

Tuesday 12th January 2021 Science – Mild Task

LO: To explore how the rotation of Earth creates day and night.

How are day and night created? Earth _____ the Sun and also rotates on its _____ . Earth _____ once every _____ hours or one _____. The places on Earth which are _____ the Sun are lit up and experience _____. The parts of Earth which are facing away from the Sun are in shadow and experience _____ .

24	facing	daytime	rotates
night-time	orbits	axis	day

An illustration of an astronaut in a white spacesuit floating in space. The astronaut's head is in a circular frame. The background is a dark blue space with stars.

Most of Greenland is UTC-3.
What time will it be there when it is 4pm in the UK?
