

### 2020-2021 - Year 9 Guidance Feedback

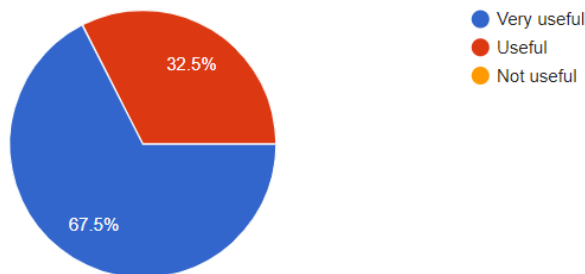

Following each guidance appointment, our students are encouraged to offer their anonymous feedback which helps us to continually improve our offer, understand what they felt went well and areas for us to develop.

This year was challenging due to adapting quickly to a virtual format but here is the feedback from our current Year 9's...

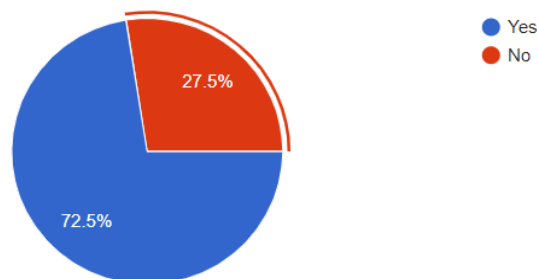

Did you feel more confident as a result of the meeting?

Is the option to contact Miss Royal for any follow up advice useful?

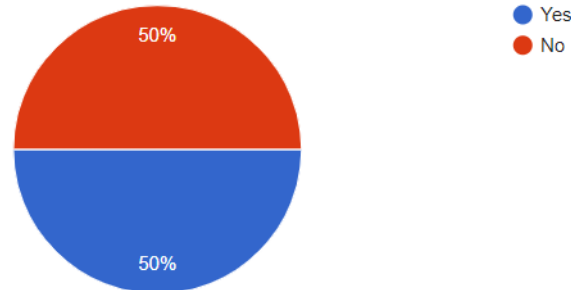

Have you made good use of the National Careers Service website such as completing the Skills Health Check, further research careers, options and/or courses?

Do you feel it is better for us to involve your parents/carers in the appointment?

Is there anything you felt went particularly well?
