LO: To discover how theories about our solar system have changed.

Sort the fact cards between the heliocentric and geocentric models of the solar system. Add in any other facts you can think of.

 <p>Theorised by Ptolemy and Aristotle.</p>	 <p>The Sun is the only celestial body to remain stationary.</p>
 <p>Theorised by Copernicus.</p>	 <p>Earth is the only celestial body being orbited.</p>
 <p>Has Earth as the centre of the solar system.</p>	 <p>The order of the planets (from the centre of the solar system) is not similar to what we know today.</p>
 <p>Has the Sun as the centre of the solar system.</p>	 <p>The order of the planets (from the centre of the solar system) is fairly similar to what we know today.</p>
