

Your weekly guide to careers information, advice and news from Walton le Dale High School

Happy New Year and welcome back to Career News. As always, it's packed full of useful information and advice, events, webinars, virtual work experience and much more.

Just some of the great content inside

- Check out the article from BBC Bitesize Careers on writing a brilliant CV.
- Preston College is offering a series of taster workshops in the February half term holiday: Film and Photography, Games and Graphics, ICT and Art and Design - for Year 10/11. Limited places - apply now!
- InvestIn are highlighting their amazing weekend career opportunities, in London or live online.
- Bolton Sixth Form have a few places left on their Performing Arts and Media after school courses.
- Future Medics are well served - with conferences and free virtual work experience from Medic Mentor plus a chance to take part in a residential Medical Summer School at the University of Central Lancashire from the Medical Schools Council - definitely one not to be missed!
- Thinking about university? Think Cambridge has a series of webinars to enable students to find out more about life at one of the UK's most prestigious universities.
- Lots of information and advice about apprenticeships, including the news that an apprenticeship will now be given UCAS points, in the same way that A levels, T levels and BTECs are.
- Various open events coming up in the next few weeks: at Wigan & Leigh, Preston, Runshaw, Blackburn, Bolton, Cardinal Newman and Myerscough - plus the final one at LUSoM for anyone considering further maths A level. The early application deadline for LUSoM is Monday 13th January - so don't miss out.
- A local plumbing and heating company has approached the school to offer an apprenticeship to an enthusiastic and reliable individual. If you think you would like to apply, you will need to send your CV to Miss Berry in the first instance, as soon as possible. There will be a lot of interest in this position, so get those CVs completed and sent to me: pberry@wldhigh.co.uk

Good luck with mock exams - this will give you a good idea of whether you are on the right track or perhaps need to pull your socks up a bit! GCSE grades are important in getting you on the correct course at college or starting that apprenticeship.

Have a wonderful weekend

13th - 17th January 2025

What can you do with...

ENGLISH

Languages Teacher

If you speak more than one language, you can travel the world and teach English to others!

Digital Marketer

AWE NUCLEAR SECURITY TECHNOLOGIES

AWE Nuclear Security Technology's first intake of apprentices took place in 1952, with 10 apprentices undertaking craft apprenticeships over five years. Fast forward more than 70 years and AWE has over 500 apprentices across the business, as well as undergraduates and graduates (Evolve) making up their Early Careers Programme. This year, AWE will be recruiting more apprentices, undergraduates and graduates than ever, as they look to add 560 new recruits to their steady pipeline of early careers talent.

AWE's apprenticeships, varying from Level 3 Advanced to Level 6 Bachelors Degree, cover a broad spectrum of skills from Engineering to Project Management. Regardless of the chosen path, apprentices will be on a programme that develops not just their technical capability from day one, but also the skills required to be successful in future roles.

Evolve is AWE's flagship Graduate Programme. Made up of rotational placements across the business, Evolve is designed to provide graduates with technical knowledge and expertise across several disciplines. By selecting any one of the Evolve pathways, graduates are choosing a development programme that will help them build their career as a future leader of the business.

AWE also gives undergraduates extraordinary opportunities to develop and grow their skills whilst studying for their degree by offering Year in Industry placements and via the Defence Undergraduate Scholarship Scheme. Undergraduates will add experience they won't find anywhere else in the UK onto their CV, while undertaking exciting and challenging work that keeps the nation safe.

For almost 75 years, AWE has proudly played a role of critical national importance: helping deliver the UK's nuclear deterrent, preserve peace, prevent coercion and deter aggression. They are at the forefront of nuclear technology and innovation: from continuously delivering the warheads to ensure, and assure, the UK's Continuous At Sea Deterrent, to pioneering novel solutions to deter threats and counter terrorism – always delivering to keep our nation safe and secure.

Today, their workforce is 7,000-strong and brings together globally respected and exceptional professionals, including those at the very start of their careers. They aim to build enduring relationships with their government customers, international partners, suppliers and communities in the locations where they operate.

To find out more about all of AWE's Early Career programmes, head over to their website:

Episode 10: Help! What should I do in a job interview?

Episode 8: Help! What do I do next?

COMING SOON!

Episode 11: Help! What is networking & how can it help me?

QUESTION OF THE MONTH...

BBC
BITESIZE
CAREERS

HOW DO I HELP MY CHILD WITH THEIR CV?

We've teamed up with BBC Bitesize Careers to find answers to the top questions that parents and carers have.

The New Year can be the perfect time to have those all-important career conversations at home. You can help your child to make a fantastic first impression by using the new [BBC Bitesize Careers CV building toolkit](#). Here are some quick tips to help their CV stand out from the crowd in 2025.

A CV (curriculum vitae) is sometimes called a *résumé*, and is often the first thing employers will ask to see from your child, so it must be a true reflection of their skills and experience.

Their CV should be clear and easy to read, no longer than two pages and consist of a few basic aspects:

- **Personal profile** - a few lines that shout about who they are and why they're right for the job.
- **Key skills** - list key skills with words and phrases that describe what they can do.
- **Education** - include formal education history (secondary school or above) and any other official training or academic awards.
- **Work experience** - list any work they've done. It could be paid work, volunteering, or any work experience.
- **References** - include someone who knows them well and can provide positive feedback. It could be a previous manager or trainer, but they could also ask a teacher or sports coach.
- **Hobbies and interests** - these are optional, but for those with less work experience, relevant hobbies and interests can point towards a broader skillset.

Next steps: For more tips, join Careers expert Shoshanna Davis on The Bitesize Careers video-podcast [Careers: Help! How do I write a CV and cover letter?](#)

VISIT THE BBC BITESIZE CAREERS [WEBSITE](#) BY SCANNING THE CODE.

What is a CV?

Whether you're applying for a full-time job, a summer job, work experience or an apprenticeship, you'll often need to share a CV with the company or business who wants to hire you.

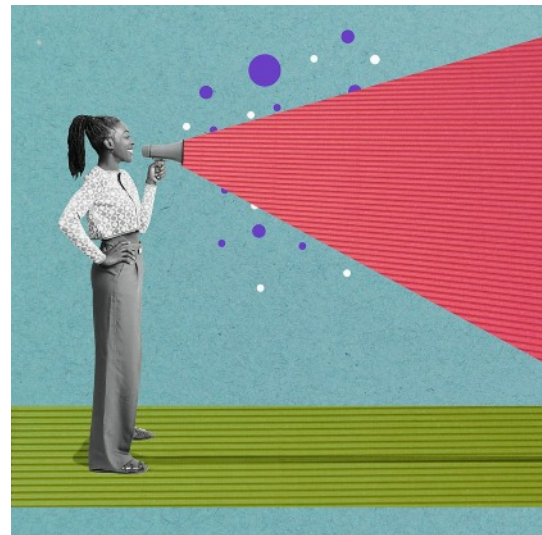

A CV is a document that includes information about yourself and why you're a good fit for the role. It presents your skills and qualifications effectively and clearly.

Writing a CV is a skill, but a good one can help you stand out from the crowd.

CV stands for **curriculum vitae**. That's Latin for your 'course of life' and that's basically what the document does. It tells people who you are and what you've done up to the point of applying.

What should your CV include?

- Name
- Contact details
- Personal profile
- Key skills
- Education
- Work experience
- References
- Hobbies and interests/achievements

You DO NOT need to include your age, date of birth or nationality. Employers shouldn't consider those things when deciding to offer you an interview. You also don't need to include a photo.

What should your CV look like?

There's no need to try and stand out with jazzy fonts and fluorescent paper. Your CV should be **clear and easy to read**.

Your CV should:

- Be no longer than two pages
- Use an easy-to-read font like Arial or New Times Roman. The font should be black and sized between 10-12
- Use headings and bullet points. Keep the layout simple and make it easy to read
- Use plain language

How to write your key skills section

A key skills section on your CV is a quick and easy way to show employers you've got what it takes to do the job.

There's no need to go into too much detail here. You simply need to list your key skills with words and phrases that describe what you can do. These could be soft skills, that can be used in almost any job such as "highly organised", or hard skills, which are usually specific to the job like "graphic design".

This section should go near the top of your CV so the reader knows your skillset from the off.

In practice, it will look something like this:

- Problem solving
- Time management
- Active listening
- Attention to detail
- Photo editing for social media
- Research

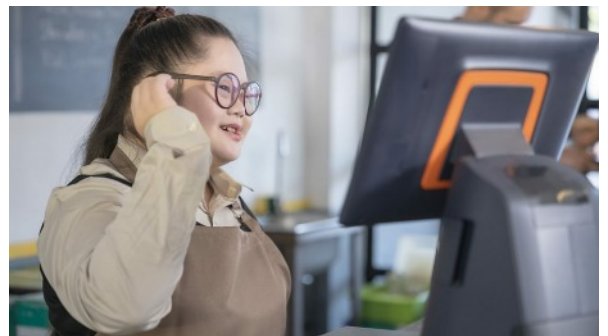

The skills you list should be relevant. Make sure you read the job description carefully and make note of any requirements for the role. Don't forget that you may need to give an example of when you have used the skills, ie. How and when did you solve a problem? How do you organise your time and so on. Take a look at this article to [help identify skills you might not know you had](#).

How to write your work experience section

Here, you can include any work experience you have. This might include paid work, volunteering, or work placements. Begin with your most recent experience and work backwards.

Here's what you should include:

- Employer
- Job title
- When you worked there
- What you did there

Your experience can show reliability, mindset and transferable skills, even if it's not specific to the job role you're applying for. When talking about what you did there, try to highlight achievements and demonstrate the skills that your new role would require.

Remember, you can include any work experience you've done in or out of school. If you don't have any work experience yet then focus on your key skills and interests section.

SCHOOL OF PERFORMANCE, PRODUCTION AND MEDIA AT THE SIXTH FORM BOLTON

Take part in our fun and creative after-school clubs.

The Sixth Form Bolton is proud to offer two exciting after-school clubs for pupils with a passion for Performing Arts, Media and Music and for those interested in pursuing a career within the creative industries. These interactive sessions will help you learn and develop a wide range of performance and music skills.

Venue: The Sixth Form Bolton

Course cost: £10 per course to be paid in full in advance

Age group: Year 10 - Year 11 pupils

COURSE 1: PERFORMING ARTS AND MEDIA

Duration: 4-week course

Dates: 20th January - 10th February

Day: Monday, 4.30pm - 5.45pm

On the final week you will watch our Performing Arts Academy students perform in the comedy production of The Odyssey.

COURSE 2: MUSIC AND MUSIC TECHNOLOGY

Duration: 3-week course

Dates: 24th February - 10th March

Day: Monday, 4.30pm - 5.45pm

To book your place please contact us on: afterschoolclubs@bolton-sfc.ac.uk

COURSE 1: PERFORMING ARTS AND MEDIA

WEEK 1: ADVANCED THEATRE DEVISING STRATEGIES

Elevate your creative skills in theatre by mastering advanced devising techniques. Gain confidence and stand out in any audition with this workshop. Perfect for aspiring actors and directors. This workshop is all about unleashing your creativity!

WEEK 2: ADVANCED CHARACTER DEVELOPMENT FOR STAGE AND SCREEN

Unlock the secrets to creating truly authentic, emotionally rich characters using the Stanislavski method. This session is a must for aspiring actors who want to bring their performances to life in theatre or film.

WEEK 3: ACTING FOR SCREEN

Lights, Camera, Action - build your screen presence! Take your acting skills to the next level with expert advice on how to perform for the screen. Perfect for those looking to break into the world of film and TV.

WEEK 4: THE ODYSSEY, A PLAY WRITTEN BY SPLENDID THEATRE, PERFORMED BY B6 ACADEMY STUDENTS

As a finale event, we will provide you with two free tickets to come and see our Performing Arts Academy students perform in the comedy production of The Odyssey.

COURSE 2: MUSIC AND MUSIC TECHNOLOGY

WEEK 1: CREATE CINEMATIC SOUNDS - YOUR STORY, YOUR SOUND

Step into the world of movie sound design and create your own foley sounds in a professional studio. Whether it's the crunch of footsteps, a door creaking, or the swoosh of a sword, your imagination will shape the soundscapes of tomorrow's films.

WEEK 2: COMPOSE MUSIC FOR THE BIG SCREEN - BE THE SOUNDTRACK

Become the composer behind a movie's emotional heartbeat. In this session, you'll use cutting-edge technology and professional software to compose original music tailored to a movie clip.

WEEK 3: FROM STUDIO TO STAGE - CREATE AND PERFORM LIKE A PRO DJ

Unleash your creativity and step into the world of live DJ performance. In this hands-on session, you'll craft your own samples, loops, and tracks using Ableton and Akai APC.

Wednesday 29 January	Deciding on your course: Medicine and Veterinary Medicine	5pm to 6pm
Wednesday 29 January	Deciding on your course: STEM	5pm to 6pm
Thursday 30 January	Supporting an applicant: for parents and supporters	5pm to 6pm
Thursday 30 January	Ask a student - CAMbassador panel	5pm to 6pm
Friday 31 January	Applying and studying at Cambridge for international students	5pm to 6pm
Friday 31 January	What is the Cambridge Foundation Year?	5pm to 6pm

Medical Schools Council Summer School 2025 - Inspiring Future Medics

Are you a Year 11 aspiring medic in England from a widening participation background?

The **Medical Schools Council** Summer School programme, delivered in partnership with **Sunderland University** and the **University of Central Lancashire** is designed to inspire and support students like you on your journey into medicine!

The initiative prioritises students meeting widening participation criteria, including care-experienced individuals, refugees and those from areas with low higher education engagement.

Programme highlights:

- Gain insight into medical careers, application guidance and skill development
- Engage in interactive problem-solving and network with clinicians
- Explore rural healthcare challenges and build lifelong friendships with peer support

What's included?

Five virtual sessions:

Introduction to Medicine and Careers: Tuesday 25 February 2025, 17:00-18:00

Meet and Greet Networking: Tuesday 11 March 2025, 17:00-19:00

Problem-Based Learning Workshop: Tuesday 25 March 2025, 17:00–19:00

Understanding MDTs in the NHS: Tuesday 22 April 2025, 17:00–18:00

Skills and Attributes for Medicine: Tuesday 1 July 2025, 17:00–18:00

Three-night residential experience at the University of Central Lancashire’s stunning Westlakes Campus (Tuesday 22 July – Friday 25 July 2025) with accommodation at Summergrove Halls.

Residential Summer School Schedule:

Tuesday 22 July 2025

Afternoon: Arrival and check-in at Summergrove Halls. Introductory session on the admissions process including guidance on UCAT, interview skills and personal statements.

Evening: Visit to St. Bee’s boarding school for recreational activities (e.g. basketball, badminton) and a scenic walk to St. Bees beach for ice cream and sunset views.

Wednesday 23 July 2025

Morning and afternoon: Exploration of rural medicine and specialty fields through simulations and workshops highlighting unique healthcare challenges and solutions in remote areas.

Evening: Visit to the local Mountain Rescue Centre for insights into emergency care in rural settings.

Thursday 24 July 2025

Morning and afternoon: “A day in the life of a Doctor/Medical Student” – immersive simulations and shadowing experiences showcasing clinical and academic life in medicine.

Evening: Social BBQ (if possible at the Summergrove Halls BBQ huts) followed by a medical-themed quiz hosted by student ambassadors.

Friday 25 July 2025

Morning: Farewell breakfast and programme conclusion. Departure by late morning.

Application deadline: Sunday 19 January

More virtual events coming up in February for National Apprenticeship Week!

the apprenticeship guide

UCAS points for apprenticeships to start in May 2025

UCAS has set the date for a big change to help former and current apprentices who want to go to college or university.

From 2026, apprenticeships at level 3 (in England, Wales, and Northern Ireland) and SCQF level 6 (in Scotland) will be given UCAS Tariff points. This means students doing apprenticeships can use them to apply for university or college, just like A-levels or other qualifications.

How will apprenticeships be awarded Tariff points?

The new system aims to make the [Tariff points system](#) fair. The number of points will depend on how long the apprenticeship takes, how much work and study is involved, and the grade the apprentice achieves. For example, an apprenticeship lasting 24 months will earn the same points, no matter where it was done in the UK.

Haven't I heard all of this before?

UCAS [announced the change back in February 2024](#), originally saying that they would be able to roll out the new plan in September 2024. This was pushed back to give universities more time to adopt the new proposals.

What will employers and universities think of someone who takes an apprenticeship pathway?

Currently, it can be challenging for young people to demonstrate the value of their qualifications to university or college admissions teams, but this change will help bridge that gap.

UCAS worked with schools, colleges, universities, and employers to design the new system. Most people agreed with the plan: in a survey, 74% supported it, with colleges showing the most support at 89%. Schools, advisers, and universities were also very positive.

Leaders in different industries have welcomed the change, including Dr Navina Evans from NHS England, who said it will help more people start careers in healthcare: "A level 3 apprenticeship in health is a fantastic route to beginning a rewarding career in the NHS and we welcome its inclusion in the new UCAS Tariff, which recognises the value of the qualification and will help inspire more young people to work in health and social care."

Keep Calm and Cook Recipes

Warburton's

SERVES 4

Spaghetti Bolognese

Ingredients:

- 1 onion
- 1 clove garlic
- 1 carrot
- 1 celery stick
- 15ml oil
- 250g minced beef
- 400g canned chopped tomatoes
- 15ml tomato puree
- 100ml water
- 1 x 5ml spoon mixed herbs
- Black pepper
- 150g spaghetti

Food Skills

- Weigh
- Measure
- Peel
- Chop and slice
- Fry
- Stir
- Boil and simmer
- Drain

Method

1. Peel and chop the onion. Peel and crush the garlic. Peel and slice the carrot. Finely slice the celery. 
2. Fry the onion, garlic, carrot and celery in oil. 
3. Add the meat and cook until the mince is lightly browned. 
4. Add the tomatoes, tomato puree, mixed herbs and water and mix all the ingredients together. Then add a few twists of black pepper. 
5. Bring to the boil, then simmer. 
6. While your sauce is simmering, place the spaghetti in a separate saucepan of boiling water. 
(or until the pasta is tender)
7. Drain the spaghetti using a colander. 
8. Place the spaghetti on a plate, and pour some of the Bolognese over the top. 

Keep Calm & Reduce Food Waste

Did you know...

7 million tonnes of food and drink are thrown away across the UK every year!

Together we can help to reduce food waste. All we have to do is change the way we think about leftover food.

Top tips to reduce food waste

- Plan your meals and only buy ingredients you're going to use that week.
- Measure ingredients and use recipes so you only cook what you need.
- Cover and refrigerate any food leftover from dinner and have it for lunch the next day.
- Store food leftovers correctly in the freezer or airtight containers in the fridge.
- Did you know, you can freeze bread close to the best before date and pop it in the toaster to defrost it when you need it!
- Think 'ingredients' not 'leftovers'. Use any leftover food as ingredients to create new delicious and healthy meals.
- Other food can be frozen too - peppers and mushrooms are easily stir fried from frozen.

DESIGN YOUR OWN RECIPE CHALLENGE

Today you've been amazing at adapting your recipes.

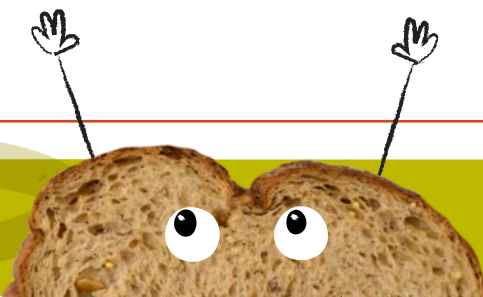

If you had cooked the original recipes, these are the items you would have had left:

- If you cooked the Thai green curry: 200g coconut milk, half a lime and one chicken breast.
- If you cooked Minestrone soup: $\frac{3}{4}$ cabbage, 5 rashers of bacon, garlic, 200g pasta
- If you cooked Spaghetti bolognese: 350g spaghetti, 150g tomato puree, garlic and herbs

Design a recipe that uses these ingredients – you may wish to add other ingredients to make it into a proper meal but remember you should still ensure you include all the food groups. Share it on social media with the hashtag **#bakethemostoflife**

Remember you should check your ingredients are still good to eat: there should be no mould, they should still be within their use by date, and they should have been kept in the correct storage.

A Career with a Difference

Providing great career advice should be about widening student's horizons and giving them the opportunity to see careers that are a little out of the ordinary.

Have you thought about Horseracing?

Did you know it is:

- **The Second Biggest Spectator Sport to Football**
- **An Industry worth 3.45 billion to the British Economy**
- **The largest Sporting Employer.**

There are many different routes to explore from Apprenticeships and Early Career Programmes to hands on working with horses or working in an office environment:

- There are several Specialist Training Colleges to choose from which young people can attend either after GCSEs or A Levels. For those wanting to explore riding options, the British Racing School based in Suffolk and the National Horseracing College based in Yorkshire, offer a Foundation Course in Racehorse Care which leads to a Level 2 Apprenticeship delivered in a racing yard.
- For those based in Scotland, the Scottish Racing Academy also has courses to offer. They offer a vocational pathway allowing students to learn more about the racehorse and how to care, feed, prepare and exercise racehorses.
- The National Stud based in Suffolk offers practical courses learning how to care for mares, young horses and foals, ideal for those students who don't necessarily want to ride horses but are keen to care and look after them.
- There are also Business Apprenticeships available and Early Career Programmes, so there really is something for everyone.

Click below to find out more about these training courses and careers or get in touch with us via social media [**@careersinracing**](#)

Apprenticeships at EDF

At EDF, success is personal. Our Apprenticeship programmes offer an exciting opportunity to build a rewarding career while contributing to a more sustainable energy future.

If you or someone you know tick any of these boxes, an EDF apprenticeship could be the perfect next step.

Do you enjoy one or more of these school/college subjects?

- Business
- Chemistry
- Computing
- Geography
- Law
- Physics
- Psychology
- Technology

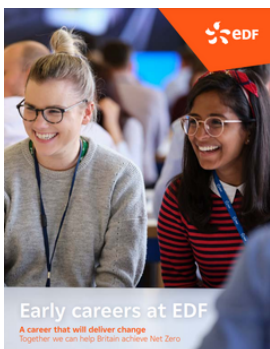

Do you want to work:

- towards achieving Net Zero
- tackling climate change
- on sustainability
- for the biggest generator of low carbon electricity

Are you interested in a career in:

- Business Administration
- Chemistry
- Civil Engineering
- Construction Quantity Surveying
- Cyber Security
- Data Analyst Security
- Environmental Ranger
- Facilities Management
- Health, Safety & Environment
- Maintenance and Operations Engineering
- Nuclear Engineering
- Project Controls
- Project Management
- Solicitor
- Wind Turbine Technician

EDF offer apprenticeships in all of these areas!

Interested?

Visit EDF's website and download their guide to Early Careers, which tells you everything you need to know!

Tuition fees are going up in England

Uni tuition fees are going up by £285 in 2025-26 to £9,535 a year. *How will this affect you?*

When you pay:
NO CHANGE

You won't pay anything until you graduate and start earning £25k a year or more.

Amount you pay every month: **NO CHANGE**

You'll pay 9% of anything you earn over £2,083 a month (£25k a year).

How long you pay for: **COULD CHANGE**

- You'll make monthly repayments for **40 years** **OR** until you pay the loan off, if you earn enough to do so before the 40 years is up.
- Higher fees mean those that earn enough to pay the loan off before the 40 years is up will pay monthly for slightly longer.

Aspiring Clubs for year 10, 11 and 12

Our Aspiring Clubs are aimed at giving you a taste of life as an apprentice. Whether you are an Aspiring Engineer or interested in becoming an Optician, we have lots of options available.

Aspiring Engineers

A 4 week course delivered in engineering workshops on a Thursday evening covering:

- Sheetmetal / welding
- Computer Aided Design (CAD)
- CNC machining
- Electronics and electrical

When:

Thursday evening 4.30 - 7.30pm:
7th, 14th, 21st and 28th Nov 2024

Thursday evening 4.30 - 7.30pm:
6th, 13th, 20th, 27th March 2025

Cost: There is a small cost to cover materials of £20

Aspiring Optical Professionals

A 3 hour taster session looking at:

- Eye conditions
- Demonstration of magnifiers
- Different prescriptions and trial frames

When:

Mon 3rd Feb 2025 | 1pm - 4pm

Mon 21st July 2025 | 1pm - 4pm

For more information and to book visit our website

Aspiring Dental Nurses

A 3 hour taster session introducing you to:

- The role of a Dental Nurse
- Surgery tour looking at equipment and instruments
- Mixing alginate impression material

When:

Mon 3rd Feb 2025 | 9.30 - 12.30pm

Mon 21st July 2025 | 9.30 - 12.30pm

- Discuss oral hygiene and diet
- Current apprentices as guest speakers

Aspiring Accountants

A 3 hour taster session covering:

- Current apprentices as guest speakers
- Balance sheet activity
- Double entry bookkeeping activity
- Accounting board game

When:

Wed 5th Feb 2025 | 9.30 - 12.30pm

Wed 9th July 2025 | 9.30 - 12.30pm

- Accountancy in the working environment
- Accounting card games

Aspiring Business Professionals

A 3 hour taster session looking at:

- Decision making
- Prioritising
- Project planning
- Communication in the workplace

When:

Wed 5th Feb 2025 | 1pm - 4pm

Wed 9th July 2025 | 1pm - 4pm

Open days 2025

You'll have the opportunity to:

- Speak to our expert subject tutors and ask all your questions
- Have a tour of our site and training facilities

When:

Wed 29th and Thurs 30th January
4.30-7.30pm

Furthergate Business Park, Harwood Street, Blackburn, BB1 3BD

Unlocking a cyber security degree apprenticeship with Leonardo

Matilda is a third-year cyber security degree apprentice at Leonardo. She talks to the Apprenticeship Guide about her experience:

"In September 2022 I started my career as a cyber security degree apprentice at Leonardo, and I am about to start my third year at the Bristol office. During school, I always had an interest in computers but felt like I couldn't pursue my passion as computer science was a neglected subject at my all-girls secondary school. I was one of few in my GCSE computer science class and found myself losing interest after a couple of months in.

My dad pushed me to keep going when I was ready to drop out of the GCSE and suggested I try a scheme called Cyber Discovery. The scheme showed me a very exciting side to topics I had previously thought were dull when learning them in the classroom and reignited my interest!

I moved schools to take my A-level in Computer Science. Over the school holidays, I used free courses available via Cyber First to expand my knowledge, which cemented my interest in following a career in cyber security.

Although I knew that I wanted to work in cyber security quite early on, I also knew I didn't want to go to university. When my school ran a session about degree apprenticeships, I realised this was exactly what I wanted! A full degree (with no debt) and years of hands-on experience was a dream come true. I had heard of Leonardo before applying as I was familiar with its helicopter business but wasn't aware of the cyber capabilities. I saw a post online Leonardo Early Careers and was instantly attracted due to the opportunity to secure and support critical national infrastructure. It is important to me to have fulfilling work, which I can achieve at Leonardo.

The culture was also very attractive to me. Leonardo's awards in Investors in Young People showed me that as an apprentice I would be supported and valued. Leonardo is a Disability Confident Employer and, as I have dyslexia, I knew this would not impact my application. I moved across the country for the job on my own but as I felt so welcomed at Leonardo, it didn't feel daunting.

As part of my degree apprenticeship, I rotate on placements in the different areas within the cyber and security solutions business. This allows me to have a go at a range of practices before choosing where I want to work when my apprenticeship ends. From the start, I have been involved with real world projects and have been learning every day. So many amazing people at Leonardo value the apprenticeship scheme and they are always happy to give me a hand when I need support.

Leonardo has given me the opportunity to be a STEM ambassador where I have helped plan and run workshops, careers talks and activities to inspire young people to get involved with cyber. My favourite STEM event was when I worked with Unlock Cyber and I made and delivered a demonstration on OSINT (Open Source INTelligence) capabilities to local schools. The reaction of the students when they realised how much information can be exposed from a simple Google search wasn't dissimilar to my reaction to when I first started learning about cyber security. I felt proud to be able to pass on my knowledge and enthusiasm with the backing of a company like Leonardo. Hopefully from my demonstration I inspired someone to give cyber security a chance!

Through Unlock Cyber I was interviewed about my experiences as an apprentice at Leonardo. It was great to be able to share my enthusiasm and give advice to other young females on how to develop their cyber security knowledge and skills. I am looking forward to the next two years of my degree apprenticeship and excited to see where my career takes me!"

To find out more about apprenticeships with Leonardo, visit careers.uk.leonardo.com or search [Early Careers Leonardo](#)

YOUNG PROFESSIONALS

Business and Accounting Careers Events and Work Experience for Y11 Students this January with Evelyn Partners, RSM & Forvis Mazars

We have three fantastic Business and Accounting events we have this month for your students in Y11 to get involved with.

The events are all free to attend virtually and are with Evelyn Partners, RSM and Forvis Mazars all of which are within the top 10 globally as the biggest professional services firms. These events are truly fantastic with some work experience this year on offer as well during the school holidays.

Calling all aspiring business and accounting students - this month Young Professionals have lined up 3 fantastic insight evening sessions with 3 of the biggest professional services firms in the world. All taking place on different nights this month, you will have the opportunity to hear from all 3 companies sharing their insights and opportunities that you can apply for.

We would encourage you to sign up to all below events so you can maximise your full exposure to all the companies and help you to gain a better understanding of the industry. You will also get the opportunity to submit a work experience or apprenticeship application off the back of the events.

After each event you attend you will receive a certificate of attendance which can be used on your LinkedIn profiles and any corporate applications that you make.

Event 1

- Insight to Evelyn Partners – Thursday 16th January, 5pm - 6pm
- Evelyn Partners are a top 10 firm globally specialising in professional services and wealth management
- £62.2bn of assets under management and over 188 years of experience
- Click here to find out more details and apply:

<https://mailchi.mp/f3f36ebde470/business-finance-with-evelyn-partners>

RSM

Event 2

- Insight to RSM – Wednesday 29th January, 5pm – 6pm
- RSM are a global accounting and professional services firm offering careers in audit, tax and consulting
- Hear about their school leaver, work experience and graduate programmes
- Click here to find out more details and apply

<https://mailchi.mp/61ae1ac17fba/careers-in-business-accounting-finance-with-rsm>

forvis mazars

Event 3

- Insight to Forvis Mazars - Thursday 30th January, 5pm – 6pm
- Forvis Mazars are a world leader in accounting and professional services offering careers in audit, tax and business services
- Hear about their school holiday work experience programmes on offer this year and apply at the end of the session
- Click here to find out more details and apply:

<https://mailchi.mp/7531b505d4ed/work-experience-with-business-and-finance-leader-forvis-mazars>

We hope these 3 events look exciting and we can't wait to welcome you to all of them later this month.

MEDIC MENTOR

YOUR MEDIC FAMILY

The Medical Schools Council acknowledges virtual work experience as an equal alternative to in-person shadowing based on a discovery report conducted by Health Education England. I encourage students aged 14 and over, interested in medicine to participate in our FREE National NHS Virtual Work Experience programme. We are pleased to offer a variety of medical specialties, with a focus this month on palliative care. This enables your students to gain a well-rounded perspective of working within the NHS.

This opportunity is for students in Years 10-11.

<https://medicmentor.org/university-hospitals-birmingham-trust-virtual-work-experience/>

Developed in collaboration with Birmingham Universities Hospitals Trust, this Virtual Work Experience has proven to be transformative for thousands of secondary school students over the past year. It also provides a strong foundation of knowledge for students who are preparing to undertake future in-person placements.

We've designed a 6-month medical e-learning work experience programme, focusing on one specialty each month, allowing students to set their own pace of learning. From structured teaching to direct interaction with doctors and healthcare professionals, our programme ensures students not only observe procedures but also gain a broader understanding of roles within the medical field.

Covering everything from confidentiality and ethics workshops delivered by the GMC to clinical procedures, our virtual work experience provides a crucial overview, thereby enhancing your students' UCAS applications.

Signing up is easy – students simply need to fill out the free online application form:

Why the Medic Mentor Virtual Work Experience is the largest in the UK...

- There are 6 Sessions in total providing the longest and most in-depth work experience available
- It covers 6 different areas of medicine whereas other work experiences only cover 1 or 2
- It is e-learning based so students can complete it in their own time around school work
- Students have 30 days to complete one session and then the next session drops
- Students are provided a certificate of completion once all 6 sessions are done
- Involves real doctors, clinical settings and high fidelity simulations
- Takes students on a complete patient journey
- Students get an insight into the multidisciplinary team
- Includes a free reflective journal (great for personal statements)
- It's completely free!
- *Why not sign up today?*

**University Hospitals
Birmingham**
NHS Foundation Trust

Join Every First Sunday Of The Month!

LIVE!
VIRTUAL

Allied Healthcare Work Experience

Take your first steps into the world of healthcare careers
in our Virtual Allied Healthcare Work Experience.

Meet this month's AHP professional **guest speaker**, from **9 - 10am**, and
then dive into live work experience sessions.

After a compelling talk from our guest speaker about their career and
what they do day to day, you will **dive into live work experience sessions**
from the safety of your home.

Witness the journey of two patients from injury to recovery over 6
months, and experience how many different healthcare professionals
are involved in a patient's care, from hospital all the way through to a
community team.

ALLIED
HEALTHCARE
MENTOR

The only LIVE NHS Healthcare Careers virtual work experience in the UK run by Healthcare Professionals!

Let us help you to take your first steps into the world of healthcare careers. It is live, giving you the chance to interact with healthcare professionals, but from the comfort and safety of your own home.

Join thousands of other students who are exploring healthcare careers with the help of our LIVE simulated high fidelity work experience programme!

During the work experience day, students will follow 2 patients from their initial presentation to recovery. Students will observe the healthcare professionals as they interact with the patients and also each other. Students will have an opportunity to ask questions and gain knowledge through teaching. This will help students to make an informed career decision as well as learn about how healthcare professionals work together as part of a multidisciplinary team. Each work experience day is completely different and students will be able to build on their knowledge of NHS careers as they see different patient cases and their healthcare professionals work in a variety of settings, such as hospital and community. For this reason we recommend that students attend one work experience a month for 6 months to not only gain a deeper knowledge of multidisciplinary teams in general but also their chosen careers.

Students will gain invaluable perspectives on patient care dynamics and the collaborative efforts within the NHS, including exploring careers within:

- Nursing
- Midwifery
- Paramedicine
- Physiotherapy
- Occupational Therapy
- Dietetics
- Radiography
- Prosthetics and Orthotics
- Speech and Language Therapy
- Pharmacy

Attendees will have the opportunity to interact with healthcare professionals throughout each day. This will empower students to make informed career decisions and demonstrate their commitment to healthcare in their UCAS applications. Once they've registered, students will be emailed links to their virtual work experience portals.

Students are awarded a Work Experience Certificate for every session they complete. Those who complete the full 6-month programme will be awarded a Highly Commended Reference from the Presidents of Allied Healthcare Mentor. These are fantastic additions to student's CVs!

Students can register individually at any time throughout the 6-month programme using the link below. We recommend booking early to gain as much out of this programme as possible. Places are £10 a session to cover administrative and technological costs.

Sign up here: [Allied Health Mentor work experience programme](#)

CAREER *of the* WEEK

Estate agent

Estate agents liaise with clients, solicitors and other property professionals to negotiate sales and lettings on residential or commercial properties.

Working as an estate agent, you'll usually specialise in the sale and/or letting of residential or commercial properties, businesses or land, on behalf of your clients. You'll value, market and lead viewings on properties, with the aim of negotiating the best price for your client.

Your role will involve frequent liaison with banks, building societies, mortgage brokers, surveyors, solicitors and other estate agencies during transactions. You may also handle sales taking place via auction.

Types of estate agent

You may usually specialise in one area of estate agency, such as:

- residential sales
- residential lettings
- commercial sales
- commercial lettings
- rural estate.

Responsibilities

As an estate agent in England, Wales and Northern Ireland, you'll need to:

- collect information about a property and arrange for photographs to be taken
- visit and talk to sellers about their property and its special features
- estimate the value of a property
- market and promote properties for sale
- arrange and carry out property viewings for prospective buyers
- represent the sellers in negotiation with prospective buyers
- monitor sales as they proceed and liaise with all interested parties including mortgage brokers, solicitors, surveyors and other estate agents
- recommend properties to clients that meet their needs and budget
- make sure that the price agreed is acceptable to both buyer and seller
- keep up to date with trends, legislation and regulation in the relevant property market

If you work in the lettings area of estate agency, you'll need to:

- vet prospective tenants by collecting references and performing credit checks
- ensure properties meet legal and health and safety requirements, e.g. gas safety certificates
- draw up tenancy agreement contracts
- collect or organise rent payments
- act as a property manager and resolve any issues that arise with properties

For more information [click here](#)
