

Come Outside

Spring Two Opal Class Home Learning Activities

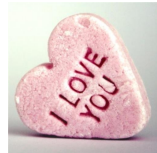

Have a go at some of the activities and bring them into school to share with your friends before 31st March.

RE

Our Gospel Value this half term is Love.

Can you make a card for someone that you love?

You could draw a picture on the front and write them a message inside.

Writing

Look out of your window, or while you're on a walk outside and think of some 'I can see...' sentences. Try to write them and make them longer by creating a list of two things you can see using the joining word 'and'.

Don't forget a capital letter to begin your sentence and a full stop at the end.

Use your sound mats to help you to sound out and spell each word you want to write.

PSHE

What can you do to be helpful at home?

Try making your bed each morning, putting your washing in the basket, putting a cup in the sink when you are finished or asking your grown ups if they need help with some of the house jobs.

Understanding the World

Go for a walk and see how many different plants and trees you can spot along the way. Are there any new plants growing because it is almost Spring?

Expressive Art and Design

Paint or draw a picture of your favourite flower, plant or tree.

Think about the colours you might need to use. Could you mix colours to create the correct shade of colour you need?

Physical Development

Practise getting dressed at home.

Coats, buttons, zips, laces, gloves and backpacks!

How quick can you do all of your buttons on your shirt?

Can you tie laces on your shoes?
