ICT

Feed The Mouse

In this game, parents can design a path for the mouse using a deck of cards and place some yummy treats for him throughout the path.

One person acts as the Computer (who moves the mouse by listening to the programmer's instructions). The other acts as the Programmer (who gives the commands). The Programmer gives verbal instructions like 'Move Forward' (state how many card spaces), 'Move Backward' (state how many card spaces), and 'Turn Right' or 'Turn Left' to guide the computer/mouse throughout the path, without missing any of the yummy treats.

PSHE

We recognised Holocaust Memorial Day last month.
<https://www.hmd.org.uk/>

The theme was, 'Be the light in the darkness'. It encourages everyone to reflect on the depths humanity can sink to, but also the ways individuals and communities resisted that darkness to 'be the light' before, during and after genocide.
List 5 things that you could do today, that would bring 'light' to your family or community.

Please send photos of any completed work to your class teacher or via email or message to 07784 225740 (WVA Mobile)
