TOGETHER EVERYONE ACHIEVES MORE

## Lisa's Inspirational Quote

"Sometimes the right path is not the easiest one."

– Pocahontas

Genre: Action

FILM  
CLUB

This week we finished  
Fast and Furious:  
Hobbs & Shaw.

It has a lot of action,  
which captivated  
the

pupils. While watching the  
film they completed  
reviews, but because they  
were

enjoying the film so

much, the reviews were  
a bit sparse!

Next week's genre  
will be 'Comedy'.

## TOP MATHLETES

Mathletics

1st—Nicholas—12,000  
2nd—Harry—1,872  
3rd—Riley C—1,380

**Primary Athlete: Harry**

I am not sure if you ever pay much attention to the Mathletics scores above my section? But if you do you will have noticed that Nicholas, over the years has always been at the top of this list. This young man is also an early entry Maths GCSE potential, and is only in year 9. This just makes me so proud and just shows if you work hard what you can achieve despite the challenges that you may have.

Great Work Nicolas, Harry (primary) and Riley C.

Thank you  
Miss Harris

TOGETHER EVERYONE ACHIEVES MORE

## UNO Enrichment:

UNO is a fun game but also teaches a range of non-verbal reasoning skills (as well as Maths when you have to pick up multiples of cards!)

## Year 7 Art Lesson:

Before the Half Term, the Year 7s made Valentine's cards during their Art Lesson, for the people they care about....

From the Rockafeller Centre, NYC in 1932....

.... to Wandle Valley Academy in 2025!

TOGETHER EVERYONE ACHIEVES MORE

Wonderful team work and social communication in Primary Maths last week.

These boys worked on a multi level maths activity using their academic skills and respectful team work to challenge themselves.

Awesome effort this week in Yellow for Maths—

Well Done Superstars!

## Primary Seed Planting:

Green Class planted some seeds this week, as part of our Topic work.

They were all really engrossed in what they were doing and enjoyed it.

We are aiming to grow some vegetables .... so, fingers crossed!
