TOGETHER EVERYONE ACHIEVES MORE

Lisa's Inspirational Quote

"Once you choose hope, anything is possible."

- Christopher Reeve

Primary Gardening with a difference!

Primaries have recently been learning about how plants grow and what they need to thrive. To bring their learning to life, each pupil designed

and built their own house complete with a front garden, where they planted and nurtured

real grass.

The project combined creativity with hands-on science, helping pupils understand the importance of caring for living things while watching their gardens flourish.

1st—Nicholas

2nd—Shavonne

3rd—Mason

Primary Athlete: Harrison

Well Done Everyone

So we survived the assessment week and the pupils did really well. Everyone of them should be proud of themselves and the resilience that that tried to demonstrate.

The year 11s have also demonstrated amazing behaviours and resilience during their GCSE Exams. These pupils used their additional time and stayed to ask questions to the staff to help them to prepare and study for the second exam papers. It has been a real pleasure this year to support them all in undertaking these exams. Well done to all of them.

TOGETHER EVERYONE ACHIEVES MORE

Year 7 Art:

The Year 7s creating plaster casts/fossils of their hands. It was a project that required good time management and a bit of technicality. They had to set up a bed of clay and frame it with a clay wall, then press their hand into it to create a negative impression. Finally we mixed the plaster in equal proportions with water, stirred the mixture and pour it into the moulds. the day after it was hard enough to separate the clay from the plaster and re-veal the final product.

Yr11 Football Achievement

We are proud to share that one of our Yr11 pupils recently won Players' Player of the Season recently, with his football team outside of school. The Team also won promotion into U18 Premiership Division.

Many congratulations to Oliver and his Team—an amazing achievement.

STEM:

This Yr8 pupil is concentrating on servicing a remote control car, incorporating skills such as STEM learning, problem-solving and technical/engineering knowledge.

Year 8 End-of-Year Assessments:

Through personalised support and appropriate accommodations, we help every pupil access their learning and demonstrate their knowledge with confidence.
