

Online-Safety Policy

Introduction

Key people / dates

 Wandle Valley Academy	Designated Safeguarding Lead (DSL) team	Charlotte Douglas-Finning Lynda Harris Katherine Peck Roy Charles David White Anne Sturman
	Online-safety lead (if different)	As above
	Academy Council Online-safety / safeguarding link	Anne Sturman David White
	PSHE/RSHE lead	Katherine Peck
	Network manager / other technical support	James Boampong, PLT IT Support
	Date this policy was reviewed and by whom	September 2025, James Boampong
	Date of next review and by whom	September 2026, James Boampong

What is this policy?

Online safety is an integral part of safeguarding and requires a whole academy, cross-curricular approach and collaboration between key academy leads. Accordingly, this policy is written in line with 'Keeping Children Safe in Education' 2025 (KCSIE), 'Teaching Online Safety in Schools', statutory RSHE guidance and other statutory documents. It is cross-curricular (with relevance beyond Relationships, Health and Sex Education, Citizenship and Computing) and designed to sit alongside or be integrated into your academy's statutory Child Protection & Safeguarding Policy. Any issues and concerns with online safety must always follow the academy's safeguarding and child protection procedures.

Who is it for; when is it reviewed?

This policy is a living document, subject to full annual review but also amended where necessary during the year in response to developments in the academy and local area. Although many aspects will be informed by legislation and regulations, staff, Academy Council Members, pupils and parent/carers/carers will be involved in writing and reviewing the policy (KCSIE stresses making use of teachers' day-to-day experience on the ground). This will help ensure all stakeholders understand the rules that are in place and why, and that the policy affects day-to-day practice. Any changes to this policy are immediately disseminated to all the above stakeholders.

Who is in charge of online safety?

The above person is in charge of online-safety at your academy; this person is also the Designated Safeguarding Lead and takes lead responsibility for safeguarding and child protection (including online safety).

Online-Safety Policy

What were the main online safety risks in 2024/2025?

Nationally, some of the latest trends of the past twelve months are outlined below. These are reflected in this policy and the acceptable use agreements we use and seen in the context of the 5 Cs (see KCSIE for more details), a whole- academy contextual safeguarding approach that incorporates policy and practice for curriculum, safeguarding and technical teams.

Last year, we highlighted the rapid rise of generative AI (GenAI). Since then, the trend has exploded. Thousands of sites now offer AI-generated content, including disturbing levels of abusive, pornographic, and even illegal material like child sexual abuse content. Some platforms host AI “girlfriends,” unregulated therapy bots, and even chatbots that encourage self-harm or suicide—tools many pupils/pupils can access freely at home or academy. Chatbots can also blur reality, offering harmful advice or engaging in sexualised and bullying conversations. Their addictive design and unmoderated nature heighten the risk of overuse and exploitation.

When used for generating text, GenAI presents multiple risks. It can spread misinformation, facilitate plagiarism, and most worryingly, bypass safety settings. Many tools lack effective age controls and produce inappropriate content.

Beyond text, GenAI makes it easier than ever to create sexualised images and deepfake videos. These can have a devastating emotional and physical impact on young people, including blackmail and abuse. The Internet Watch Foundation has warned of a sharp rise in AI-generated child sexual abuse imagery. Alarming reports also show children using nudifying apps to create illegal content of peers.

We regularly see AI searches involving sexualised and harmful content. It’s critical to stress that in the UK, *any* CSAM (child sexual abuse material)—AI-generated, photographic, or even cartoon—is illegal to create, possess, or share.

Academies must address this not just in the classroom, but by educating parent/carers and pupils on safe use at home. For guidance and resources, visit genai.lgfl.net.

Ofcom’s ‘Children and parent/carers: media use and attitudes report 2025’ has shown that YouTube remains the most used site or app among all under 18s, followed by WhatsApp, TikTok, Snapchat and Instagram. With children aged 8-14 spending an average of 2 hours 59 minutes a day online across smartphone, tablet and computer – with girls spending more time online than boys, four in ten parent/carers continue to report finding it hard to control their child’s screentime. Notably, 52% of 8-11s feel that their parent/carers’ screentime is also too high, underlining the importance of modelling good behaviour.

Given the 13yrs+ minimum age requirement on most social media platforms, it is notable that over half of 3-12 year olds (55%) were reported using at least one app. Despite age restrictions, four in ten admit to giving a fake age online, exposing them to content inappropriate for their age and increasing their risk of harm, with over a third of parent/carers of all 3-17s saying they would allow their child to have a profile on sites or apps before they had reached the minimum age.

We have also come across online communications platforms that offer anonymous chat services and connect users with random strangers allowing text and video chats. Most of these are easily accessible to children on devices.

Online-Safety Policy

As an academy we recognise that many of our children and young people are on these apps regardless of age limits, which are often misunderstood or ignored. We therefore will remind about best practice while remembering the reality for most of our pupils is quite different.

This is striking when you consider that 25% of 3-4 year olds have access to their OWN mobile phone (let alone shared devices), rising to over 90 percent by the end of Primary School, and the vast majority have no safety controls or limitations to prevent harm or access to inappropriate material. At the same time, even 3- to 6-year-olds are being tricked into 'self-generated' sexual content (Internet Watch Foundation Annual Report) while considered to be safely using devices in the home and for the first time, there were more 7-10-year-olds visible in child sexual abuse material (CSAM) images than 11-13s.

This is striking when you consider that over 95 percent of pupils have their own mobile phone by the end of Year 7, and the vast majority do not have safety controls or limitations to prevent harm of access to inappropriate material. This is particularly pertinent given that 217,780 cases of self-generated child sexual abuse material were found of 11–13-year-olds (Internet Watch Foundation Annual Report 2025). These were predominantly (but importantly not only) girls; it is important also to recognise the increasing risk of financial sexual extortion, sometimes referred to as 'sextortion', where older teenage boys have been financially exploited after being tricked into sharing intimate pictures online. This resulted in the National Crime Agency releasing [new guidance](#) to all schools and academy in Summer 2025.

Growing numbers of children and young people are using social media and apps, primarily TikTok as their source of news and information, with little attention paid to the facts or veracity of influencers sharing news.

There have also been significant safeguarding concerns where parent/carers have filmed interactions with staff outside the academy gates and posted this on social media, putting children and the wider academy community at risk of harm. See nofilming.lgfl.net to find out more.

Cyber Security is an essential component in safeguarding children and features within KCSIE. Sadly, the education sector remains a clear target for cyber-attacks, with the Cyber Security Breaches Survey 2025 reporting high levels of schools being attacked nationally, with 60% of secondary schools and 44% of primary schools reporting a breach or attack in the past year.

How will this policy be communicated?

This policy is a living document (regularly updated) that is accessible and understood by stakeholders. This document will be communicated in the following ways:

- Posted on the academy website
- Available on the internal staff network/drive
- Available in paper format in the staffroom
- Part of academy induction pack for all new staff (including temporary, supply and non-classroom-based staff)
- Integral to safeguarding updates and training for all staff (especially in September refreshers)

Online-Safety Policy

- Clearly reflected in the Acceptable Use Policies (AUPs) for staff, volunteers, contractors, governors, pupils and parent/carers/carers (which must be in accessible language appropriate to these groups).
- AUPs issued to whole academy community, on entry to the academy, with annual reminders of where to find them if unchanged, and reissued if updated after annual review
- AUPs are displayed in appropriate classrooms/corridors (not just in Computing corridors/classrooms)
- Reviews of this online-safety policy will include input from staff, pupils and other stakeholders, helping to ensure further engagement
- Discussed in parent/carer webinars/workshops

Online-Safety Policy

Overview

Aims

This policy aims to promote a whole academy approach to online safety by:

- Set out expectations for all Wandle Valley Academy community members' online behaviour, attitudes and activities and use of digital technology (including when devices are offline).
- Helping safeguarding and senior leadership teams to have a better understanding and awareness of all elements of online safeguarding through effective collaboration and communication with technical colleagues (e.g. for filtering and monitoring), curriculum leads (e.g. RSHE) and beyond.
- Help all stakeholders to recognise that online/digital behaviour standards (including social media activity) must be upheld beyond the confines of the academy gates and academy day, and regardless of device or platform, and that the same standards of behaviour apply online and offline.
- Facilitate the safe, responsible and respectful use of technology to support teaching & learning, increase attainment and prepare children and young people for the risks and opportunities of today's and tomorrow's digital world, to survive and thrive online.
- Help academy staff working with children to understand their roles and responsibilities to work safely and responsibly with technology and the online world:
 - for the protection and benefit of the children and young people in their care, and
 - for their own protection, minimising misplaced or malicious allegations and to better understand their own standards and practice.
 - for the benefit of the academy, supporting the academy ethos, aims and objectives, and protecting the reputation of the academy and profession.
- Establish clear structures by which online misdemeanours will be treated, and procedures to follow where there are doubts or concerns (with reference to other academy policies such as Behaviour Policy or Anti-Bullying Policy).

Scope

This policy applies to all members of the Wandle Valley Academy community (including staff, governors, volunteers, contractors, pupils/pupils, parent/carers/carers, visitors and community users) who have access to our digital technology, networks and systems, whether on-site or remotely, and at any time, or who use technology in their academy role.

Roles and responsibilities

This academy is a community and all members have a duty to behave respectfully online and offline, to use technology for teaching and learning and to prepare for life after academy, and to immediately report any concerns or inappropriate behaviour, to protect staff, pupils, families and the reputation of the academy. We learn together, make honest mistakes together and support each other in a world that is online and offline at the same time.

Depending on their role, all members of the academy community should **read the relevant section in Appendix A of this document** that describes individual roles and responsibilities. Please note there is one for 'All Staff' which must be read even by those who have a named role in another section. There are also pupil, governor, etc. role descriptions in the appendix. All staff have a key role to play in feeding back on potential issues.

Online-Safety Policy

Education and curriculum

Despite the risks associated with being online, Wandle Valley Academy recognises the opportunities and benefits to children too. Technology is a fundamental part of adult life and so developing the competencies to understand and use it, are critical to children's later positive outcomes. The choice to use technology in academy will always be driven by pedagogy and inclusion.

It is important that academies establish a carefully sequenced curriculum for online safety that develops competencies (as well as knowledge about risks) and builds on what pupils have already learned and identifies subject content that is appropriate for their stage of development.

As well as teaching about the underpinning knowledge and behaviours that can help pupils navigate the online world safely and confidently regardless of the device, platform or app, [Teaching Online Safety in Schools](#) recommends embedding teaching about online safety and harms through a whole academy approach and provides an understanding of these risks to help tailor teaching and support to the specific needs of pupils, including vulnerable pupils.

RSHE guidance also recommends that academy assess teaching to "identify where pupils need extra support or intervention [through] tests, written assignments or self-evaluations, to capture progress."

The teaching of online safety, features in these particular areas of curriculum delivery:

- Relationships education, relationships and sex education (RSE) and health (also known as RSHE or PSHE)
- Computing
- Citizenship.

However, as stated previously, it is the role of ALL staff to identify opportunities to thread online safety through all academy activities, both outside the classroom and within the curriculum, supporting curriculum/stage/subject leads, and making the most of unexpected learning opportunities as they arise.

Whenever overseeing the use of technology (devices, the internet, generative AI tools, etc.) in academy or setting as homework tasks, all staff should remind/encourage sensible use, monitor what pupils/pupils are doing and consider potential risks and the age appropriateness of tasks. This includes supporting them with search skills, reporting and accessing help, critical thinking (e.g. disinformation, misinformation, and conspiracy theories in line with KCSIE 2025), access to age-appropriate materials and signposting, and legal issues such as copyright and data law. saferesources.lgfl.net has regularly updated theme-based resources, materials and signposting for teachers and parent/carers.

At Wandle Valley Academy, we recognise that online safety and broader digital resilience must be thread throughout the curriculum and that is why we adopt the cross-curricular framework 'Education for a Connected World' from UKCIS (the UK Council for Internet Safety).

Annual reviews of curriculum plans / schemes of work (including for SEND pupils) take place and are used as an opportunity to follow this framework more closely in its key areas. This is done within the context of an annual online safety audit, which is a collaborative effort led by Charlotte Douglas Finning.

Online-Safety Policy

We communicate with parent/carers and carers about how we support pupils with their online safety learning, including what their children are being asked to do online and the sites they will be asked to access by sharing this policy, sharing the curriculum, including info. in newsletters, webinars etc.

Handling safeguarding concerns and incidents

It is vital that all staff recognise that online safety is a part of safeguarding and so concerns must be handled in the same way as any other safeguarding concern. Safeguarding is often referred to as a jigsaw puzzle, so all stakeholders should speak to the safeguarding lead with any concerns (no matter how small these seem) to contribute to the overall picture or highlight what might not yet be a problem.

Support staff will often have a unique insight and opportunity to find out about issues first in the playground, corridors, toilets and other communal areas outside the classroom.

Academy procedures for dealing with online safety will be mostly detailed in the following policies (primarily in the first key document):

- Safeguarding and Child Protection Policy
- Sexual Harassment / Child-on-Child Abuse Policy
- Anti-Bullying Policy
- Behaviour Policy (including academy sanctions)
- Acceptable Use Policies
- Prevent Risk Assessment / Policy
- Data Protection Policy, agreements and other documentation (e.g. privacy statement and consent forms for data sharing, image use etc)
- Cyber Security

This academy commits to take all reasonable precautions to safeguard pupils online but recognises that incidents will occur both inside academy and outside academy (and that those from outside academy will continue to impact pupils when they come into academy or during extended periods away from academy). All members of the academy are encouraged to report issues swiftly to allow us to deal with them quickly and sensitively through the academy's escalation processes.

Any suspected online risk or infringement should be reported to the Designated Safeguarding Lead as soon as possible on the same day. The reporting member of staff will ensure that a record is made of the concern on MyConcern - this includes any concerns raised by the filtering and monitoring systems (see section further on in this policy for more information).

Any concern/allegation about staff misuse is always (similar to any safeguarding allegation) referred directly to the Headteacher, unless the concern is about the Headteacher in which case the complaint is referred to the Chair of Governors and the LADO (Local Authority's Designated Officer). Staff may also use the NSPCC Whistleblowing Helpline.

The academy will actively seek support from other agencies as needed (i.e. the local authority, LGfL, UK Safer Internet Centre's Professionals' Online Safety Helpline (POSH), NCA CEOP, Prevent Officer, Police, IWF and Harmful Sexual Behaviour Support Service). The DfE guidance [Behaviour in Schools, advice for headteachers and school staff](#) September 2024 provides advice and related legal duties including support for pupils and powers of staff when responding to incidents – see pages 31-33 for guidance on child on child sexual violence and harassment, behaviour incidents online and mobile phones.

Online-Safety Policy

We will inform parent/carers/carers of online safety incidents involving their children, and the Police where staff or pupils engage in or are subject to behaviour which we consider is particularly concerning or breaks the law.

The academy should ensure all online safety reporting procedures are sustainable for any unforeseen periods of closure.

For more information on reporting channels for online safety concerns, please visit reporting.lgfl.net.

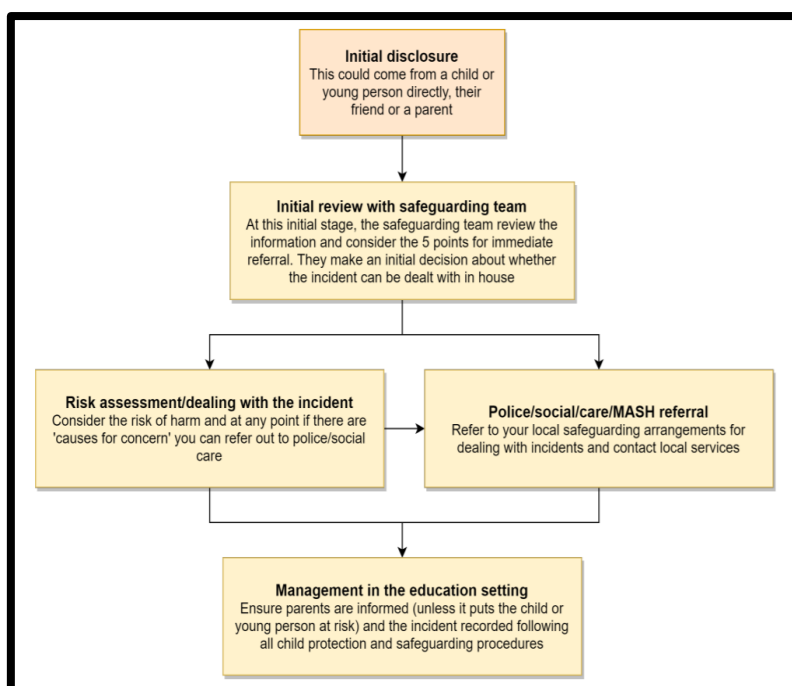

The following sub-sections provide detail on managing particular types of concern.

Nudes – sharing nudes and semi-nudes

All schools (regardless of phase) should refer to the UK Council for Internet Safety (UKCIS) guidance on sexting - now referred to as [Sharing nudes and semi-nudes: advice for education settings](#).

There is a one-page overview called [Sharing nudes and semi-nudes: how to respond to an incident](#) for all staff (not just classroom-based staff) to read, in recognition of the fact that it is mostly someone other than the designated safeguarding lead (DSL) or online safety lead to first become aware of an incident, and it is vital that the correct steps are taken. **Staff other than the DSL must not attempt to view, share or delete the image or ask anyone else to do so, but to go straight to the DSL.**

It is important that everyone understands that whilst the sharing of nudes involving children is illegal, pupils should be encouraged and supported to talk to members of staff if they have made a mistake or had a problem in this area. The UKCIS guidance seeks to avoid unnecessary criminalisation of children. The academy DSL will use the full guidance document, [Sharing nudes and semi-nudes – advice for educational settings](#) to decide next steps and whether other agencies need to be involved (see flow chart below from the UKCIS guidance) and next steps regarding liaising with parent/carers and supporting pupils.

Online-Safety Policy

The following LGfL document (available at nudes.lgfl.net) may also be helpful for DSLs in making their decision about whether to refer a concern about sharing of nudes:

SAFEGUARDING QUESTION TIME

Q: WHEN SHOULD WE REFER NUDE SHARING?

A: IMMEDIATELY *IF* THE IMAGE/VIDEO:

- involves an adult
- is potentially coerced, blackmailed or groomed or concerns about capacity to consent
- might depict sexual acts unusual for their developmental stage or violent
- involves sexual acts / under 13s
- or the young person is at immediate risk of harm[...], suicidal or self-harming

Text simplified, taken from page 20 of 'Sharing Nudes and Semi-Nudes', UKCIS – search.gov.uk

"We recommend DSLs read the entire UKCIS document; there is much more to know than this, and many helpful resources including training, scenarios and further guidance. Note also the one-pager for all staff!"

Priority Areas

Upskirting

It is important that everyone understands that upskirting (taking a photo of someone under their clothing, not necessarily a skirt) is a criminal offence and constitutes a form of sexual harassment as highlighted in Keeping Children Safe in Education. As with other forms of child-on-child abuse pupils/pupils can come and talk to members of staff if they have made a mistake or had a problem in this area.

Bullying

Online bullying (which may also be referred to as cyberbullying), including incidents that take place outside of academy should be treated like any other form of bullying and the academy bullying policy should be followed, . This includes issues arising from banter.

It is important to be aware that sometimes fights are being filmed, live streamed or shared online and fake profiles are used to bully children in the name of others. When considering bullying, staff will be reminded of these issues.

Materials to support teaching about bullying and useful Department for Education guidance and case studies are at bullying.lgfl.net

Online-Safety Policy

Child-on-child sexual violence and sexual harassment

Any incident of sexual harassment or violence (online or offline) should be reported to the DSL who will follow the guidance in KCSIE. Staff should work to foster a zero-tolerance culture and maintain an attitude of 'it could happen here'. The guidance stresses that academies must take all forms of sexual violence and harassment seriously, explaining how it exists on a continuum and that behaviours incorrectly viewed as 'low level' are treated seriously and not allowed to perpetuate. The document makes specific reference to behaviours such as bra-strap flicking and the careless use of language. This will be discussed in staff training.

Misuse of academy technology (devices, systems, networks or platforms)

Clear and well communicated rules and procedures are essential to govern pupil and adult use of academy networks, connections, internet connectivity and devices, cloud platforms and social media (both when on academy site and outside of academy).

These are defined in the relevant Acceptable Use Policy as well as in this document, for example in the sections relating to the professional and personal use of academy platforms/networks/clouds, devices and other technology, as well as to BYOD (bring your own device) policy.

Where pupils contravene these rules, the academy behaviour policy will be applied; where staff contravene these rules, action will be taken as outlined in the staff code of conduct/handbook.

It will be necessary to reinforce these as usual at the beginning of any academy year but also to remind pupils that **the same applies for any home learning** that may take place.

Further to these steps, the academy reserves the right to withdraw – temporarily or permanently – any or all access to such technology, or the right to bring devices onto academy property.

Social media incidents

Social media incidents involving pupils are often safeguarding concerns and should be treated as such and staff should follow the safeguarding policy. Other policies that govern these types of incidents are the academy's Acceptable Use Policies/social media policy/online safety.

Breaches will be dealt with in line with the academy behaviour policy (for pupils) or code of conduct/handbook (for staff). See the social media section later in this document for rules and expectations of behaviour for children and adults in the Wandle Valley Academy community.

Further to this, where an incident relates to an inappropriate, upsetting, violent or abusive social media post by a member of the academy community (e.g. parent/carer or visitor), Wandle Valley Academy will request that the post be deleted and will expect this to be actioned promptly.

Where an offending post has been made by a third party, the academy may report it to the platform it is hosted on, and may contact the [Professionals' Online Safety Helpline](#), POSH, (run by the UK Safer Internet Centre) for support or help to accelerate this process.

Online-Safety Policy

Extremism

The academy has obligations relating to radicalisation and all forms of extremism under the Prevent Duty. Staff will not support or promote extremist organisations, messages or individuals, give them a voice or opportunity to visit the academy, nor browse, download or send material that is considered offensive or of an extremist nature. We ask for parent/carers' support in this also, especially relating to social media, where extremism and hate speech can be widespread on certain platforms.

Data protection and cyber security

All pupils, staff, governors, volunteers, contractors and parent/carers are bound by the academy's data protection and cyber security policy. It is important to remember that there is a close relationship between both data protection and cyber security and a academy's ability to effectively safeguard children. Academies are reminded of this in KCSIE which also refers to the DfE Standards of Cyber Security for Academies and Colleges.

Academies should remember that data protection does not prevent, or limit, the sharing of information for the purposes of keeping children safe. As outlined in *Data protection in schools*, 2023, "It's not usually necessary to ask for consent to share personal information for the purposes of safeguarding a child." And in KCSIE 2025, "The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children."

Appropriate filtering and monitoring

The designated safeguarding lead (DSL) Wandle Valley Academy has lead responsibility for filtering and monitoring and works closely with IT Team to implement the DfE filtering and monitoring standards, which require academies to:

- identify and assign roles and responsibilities to manage filtering and monitoring systems.
- review filtering and monitoring provision at least annually.
- block harmful and inappropriate content without unreasonably impacting teaching and learning.
- have effective monitoring strategies in place that meet their safeguarding needs.

We look to provide 'appropriate filtering and monitoring (as outlined in Keeping Children Safe in Education) at all times.

We ensure ALL STAFF are aware of filtering and monitoring systems and play their part in feeding back about areas of concern, potential for pupils to bypass systems and any potential overblocking. They can submit concerns at any point via SLT, DSL and IT Team and will be asked for feedback at the time of the regular checks which will now take place.

Technical and safeguarding colleagues work together closely to carry out annual reviews and check and also to ensure that the academy responds to issues and integrates with the curriculum.

We carry out half-termly checks to ensure filtering is operational, functioning as expected, etc and an annual review as part of an online safety audit of strategy, approach etc.

Online-Safety Policy

At our academy we recognise that generative AI sites can pose data risks so staff are not allowed to enter child data and where they use them, they must be approved. For children and young people, we block the generative AI category and only allow specific sites. These are [insert names here] ; we know that what children input and what the tool outputs cannot be guaranteed as safe and inappropriate content can be generated, so we carefully monitor output and limit their use - also in line with DfE guidelines.

Find out more at genaisafe.lgfl.net

Safe Search is enforced on any accessible search engines on all academy-managed devices.

We recommend the use of google safe search engine.

Our YouTube mode is moderate. This helps us to limit inappropriate content that is served to pupils.

Staff will be reminded of the systems in place and their responsibilities at induction and start of year safeguarding as well as via AUPs and regular training reminders in the light of the annual review and regular checks that will be carried out.

The DSL and IT Support Team checks filtering reports and notifications weekly and takes any necessary action as a result.

According to the DfE standards, “Your monitoring plan should include how you will monitor pupils when using academy-managed devices connected to the internet. This could include:

- device monitoring using device management software
- in-person monitoring in the classroom
- network monitoring using log files of internet traffic and web access”

At Wandle Valley Academy, we use LGFL School Protect and Impero to filter and monitor content on devices at the academy. Staff devices are not monitored but history of activities can be retrieved for investigative purposes.

Monitoring alerts are checked daily in real-time by all staff using Impero and incidents are reported to the DSL.

Messaging/commenting systems (incl. email, learning platforms & more)

Authorised systems

- Pupils at this academy do NOT communicate with each other and with staff using and electronic means.
- Staff at this academy use the email system provided by LGFL for all academy emails. They never use a personal/private email account (or other messaging platform) to communicate with children or parent/carers, or to colleagues when relating to academy/child data, using a non-academy-administered system. Staff are permitted to use this email system to communicate with parent/carers, with external organisations.
- Staff at this academy use Arbor to communicate with parent/carers/carers.

Any systems above are centrally managed and administered by the academy or authorised IT partner (i.e. they can be monitored/audited/viewed centrally; are not private or linked to private accounts). This is for the mutual protection and privacy of all staff, pupils and parent/carers, supporting safeguarding

Online-Safety Policy

best-practice, protecting children against abuse, staff against potential allegations and in line with UK data protection legislation.

Use of any new platform or app with communication facilities or any child login or storing academy/child data must be approved in advance by the academy and centrally managed.

Any unauthorised attempt to use a different system may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Where devices have multiple accounts for the same app, mistakes can happen, such as an email being sent from, or data being uploaded to the wrong account. If this a private account is used for communication or to store data by mistake, the DSL/Headteacher/DPO (the particular circumstances of the incident will determine whose remit this is) should be informed immediately.

Behaviour / usage principles of messaging/commenting systems

- More detail for all the points below are given in the [Error! Reference source not found.](#) section of this policy as well as the academy's Acceptable Use Agreements, Behaviour Policy and Staff Code of Conduct.
- Appropriate behaviour is expected at all times, and the system should not be used to send inappropriate materials or language which is or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which (for staff) might bring the academy into disrepute or compromise the professionalism of staff.
- Data protection principles will be followed at all times when it comes to all academy communications, in line with the academy Data Protection Policy and only using the authorised systems mentioned above.

Use of generative AI

At Wandle Valley Academy, we acknowledge that generative AI platforms (e.g. ChatGPT or Gemini for text creation or the use of Co-Pilot or Adobe Firefly to create images and videos) are becoming widespread. We are aware of and follow the [DfE's guidance](#) on this. In particular:

- We will talk about the use of these tools with pupils, staff and parent/carers – their practical use as well as their ethical pros and cons.
- We are aware that there will be use of these apps and exposure to AI creations on devices at home for some pupils – these experiences may be both positive/creative and also negative (inappropriate data use, misinformation, bullying, deepfakes, nudifying apps and inappropriate chatbots).
- The use of any generative AI in Exams, or to plagiarise and cheat is prohibited, and the Behaviour Policy will be used for any pupil found doing so.
- At the academy, we block the generative AI category on the filtering system and if and when appropriate to allow gen AI. This is done on a one-by-one basis for those sites/apps we deem to be acceptable/required, with limitations according to age or perhaps only for certain lessons or periods of time.
- Staff are encouraged to use AI to assist and aid teaching and learning but NOT solely depend on AI or use as a replacement to curriculum.
- Before a new AI platform is permitted it needs to be authorised by the headteacher and IT Lead and thoroughly tested.
- AI has been disabled for pupils at the academy.

Online-Safety Policy

Online-Safety Policy

Online storage or learning platforms

All the principles outlined above also apply to any system to which you log in online to conduct academy business, whether it is to simply store files or data (an online 'drive') or collaborate, learn, teach, etc. In Wandle Valley Academy this includes OneDrive, Google Drive and MS Teams.

For all these, it is important to consider data protection and cyber security before adopting such a platform or service and at all times when using it. Any new platforms will be approved by the IT Lead.

Academy website

The academy website is a key public-facing information portal for the academy community (both existing and prospective stakeholders) with a key reputational value. The Headteacher and Governors have delegated the day-to-day responsibility of updating the content of the website and ensuring compliance with DfE stipulations to Toni Ahmet and Lisa Chase.

The website is managed by the academy and Schudio and hosted by Schudio.

Where staff submit information for the website, they are asked to remember that academies have the same duty as any person or organisation to respect and uphold copyright law – academies have been fined thousands of pounds for copyright breaches. Sources must always be credited, and material only used with permission. There are many open-access libraries of public-domain images/sounds etc that can be used. Finding something on Google or YouTube does not mean that copyright has been respected.

Digital images and video

When a pupil/pupil joins the academy, parent/carers/carers are asked if they give consent for their child's image to be captured in photographs or videos, for what purpose (beyond internal assessment, which does not require express consent) and for how long. Parent/carers/carers answer as follows:

- For displays around the academy
- For the newsletter
- For use in paper-based academy marketing
- For online prospectus or websites
- For a specific high profile image for display or publication
- For social media

Whenever a photo or video is taken/made, the member of staff taking it will check the latest database before using it for any purpose.

Any pupils shown in public facing materials are never identified with more than first name (and photo file names/tags do not include full names to avoid accidentally sharing them).

All staff are governed by their contract of employment and the academy's Acceptable Use Policy, which covers the use of mobile phones/personal equipment for taking pictures of pupils, and where these are stored. at Wandle Valley Academy, no member of staff will ever use their personal phone to capture photos or videos of pupils.

Photos are stored on the academy network in line with the retention schedule of the academy Data Protection Policy.

Online-Safety Policy

Staff and parent/carers/carers are reminded annually about the importance of not sharing without permission, due to reasons of child protection (e.g. looked-after children often have restrictions for their own protection), data protection, religious or cultural reasons, or simply for reasons of personal privacy.

We encourage young people to think about their online reputation and digital footprint, so we should be good adult role models by not oversharing (or providing embarrassment in later life – and it is not for us to judge what is embarrassing or not).

Pupils are taught about how images can be manipulated in their online safety education programme and also taught to consider how to publish for a wide range of audiences which might include Academy Council members, parent/carers or younger children.

Pupils are advised to be very careful about placing any personal photos on social media. They are taught to understand the need to maintain privacy settings so as not to make public, personal information.

Pupils are taught that they should not post images or videos of others without their permission. We teach them about the risks associated with providing information with images (including the name of the file), that reveals the identity of others and their location. We teach them about the need to keep their data secure and what to do if they / or a friend are subject to bullying or abuse.

Social media

Our SM presence

Wandle Valley Academy works on the principle that if we don't manage our social media reputation, someone else will.

Online Reputation Management (ORM) is about understanding and managing our digital footprint (everything that can be seen or read about the academy online). Few parent/carers will apply for an academy place without first 'googling' the academy, and the Ofsted pre-inspection check includes monitoring what is being said online.

Negative coverage almost always causes some level of disruption. Up to half of all cases dealt with by the Professionals Online Safety Helpline (POSH: helpline@saferinternet.org.uk) involve academy's (and staff members') online reputation.

Accordingly, we manage and monitor our social media footprint carefully to know what is being said about the academy and to respond to criticism and praise in a fair, responsible manner. We conduct regular checks of privacy and security settings on social media accounts to ensure appropriate access.

Lynda Harris is responsible for managing our Twitter/Facebook and other social media accounts and checking our Wikipedia and Google reviews and other mentions online.

Staff, pupils' and parent/carers' SM presence

Social media (including all apps, sites and games that allow sharing and interaction between users) is a fact of modern life, and as an academy, we accept that many parent/carers, staff and pupils will use it. However, as stated in the acceptable use policies which all members of the academy community sign,

Online-Safety Policy

we expect everybody to behave in a positive manner, engaging respectfully with the academy and each other on social media, in the same way as they would face to face.

This positive behaviour can be summarised as not making any posts which are or could be construed as bullying, aggressive, rude, insulting, illegal or otherwise inappropriate, or which might bring the academy or (particularly for staff) teaching profession into disrepute. This applies both to public pages and to private posts, e.g. parent/carers chats, pages or groups.

If parent/carers have a concern about the academy, we would urge them to contact us directly and in private to resolve the matter. If an issue cannot be resolved in this way, the academy complaints procedure should be followed. Sharing complaints on social media is unlikely to help resolve the matter, but can cause upset to staff, pupils and parent/carers, also undermining staff morale and the reputation of the academy (which is important for the pupils we serve).

Many social media platforms have a minimum age of 13, but the academy regularly deals with issues arising on social media with pupils/pupils under the age of 13. We ask parent/carers to respect age ratings on social media platforms wherever possible and not encourage or condone underage use.

However, the academy has to strike a difficult balance of not encouraging underage use at the same time as needing to acknowledge reality in order to best help our pupils/pupils to avoid or cope with issues if they arise. Online safety lessons will look at social media and other online behaviour, how to be a good friend online and how to report bullying, misuse, intimidation or abuse. However, children will often learn most from the models of behaviour they see and experience, which will often be from adults.

Parent/carers can best support this by talking to their children about the apps, sites and games they use (you don't need to know them – ask your child to explain it to you), with whom, for how long, and when (late at night / in bedrooms is not helpful for a good night's sleep and productive teaching and learning at academy the next day). You may wish to refer to the [Digital Family Agreement](#) to help establish shared expectations and the [Top Tips for Parent/carers](#) poster along with relevant items and support available from parent/careronlinesafety.lgfl.net and parent/carersafe.lgfl.net and introduce the [Children's Commission Digital 5 A Day](#).

The academy has an official Facebook / Twitter (managed by Lynda Harris) and will respond to general enquiries about the academy, but asks parent/carers/carers not to use these channels to communicate about their children.

Email is the official electronic communication channel between parent/carers and the academy.

Pupils/pupils are not allowed* to be 'friends' with or make a friend request** to any staff, governors, volunteers and contractors or otherwise communicate via social media.

Pupils/pupils are not allowed to be 'friends' with or make a friend request to any staff, Academy Council members, volunteers and contractors or otherwise communicate via social media.

Pupils/pupils are discouraged from 'following' staff, Academy Council, volunteer or contractor public accounts (e.g. following a staff member with a public Instagram account). However, we accept that this can be hard to control (but this highlights the need for staff to remain professional in their private lives). In the reverse situation, however, staff must not follow such public pupil accounts.

Online-Safety Policy

* Exceptions may be made, e.g. for pre-existing family links, but these must be approved by the Headteacher and should be declared upon entry of the pupil or staff member to the academy).

** Any attempt to do so may be a safeguarding concern or disciplinary matter and should be notified to the DSL (if by a child) or to the Headteacher (if by a staff member).

Staff are reminded that they are obliged not to bring the academy or profession into disrepute and the easiest way to avoid this is to have the strictest privacy settings and avoid inappropriate sharing and oversharing online. They should never discuss the academy or its stakeholders on social media and be careful that their personal opinions might not be attributed to the academy, trust or local authority, bringing the academy into disrepute.

The serious consequences of inappropriate behaviour on social media are underlined by the fact that there has been a considerable number of Prohibition Orders issued by the Teacher Regulation Agency to teaching staff that involved misuse of social media/technology.

All members of the academy community are reminded that particularly in the context of social media, it is important to comply with the academy policy on **Error! Reference source not found.** and permission is sought before uploading photographs, videos or any other information about other people. Parent/carers must **not** covertly film or make recordings of any interactions with pupils or adults in academies or near the academy gates, nor share images of other people's children on social media as there may be cultural or legal reasons why this would be inappropriate or even dangerous (see nofilming.lgfl.net for more information). The academy sometimes uses images/video of children for internal purposes such as recording attainment, but it will only do so publicly if parent/carers have given consent on the relevant form.

Device usage

AUPs remind those with access to academy devices about rules on the misuse of academy technology – devices used at home should be used just like if they were in full view of a teacher or colleague. Please read the following in conjunction with those AUPs and the sections of this document which impact upon device usage, e.g. copyright, data protection, social media, misuse of technology, and digital images and video.

Personal devices including wearable technology and bring your own device (BYOD)

- **Pupils/pupils** are allowed to bring mobile phones in for emergency use only but must hand in the phones to the academy office as they enter the academy building. Important messages and phone calls to or from parent/carers can be made at the academy office, which will also pass on messages from parent/carers to pupils in emergencies.
- **All staff who work directly with children** should leave their mobile phones on silent and only use them in private staff areas during academy hours. See also the Digital images and video section on page 17 and **Error! Reference source not found.** section on page **Error! Bookmark not defined.** Child/staff data should never be downloaded onto a private phone. If a staff member is expecting an important personal call when teaching or otherwise on duty, they may leave their phone with the academy office to answer on their behalf or ask for the message to be left with the academy office.
- **Volunteers, contractors, governors** should leave their phones in their pockets and turned off. Under no circumstances should they be used in the presence of children or to take photographs or videos. If this is required (e.g. for contractors to take photos of equipment or buildings),

Online-Safety Policy

permission of the headteacher should be sought (the headteacher may choose to delegate this) and this should be done in the presence of a member staff.

- **Parent/carers/carers** are asked to leave their phones in their pockets and turned off when they are on site. They should ask permission before taking any photos, e.g. of displays in corridors or classrooms, and avoid capturing other children. When at academy events, please refer to the Digital images and video section of this document on page 17. Parent/carers/carers are asked not to call pupils on their mobile phones during the academy day; urgent messages can be passed via the academy office.

Use of academy devices

Staff and pupils are expected to follow the terms of the academy acceptable use policies for appropriate use and behaviour when on academy devices, whether on site or at home.

Academy devices are not to be used in any way which contravenes AUPs, behaviour policy / staff code of conduct.

Wi-Fi is accessible to only staff for BYOD and is restricted till manually user authentication for staff filtering to take effect. All such use is monitored.

Academy devices for staff or pupils are restricted to the apps/software installed by the academy, whether for use at home or academy, and may be used for learning.

All and any usage of devices and/or systems and platforms may be tracked.

Trips / events away from academy

For academy trips/events away from the academy, teachers will be issued an academy duty phone and this number used for any authorised or emergency communications with pupils/pupils and parent/carers. Any deviation from this policy (e.g. by mistake or because the academy phone will not work) will be notified immediately to the Headteacher. Teachers using their personal phone in an emergency will ensure that the number is hidden to avoid a parent/carer or pupil accessing a teacher's private phone number.

If on trips pupils are encouraged to connect to another organisation's Wi-Fi/network, staff must be aware that other connections may not be as well controlled (e.g. via filtering and monitoring) as the network and systems in academy and therefore staff are responsible for risk assessing and managing such situations. Staff should seek advice from the DSL where necessary.

Searching and confiscation

In line with the DfE guidance 'Searching, screening and confiscation: advice for academies', the Headteacher/Principal and staff authorised by them have a statutory power to search pupils/property on academy premises. This includes the content of mobile phones and other devices, for example as a result of a reasonable suspicion that a device contains illegal or undesirable material, including but not exclusive to sexual images, pornography, violence or bullying.

Full details of the academy's search procedures are available in the academy Behaviour Policy.

Online-Safety Policy

Appendix A – Roles

Please read the relevant roles & responsibilities section from the following pages.

All academy staff must read the “All Staff” section as well as any other relevant to specialist roles.

Roles:

- All Staff
- Headteacher/Principal
- Designated Safeguarding Lead
- Governing Body, led by Online Safety / Safeguarding Link Governor
- PSHE / RSHE Lead/s
- Computing Lead
- Subject / aspect leaders
- Network Manager/technician
- Data Protection Officer (DPO)
- Volunteers and contractors (including tutor)
- Pupils
- Parent/carers/carers
- External groups including parent/carers associations

All staff

All staff should sign and follow the staff acceptable use policy in conjunction with this policy, the academy’s main safeguarding policy, the code of conduct/handbook and relevant parts of Keeping Children Safe in Education to support a whole-academy safeguarding approach.

They must report any concerns, no matter how small, to the designated safety lead as named in the AUP, maintaining an awareness of current online safety issues (see the start of this document for issues in 2025) and guidance (such as KCSIE), modelling safe, responsible and professional behaviours in their own use of technology at academy and beyond and avoiding scaring, victim-blaming language.

Staff should also be aware of the DfE standards for filtering and monitoring and play their part in feeding back to the DSL about over blocking, gaps in provision or pupils bypassing protections. All staff are also responsible for the physical monitoring of pupils’ online devices during any session/class they are working within.

Headteacher Lynda Harris

Key responsibilities:

- Foster a culture of safeguarding where online safety is fully integrated into whole-academy safeguarding.
- Oversee and support the activities of the designated safeguarding lead team and ensure they work technical colleagues to complete an online safety audit in line with KCSIE (including technology in use in the academy).
- Undertake training in offline and online safeguarding, in accordance with statutory guidance and Local Safeguarding Children Partnership support and guidance.
- Ensure ALL staff undergo safeguarding training (including online safety) at induction and with regular updates and that they agree and adhere to policies and procedures.

Online-Safety Policy

- Ensure ALL Academy Council Members undergo safeguarding and child protection training and updates (including online safety) to provide strategic challenge and oversight into policy and practice and that governors are regularly updated on the nature and effectiveness of the academy's arrangements.
- Ensure the academy implements and makes effective use of appropriate ICT systems and services including academy-safe filtering and monitoring, protected email systems and that all technology including remote systems are implemented according to child-safety first principles.
- Better understand, review and drive the rationale behind decisions in filtering and monitoring as per the DfE standards—through regular liaison with technical colleagues and the DSL— in particular understand what is blocked or allowed for whom, when, and how as per KCSIE.
- Liaise with the designated safeguarding lead on all online safety issues which might arise and receive regular updates on academy issues and broader policy and practice information.
- Support safeguarding leads and technical staff as they review protections for pupils in the home and remote-learning procedures, rules and safeguards.
- Take overall responsibility for data management and information security ensuring the academy's provision follows best practice in information handling; work with the DPO, DSL and governors to ensure a compliant framework for storing data, but helping to ensure that child protection is always put first and data-protection processes support careful and legal sharing of information.
- Understand and make all staff aware of procedures to be followed in the event of a serious online safeguarding incident.
- Ensure suitable risk assessments are undertaken so the curriculum meets needs of pupils, including risk of children being radicalised.
- Ensure the academy website meets statutory requirements.

Designated Safeguarding Lead / Online Safety Lead – Charlotte Douglas Finning

Key responsibilities (remember the DSL can delegate certain online safety duties but not the overall responsibility; this assertion and all quotes below are from Keeping Children Safe in Education):

- The DSL should “take **lead responsibility** for safeguarding and child protection (**including online safety and understanding the filtering and monitoring** systems and processes in place).
- Ensure “An effective whole academy approach to online safety as per KCSIE.
- Ensure the academy is complying with the DfE's standards on Filtering and Monitoring.
- As part of this, DSLs will work with technical teams to carry out reviews and checks on filtering and monitoring, to compile the relevant documentation and ensure that safeguarding and technology work together. This will include a decision on relevant YouTube mode and preferred search engine/s etc. YouTube mode is moderate and search engine is Google (Safe search).
- Where online safety duties are delegated and in areas of the curriculum where the DSL is not directly responsible, but which cover areas of online safety (e.g. RSHE), ensure there is regular review and open communication and that the DSL's clear overarching responsibility for online safety is not compromised or messaging to pupils confused.
- Ensure ALL staff and supply staff undergo safeguarding and child protection training (including online safety) at induction and that this is regularly updated.
 - This must include filtering and monitoring and help them to understand their roles.
 - All staff must read KCSIE Part 1 and all those working with children also Annex B – translations are available in 13 community languages at kcsietranslate.lgfl.net (the condensed Annex A can be provided instead to staff who do not directly work with children if this is better)
 - Cascade knowledge of risks and opportunities throughout the organisation.

Online-Safety Policy

- Ensure that ALL governors and trustees undergo safeguarding and child protection training (including online safety) at induction to enable them to provide strategic challenge and oversight into policy and practice and that this is regularly updated.
- Take day-to-day responsibility for safeguarding issues and be aware of the potential for serious child protection concerns.
- Be mindful of using appropriate language and terminology around children when managing concerns, including avoiding victim-blaming language.
- Remind staff of safeguarding considerations as part of a review of remote learning procedures and technology, including that the same principles of online safety and behaviour apply.
- Work closely with SLT, staff and technical colleagues to complete an online safety audit (including technology in use in the academy).
- Work with the headteacher, DPO and governors to ensure a compliant framework for storing data but helping to ensure that child protection is always put first, and data-protection processes support careful and legal sharing of information.
- Stay up to date with the latest trends in online safeguarding and “undertake Prevent awareness training.”
- Review and update this policy, other online safety documents (e.g. Acceptable Use Policies) and the strategy on which they are based (in harmony with policies for behaviour, safeguarding, Prevent and others) and submit for review to the governors/trustees.
- Receive regular updates about online safety issues and legislation, be aware of local and academy trends.
- Ensure that online safety education is embedded across the curriculum in line with the statutory RSHE guidance (e.g. by use of the updated UKCIS framework ‘[Education for a Connected World](#)’) and beyond, in wider academy life.
- Promote an awareness of and commitment to online safety throughout the academy community, with a strong focus on parent/carers, including hard-to-reach parent/carers.
- Communicate regularly with SLT and the safeguarding governor/committee to discuss current issues (anonymised), review incident logs and filtering/change control logs and discuss how filtering and monitoring work and have been functioning/helping.
- Ensure all staff are aware of the procedures that need to be followed in the event of an online safety incident, and that these are logged in the same way as any other safeguarding incident.
- Ensure adequate provision for staff to flag issues when not in academy and for pupils to disclose issues when off site, especially when in isolation/quarantine, e.g. a [survey to facilitate disclosures](#) and an online form on the academy home page about ‘something that worrying me’ that gets mailed securely to the DSL inbox.
- Ensure staff adopt a zero-tolerance, whole academy approach to all forms of child-on-child abuse, and don’t dismiss it as banter (including bullying).
- Pay particular attention to **online tutors**, both those engaged by the academy as part of the DfE scheme who can be asked to sign the contractor AUP, and those hired by parent/carers.

Governing Body, led by Online Safety / Safeguarding Link Governor – Anne Sturman

Key responsibilities (quotes are taken from Keeping Children Safe in Education)

- Approve this policy and strategy and subsequently review its effectiveness, e.g. by asking the questions in the helpful document from the UK Council for Child Internet Safety (UKCIS) [Online safety in schools and colleges: Questions from the Governing Board](#) .
- Undergo (and signpost all other governors and Trustees to attend) safeguarding and child protection training (including online safety) at induction to provide strategic challenge and into policy and practice, ensuring this is regularly updated.

Online-Safety Policy

- Ensure that all staff also receive appropriate safeguarding and child protection (including online) training at induction and that this is updated.
- Appoint a filtering and monitoring governor to work closely with the DSL on the new filtering and monitoring standards.
- Support the academy in encouraging parent/carers and the wider community to become engaged in online safety activities.
- Have regular strategic reviews with the online safety coordinator / DSL and incorporate online safety into standing discussions of safeguarding at governor meetings.
- Work with the DPO, DSL and headteacher to ensure a compliant framework for storing data but helping to ensure that child protection is always put first, and data-protection processes support careful and legal sharing of information.
- Check all academy staff have read Part 1 of KCSIE; SLT and all working directly with children have read Annex B.
- Ensure that all staff undergo safeguarding and child protection training (including online safety and now also reminders about filtering and monitoring).
- “Ensure that children are taught about safeguarding, including online safety [...] as part of providing a broad and balanced curriculum [...] Consider a whole school or college approach to online safety [with] a clear policy on the use of mobile technology.”

PSHE / RSHE Lead/s – Katherine Peck

Key responsibilities:

- As listed in the ‘all staff’ section, plus:
- Embed consent, mental wellbeing, healthy relationships and staying safe online as well as raising awareness of the risks and challenges from latest trends in self-generative artificial intelligence, financial extortion and sharing intimate pictures online into the PSHE / Relationships education, relationships and sex education (RSE) and health education curriculum. “This will include being taught what positive, healthy and respectful online relationships look like, the effects of their online actions on others and knowing how to recognise and display respectful behaviour online. Throughout these subjects, teachers will address online safety and appropriate behaviour in an age-appropriate way that is relevant to their pupils’ lives.”
- Focus on the underpinning knowledge and behaviours outlined in [Teaching Online Safety in Schools](#) in an age appropriate way to help pupils to navigate the online world safely and confidently regardless of their device, platform or app.
- Assess teaching to “identify where pupils need extra support or intervention [through] tests, written assignments or self-evaluations, to capture progress” to complement the computing curriculum.
- Work closely with the DSL and all other staff to ensure an understanding of the issues, approaches and messaging within PSHE / RSHE.
- Note that an RSHE policy should be included on the academy website.
- Work closely with the Computing subject leader to avoid overlap but ensure a complementary whole-academy approach, and with all other lead staff to embed the same whole-academy approach.

Computing Lead – Gary Wright

Key responsibilities:

- As listed in the ‘all staff’ section, plus:

Online-Safety Policy

- Oversee the delivery of the online safety element of the Computing curriculum in accordance with the national curriculum.
- Work closely with the RSHE lead to avoid overlap but ensure a complementary whole-academy approach.
- Work closely with the DSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing.
- Collaborate with technical staff and others responsible for ICT use in academy to ensure a common and consistent approach, in line with acceptable-use agreements.

Subject / aspect leaders

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Look for opportunities to embed online safety in your subject or aspect, especially as part of the RSHE curriculum, and model positive attitudes and approaches to staff and pupils alike.
- Consider how the UKCIS framework Education for a Connected World and Teaching Online Safety in Academies can be applied in your context.
- Work closely with the DSL and all other staff to ensure an understanding of the issues, approaches and messaging within Computing.
- Ensure subject specific action plans also have an online safety element.

Network Manager/technician – James Boampong, IT

Key responsibilities:

- As listed in the 'all staff' section, plus:
- Collaborate regularly with the DSL and leadership team to help them make key strategic decisions around the safeguarding elements of technology.
- Support safeguarding teams to understand and manage filtering and monitoring systems and carry out regular reviews and annual checks.
- Support DSLs and SLT to carry out an annual online safety audit as recommended in KCSIE. This should also include a review of technology, including filtering and monitoring systems (what is allowed, blocked and why and how 'over blocking' is avoided as per KCSIE) to support their role as per the DfE standards, protections for pupils in the home and remote-learning.
- Keep up to date with the academy's online safety policy and technical information in order to effectively carry out their online safety role and to inform and update others as relevant.
- Work closely with the designated safeguarding lead / online safety lead / data protection officer / LGfL nominated contact / RSHE lead to ensure that academy systems and networks reflect academy policy and there are no conflicts between educational messages and practice.
- Ensure the above stakeholders understand the consequences of existing services and of any changes to these systems (especially in terms of access to personal and sensitive records / data and to systems such as YouTube mode, web filtering settings, sharing permissions for files on cloud platforms etc
- Ensure filtering and monitoring systems work on new devices and services before releasing them to pupils and staff.
- Maintain up-to-date documentation of the academy's online security and technical procedures.
- To report online safety related issues that come to their attention in line with academy policy.
- Manage the academy's systems, networks and devices, according to a strict password policy, with systems in place for detection of misuse and malicious attack, with adequate protection, encryption and backup for data, including disaster recovery plans, and auditable access controls.

Online-Safety Policy

- Ensure the data protection policy and cyber security policy are up to date, easy to follow and practicable. The academy take advantage of the following LGFL packages: Sophos Phish Threat, Sophos Intercept X Advanced, Sophos Intercept X Advanced for Server, ThreatDown Incident Response, Egress, GridStore and Meraki Mobile Device Management. These solutions which are part of your package will help protect the network and users on it.
- Monitor the use of academy technology, online platforms and social media presence and that any misuse/attempted misuse is identified and reported in line with academy policy.

Data Protection Officer (DPO) – Lee Miller

Key responsibilities:

- Alongside those of other staff, provide data protection expertise and training and support the DP and cyber security policy and compliance with those and legislation and ensure that the policies conform with each other and with this policy.
- Not prevent, or limit, the sharing of information for the purposes of keeping children safe. As outlined in *Data protection in schools*, “It’s not usually necessary to ask for consent to share personal information for the purposes of safeguarding a child.” And in KCSIE, “The Data Protection Act 2018 and UK GDPR do not prevent the sharing of information for the purposes of keeping children safe. Fears about sharing information must not be allowed to stand in the way of the need to safeguard and promote the welfare and protect the safety of children.”
- Note that retention schedules for safeguarding records may be required to be set as ‘Very long-term need (until pupil is aged 25 or older)’. However, some local authorities require record retention until 25 for all pupil records. You should check the requirements in your area.
- Ensure that all access to safeguarding data is limited as appropriate, and also monitored and audited.

Volunteers and contractors (including tutor)

Key responsibilities:

- Read, understand, sign and adhere to an Acceptable Use Policy (AUP)
- Report any concerns, no matter how small, to the designated safety lead.
- Maintain an awareness of current online safety issues and guidance.
- Model safe, responsible and professional behaviours in their own use of technology at academy and as part of remote teaching or any online communications.
- Note that as per AUP agreement a contractor will never attempt to arrange any meeting, **including tutoring session**, without the full prior knowledge and approval of the academy, and will never do so directly with a pupil. The same applies to any private/direct communication with a pupil.

Pupils

Key responsibilities:

- Read, understand, sign and adhere to the pupil/pupil acceptable use policy and review this annually.
- Understand the importance of reporting abuse, misuse or access to inappropriate materials
- Know what action to take if they or someone they know feels worried or vulnerable when using online technology.
- To understand the importance of adopting safe and responsible behaviours and good online safety practice when using digital technologies outside of academy and realise that the academy’s acceptable use policies cover actions out of academy, including on social media.

Online-Safety Policy

- Understand the benefits/opportunities and risks/dangers of the online world and know who to talk to at academy or outside academy if there are problems.

External groups (e.g. those hiring the premises) including parent/carers associations

Key responsibilities:

- Any external individual/organisation will sign an acceptable use policy prior to using technology or the internet within academy.
- Support the academy in promoting online safety and data protection.
- Model safe, responsible, respectful and positive behaviours in their own use of technology, including on social media: not sharing other's images or details without permission and refraining from posting negative, threatening or violent comments about others, including the academy staff, volunteers, governors, contractors, pupils or other parent/carers/carers.
