**How does it work?** Work in pairs. One person (the programmer) instructs the other (the human computer) to create a playdough model of an image based on verbal instructions alone.

**What do you need?** Playdough or [use homemade salt dough](#) - you just need flour, salt and water. Using salt dough means you can bake your creations and paint them afterwards too!

**ART**

Choose a photograph that is up in your house and talk with your family about the meaning and memories behind it.

**FOOD TECH**

Cut out a heart shape into a piece of bread and fry it. Then fry an egg and put it on top. This would make a lovely valentine gift for someone.
