

Warmley Park School and College

Aspire, Believe, Enhance, Achieve

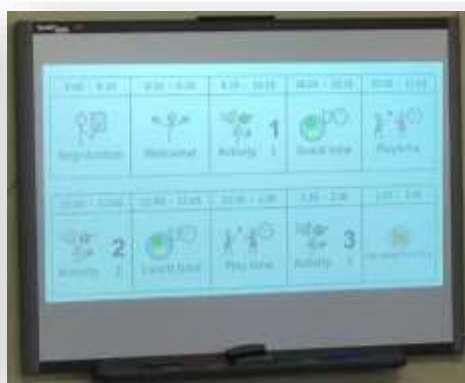

Newsletter No: 25 – 04th September 2020

The new school year has started! I hope that you all had a good summer. We have been so pleased to see the pupils back in school and judging by their smiles, they are happy to be back too!

On Tuesday and Wednesday this week we had staff training where we went through the risk assessment and guidance for reopening the school and prepared the classrooms for pupils to return. Our bubble arrangement is working well. Just a reminder to parents dropping off and collecting their child- if your child is in Sage, Basil, or Chamomile class, please could you go to the College gateway, as they have their own entrance into the main school. Thank you for your patience and co-operation.

Today we have had the handover of our new Early Years building- it looks amazing!

...a fun place to play and learn!

Over the next few weeks your child's class teacher will be contacting you to set up a Microsoft Teams meeting with you. You will also be receiving a data collection sheet, please take a minute to check that the information on it is correct and up to date, it then needs to be returned to the school office, thank you.

Have a lovely weekend.

Olivia
