pm.

During the event, you will take part in interactive sessions, which will be led by experts from our attending global employers, such as Amazon, KPMG, Mazars, Mott MacDonald, Grant Thornton, RAF, CIMA, and more.

These workshops are a unique opportunity to gain practical knowledge, enhance your skillset, and engage in meaningful discussions with industry professionals.

Why Attend?

- **Connect with leading global employers, including Amazon, KPMG, Mazars, Grant Thornton, Mott MacDonald, RAF, CIMA, and more**
- **Gain industry insights and trends, as well as picking up new skills through hands-on workshops and group activities**
- **Expand your professional network**
- **Explore potential career opportunities and further work experience opportunities**

Please do apply ASAP if you'd like to secure a spot, as we have very limited places. We are operating on a first-come, first-serve basis.

An exciting opportunity to examine the psychology behind a criminal case

An exciting opportunity to examine the psychology behind a criminal case. You'll learn about a forensic psychologist's role in the criminal justice system and discover how psychology impacts interviewing and confessions, our perceptions of victims, and how the prison system is shaped.

We will explore:

- the roles of forensic psychologists and criminologists
- the facts of a criminal case
- the theories behind why individuals commit crime
- how a forensic psychologist uses theory and research to work with offenders in an applied setting such as prison.

If you are interested in Criminology or Psychology, this day is for you.
(Various campuses and dates in October).

YOUNG PROFESSIONALS

Get into Law Event with National Firm Freeths!

12th of October from 5pm - 6:30pm | Work Experience & Solicitor Apprenticeships

We have a huge introductory session coming up with national law firm Freeths!
If you are interested in a career in law, looking for a solicitor apprenticeship
or work experience then this event is for you!

Do you want to understand how one of the UK's leading full-service law firms, has an annual turnover exceeding £110 million? Have you got a dream of becoming a lawyer but don't want the student debt to go with it? We are offering a fantastic opportunity for aspiring lawyers with our upcoming Insight into Law at Freeths on the **12th of October** from 5pm - 6:30pm.

This virtual event will give you the opportunity to hear all about Freeths, their in-person event opportunities as well as plenty of networking opportunities throughout the session.

Who are Freeths?

Freeths have over 1,000 colleagues spread across 13 UK offices and are listed in The Times Best Law Firms 2023. Freeths has a wide range of expertise spanning across commercial, family, property, and many more legal industries. Freeths values diversity, believing everyone should be their authentic self at work, and supports you to be the best you can be.

What can you Expect?

An insight to commercial law with workshops and various presentations from lawyers at the firm. There will also be several panel discussions where you'll have the chance to hear from multiple legal professionals and apprentices, along with some senior representatives attending from the firm.

Throughout the event, you will be able to discover potential career paths available at Freeths, such as their Solicitor Apprenticeship Program, Work Experience placements and Insight Event opportunities which are designed all for school leavers who are passionate about the law - and determined to succeed in the industry.

If you are interested in stepping into Law, this is your chance to kickstart your journey!

Accounting. A career for everyone.

A career in accountancy can take you places. To industries that excite you and countries that you love. Because finance is everywhere.

Accountancy opens the door to a wide range of opportunities, both inside and outside of finance. It is open to anyone, anywhere, from any walk of life - students don't need to excel at maths to become an accountant.

As the world's most forward-thinking accountancy body ACCA provides the opportunities and tools needed to become a successful finance and business professional.

The career that takes you where you want to go

With ACCA, students can develop the skills and knowledge they need to secure their first job and help build the career they are dreaming of whatever route taken.

Qualifications available include:

[Foundations

What is the T Level in Accounting?

T Levels are a great alternative to A Levels and a stepping stone into an ACCA Apprenticeship. It is ideal for students who are confident in the career they want to pursue to help them get a head start.

The T Level in Accounting is a two-year qualification for 16-18-year-olds. It is a brilliant way for students to develop the knowledge needed and also gain work experience with an employer where they can apply what is learned in the classroom to real workplace situations.

Careermag for Parents, Careers & Guardians - Issue 11

We're excited to announce that the latest edition of Careermag for Parents, Carers & Guardians is now live! With more expert guides, tips and advice to help you to help them:

- Students and money
- UCAS - Key Dates
- Talking Careers with Teens
- & much more!

Welcome Back!

Another academic year and all the hope that that brings! As parents and carers I am sure that you will welcome the start of a routine again after the summer break.

The next few years of your child's education are such important ones, not just because of their academic achievements and the knowledge they will learn but also because of who they will become. In this time they are going to be forming into adults, working out what they want and don't want and what their future may look like.

In a changing world, the possibilities also change. The options available to them include vocational pathways as well as A levels and GCSEs, they include graduate schemes, apprenticeships, internships as well as degrees.

The possibilities are endless which is why this magazine is such an important publication to guide you through. If you want to find a map to plan the route ahead, this is the place to be!

As you support your child in all that they are going to become, we are all here to support you.

STUDY NURSING WITH A SALARY

ARMY NURSE IN THE ARMY MEDICAL SERVICES

WHY JOIN?

EARN A WAGE AND BUILD SKILLS FOR LIFE.

- Work in a variety of settings, from NHS hospitals to field hospitals abroad.
- Be a part of a multi-disciplinary team, often working alongside multi-national forces.
- Excellent continued professional development up to and beyond MSc level.
- Choose to join as a Soldier or Officer, depending on your qualifications, experience and the type of career you want.
- Get tuition fees paid for and a full-time salary while at university, or receive a bursary.

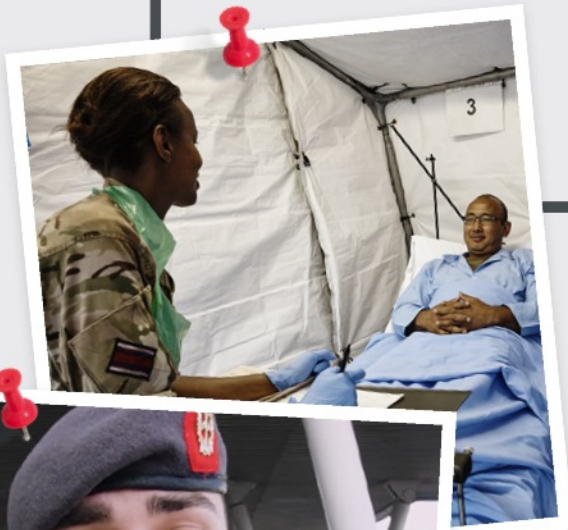

Related roles:

Mental Health Nurse, Healthcare Assistant, Dental Nurse, Combat Medical Technician, Operating Department Practitioner and more.

The Army has helped me build a diverse range of skills that I can take with me wherever I go. I've been given opportunities to work in Infection control, medicine and critical care nursing as well as working in communications and media, supporting people in their journey to join the Army. It really is a career that can take you anywhere!

Harriet, Army Nurse

WHAT YOU NEED TO JOIN

EVERYTHING YOU NEED TO KNOW.

Student Nurse (Soldier): Complete your degree with us, earning money and with no tuition fees. You will need 120 UCAS points plus 3 GCSEs Grades 9-4 including Maths, English Language and one of the following: Health and Social Care, Biology, Chemistry, Physics or Science double/triple award or equivalent.

Bursary (Officer): If you have already gained your Student Nurse university place, are in the process of applying or are part way through your training you are eligible to apply for an Army Nursing Bursary of up to £42,000. You will join as a Nursing Officer once you qualify.

There are also routes to join as a Registered Nurse (Soldier or Officer).

SALARY AND BENEFITS

Student Nurse (Soldier): around £16,000 during initial soldier training, over £21,000 a year during university, and over £32,000 upon qualification and first posting.

Bursary (Officer): Around £27,000 during officer training, rising to a minimum of £35,000 depending on experience. (Plus Army Nursing Bursary of up to £42,000 during university.)

Opportunity to specialise and significant personal and professional development.

I did my degree in Adult Nursing at Birmingham City University, which the Army paid for as well as giving me a wage. This meant I graduated with no student debt. I'm now working in an NHS hospital, but about to deploy overseas.

George, Army Nurse

If you have any questions, call us on **0345 600 8080** or visit your local Army Careers Centre.

We are pleased to inform you that registration for the national free UCAS conferences for students interested in becoming doctors has opened. Students will be awarded a certificate of attendance which can be listed on their Medical School UCAS applications for 'activities that support higher education'. The events have marked a valuable turning point for students and are open to students from any school and background in 10-12 year groups.

Conference Registration Form: <https://airtable.com/appgXnyzN5ZD9lwk6/shry7MZYtt3MGPjvO>

Upcoming Dates:

- **Saturday 7th October**
- **Sunday 8th October**
- **Saturday 28th October**
- **Sunday 29th October**

The Get into Medicine UCAS Conference is a comprehensive guide to the medical application process. The doctors and medical students will cover:

- **Application Timelines**
- **How to Tactically Choose Medical Schools**
- **CV Building**
- **Personal Statements**
- **Medical School Interviews**
- **UCAT - Entrance Exams to Medical School**
- **Medical Leadership and Awards Programmes**
- **Accessing Work Experience**
- **Accessing Scholarships**

We strongly encourage all students to make the most out of this free opportunity that has helped thousands of students secure medical school places since it launched: [Read more here](#)

Here's how the day will run:

9:30-10.00	Registration
10.00-11:00	Quick introduction to Medic Mentor, overview of the day, competition ratios, application timeline, Awards and Scholarships
11:00-11:15	Break
11.15-11.45	Introduction to the UCAS application form and entry requirements
11.45-12.15	Interactive CV building exercise and exclusive access to leadership, research, presentation, publication, prizes and scholarship opportunities
12.15-12.30	Top tips form a successful applicant (medical student)
12:30-12:45	Break
12.45-13.30	How to write the perfect personal statement
13.30-13.45	Break
13.45-14.10	Entrance exams - how to do ace the UCAT
14.10-14.30	How to prepare for Medical School interviews
14.30-15.00	Top tips form a successful applicant (medical student) and next steps

One booking = one booking for a student + their parent/guardian.

Getting into medicine may seem impossible to many students, but we're here to break down the entire process into actionable steps. Our Chief Mentors look forward to meeting your students at our conference!

Dr Siva

Chief Mentor, Your Medic Family

Beth Brindley, a solicitor at Blacks Solicitors, was the first apprentice to qualify at the firm.

Here she shares her thoughts and comments on legal apprenticeships and why more people should consider this as a route into the legal profession.

What made you choose an apprenticeship as your route into the legal profession?

“When I first considered a career in law, I did look at university as an option and I even accepted a place at a university in London. However, after careful consideration, I realised that the university lifestyle wasn’t for me. I eventually went down the apprenticeship route as I already knew they could be successful, and I liked the fact that you get paid whilst studying and securing real-world experience.”

How did you find out about the apprenticeship?

“After I decided not to go ahead with my place at university, I started to look into apprenticeships. My mum used to be a careers advisor and so I already had a good idea about what they entail. Through my research I came across the solicitor apprenticeship at Blacks Solicitors via BPP University. I knew Blacks was a successful law firm in an area close to where I live.”

What was the application process like?

“The application process was challenging, but Blacks made me feel at ease as the firm is very accommodating to individual needs, and the people are friendly and approachable. While I was nervous for my interviews, I actually enjoyed them and found that I was listened to, and felt encouraged to share my experiences. Overall, I had a very positive experience which of course led to a successful apprenticeship at the end of the application process.

“The application has been updated since I applied, to take into account an increase in interest and applications, but the objectives remain the same.”

What does your role involve?

“I qualified into the Commercial Law Team where I specialise in Commercial and Intellectual Property law. I advise clients on a range of commercial matters, including drafting and reviewing terms and conditions (and other commercial contracts), and intellectual property-related matters.

“I’m also supporting the Partner in the Music Law Team, which is a newly established practice area for the firm. I’m still learning the ropes, but this is a bigger part of my role that I’m really enjoying.”

What have been the highlights of the apprenticeship?

There are three main highlights that come to mind.

Making friends: I had this misconception that I would be missing out on making ‘friends for life’ by doing an

apprenticeship instead of going to university, but I actually made one of my best friends on my course with BPP. I’ve also built lots of friendships with colleagues at Blacks through its firm wide initiatives and culture.

Work experience: I enjoyed securing a range of experience in different teams and getting fully involved in work projects. The lawyers I’ve worked with have all been happy to spend the time answering any questions, reading my work and giving me feedback. Clients have also been great to learn from, and there was never a reluctance to talk to me because of my apprenticeship status.

Qualifying: I was very happy when I received my final exam results and knew that all the hard work had paid off. It was great to be able to share my joy and excitement with colleagues who have supported me since the beginning.

What is next for your career?

I’m very much adjusting to the post-qualification life and getting into a new routine, but I’m still keen to continue progressing with Blacks. My biggest ambition is to be made a Partner one day.

What advice would you give to young people looking to fulfil their dreams of becoming legal professionals?

Definitely consider options other than university. The apprenticeship route is a good option for people who might not be able to afford university or don’t want to have student debt. Just remember that it has become more competitive as more people have grown to realise that other options are available.

With that in mind, always research the law firm before applying. While the scheme is fantastic, it can be stressful and so make sure you’re applying to a firm where you’ll be supported and if possible, one that has a great culture.

For more information about apprenticeships at Blacks Solicitors and how to apply, please visit: www.lawblacks.com/about-us/careers/apprenticeships/

CAREER *of the* WEEK

Cyber security analyst

Cyber security analysts help to protect an organisation by employing a range of technologies and processes to prevent, detect and manage cyber threats.

You'll also monitor networks and systems, detect security threats ('events'), analyse and assess alarms, and report on threats, intrusion attempts and false alarms, either resolving them or escalating them, depending on the severity.

Broadly, you can work in one of the following areas:

- consulting, offering advisory services to clients
- working to protect the security of the organisation you work for

Job titles vary and may include information security analyst, security analyst, information security consultant, security operations centre (SOC) analyst and cyber intelligence analyst.

Responsibilities

As a cyber security analyst, you'll need to:

- keep up to date with the latest security and technology developments
- research/evaluate emerging cyber security threats and ways to manage them
- plan for disaster recovery and create contingency plans in the event of any security breaches
- monitor for attacks, intrusions and unusual, unauthorised or illegal activity
- test and evaluate security products
- design new security systems or upgrade existing ones
- use advanced analytic tools to determine emerging threat patterns and vulnerabilities
- engage in 'ethical hacking', for example, simulating security breaches
- identify potential weaknesses and implement measures, such as firewalls and encryption
- investigate security alerts and provide incident response
- monitor identity and access management, including monitoring for abuse of permissions by authorised system users
- liaise with stakeholders in relation to cyber security issues and provide future recommendations
- generate reports for both technical and non-technical staff and stakeholders
- maintain an information security risk register and assist with internal and external audits relating to information security
- monitor and respond to 'phishing' emails and 'pharming' activity
- assist with the creation, maintenance and delivery of cyber security awareness training for colleagues
- give advice and guidance to staff on issues such as spam and unwanted or malicious emails

 [Find out more here](#)
