Our Mission Statement

‘Believe, Belong, Be the Best that
you can Be’

*"Whatever you do in word or deed,
do everything in the name of the
Lord." Colossians 3:17*

Introduction

Intimate care is any care which involves washing, touching or carrying out an invasive procedure (such as cleaning up a pupil after they have soiled themselves) to intimate personal areas. In most cases such care will involve cleaning for hygiene purposes, as part of a staff member's duty of care.

In the case of a specific procedure only a person suitably trained and assessed as competent should undertake the procedure.

The issue of intimate care is a sensitive one and requires staff to be respectful of the child's needs. The child's dignity should always be preserved with a high level of privacy, choice and control. There will always be a high awareness of child protection issues. Staff behaviour must be open to scrutiny and staff must work in partnership with parents/carers to provide continuity of care to children/young people wherever possible. The following policy is a model based on best practice.

Aims and Objectives

Warton St. Paul's Primary Academy is committed to ensuring that all staff responsible for the intimate care of children will undertake their duties in a professional manner at all times. We recognise that there is a need to treat all children with respect when intimate care is given. No child should be attended to in a way that causes distress or pain.

Our Approach to Best Practice

The management of all children with intimate care needs will be carefully planned. The child who requires intimate care is treated with respect at all times; the child's welfare and dignity is of paramount importance.

Any child with intimate care needs will be supported to achieve the highest level of autonomy that is possible given their age and abilities. Staff will encourage each child to do as much for him/herself as s/he can. This may mean, for example, giving the child responsibility for washing themselves.

Individual intimate care plans will be drawn up for particular children as appropriate to suit the circumstances of the child.

Each child's right to privacy will be respected, although, for safeguarding reasons, there will usually be two adults involved in administering intimate care. Wherever possible the same child will not be cared for by the same adult on a regular basis; ideally there will be a rota of carers known to the child who will take turns in providing care.

Intimate care arrangements will be discussed with parents on a regular basis and recorded on the child's care plan. The needs and wishes of children and parents will be taken into account wherever possible within the constraints of staffing.

The Protection of Children

Education Child Protection Procedures and Inter-Agency Child Protection procedures will be adhered to. All children will be taught personal safety skills carefully matched to their level of development and understanding. If a staff member has any concerns about a child's physical changes (bruises, marks etc.) they will immediately report concerns as per school safeguarding procedures.

If a child becomes distressed or unhappy regarding being cared for by a particular member of staff, the matter will be looked into, parents will be consulted and outcomes recorded. Staffing schedules will need to be altered until the issue is resolved as the child's needs remain paramount. If a child makes allegations against a member of staff, necessary procedures will be followed.

Children Wearing Nappies

Any child wearing nappies will have an intimate care plan which must be signed by the parent/carer (See Appendix One). This plan will outline who is responsible in school for changing the child, and where and when this will be carried out. This agreement allows school and parents to be aware of all issues surrounding the task from the outset.

Health & Safety Guidance

Staff should always wear an apron and gloves when dealing with a child who is soiled or when changing a nappy. Any soiled waste should be placed in a polythene waste disposal bag and sealed. The bag should then be placed in a bin, (with a liner) specifically designed for such waste. This bin should be collected on a weekly basis as part of the usual refuse. It is not classed as clinical waste. Parents should supply nappies, wipes and disposable nappy sacks for their child.

Special Needs Children with special needs have the same rights to privacy and safety when receiving intimate care. Additional vulnerabilities (any physical disability of learning difficulty) must be considered when drawing up care plans for individual children. Regardless of age and ability, the views and emotional responses of children with special needs should be actively sought when drawing up or reviewing a care plan.

Physical Contact

All staff engaged in the care and education of children and young people need to exercise caution in the use of physical contact. Staff must be aware that even well-intentioned contact might be misconstrued by the child or an observer. Staff must always be prepared to justify actions and accept that all physical contact is open to scrutiny.

The expectation is that when staff make physical contact with pupils it will be:

- For the least amount of time necessary (limited touch)
- Appropriate, given their age, stage of development and background In response to the pupil's needs at the time
- Arrangements must be understood and agreed by all concerned, justified in terms of the child's needs and consistently applied and open to scrutiny.

Where possible, consultation with colleagues should take place where any deviation from arrangements is anticipated. Any deviation from the agreed plan must be documented and reported.

Extra caution may be needed where a child has previously suffered abuse or neglect. This may lead to staff being vulnerable to allegations of abuse. Many such children are needy and seek out inappropriate physical contact. In such circumstances staff should deter the child, seek witnesses and document and report the incident

This policy has been written in line with our Safeguarding Policy and Child Protection Policy. .

This policy will be reviewed according to the emerging needs of our school.

Appendix One

Warton St. Paul's Primary Academy Intimate Care Plan

Date	Review Date
Name of Child	Name of Class Teacher
School Staff Involved [including support staff, school nurse, specialist staff]	
Nature of Intimate Care provide including changing, toileting, feeding, medical intervention, first aid, physical education	
Special arrangements for changing	
Special arrangements for toileting	
Other Special arrangements [please included any other intimate care not shown above]	
Signed (Parent/Carer)	Signed (School)

Permission to provide Intimate Care

	Signed by Parent/Carer
I give permission for school to provide intimate care to my child as outlined above	

in the intimate care plan.	
I will advise the school of anything that may affect issues of personal care (if medication is changed or my child has an infection for example).	
I understand the procedures that will be carried out and will contact the school immediately if there are any concerns.	
I will contact the school if my child's needs change so that the intimate care plan can be changed accordingly.
