

## True or False?

### L.O. To add by making 10s

Using the method we have practised today, solve the calculations and then sort them into true and false. Explain how you know each one is true or false using:

I know this because \_\_\_\_\_.

$$8 + 5 = 13$$

$$5 + 7 = 14$$

$$9 + 6 = 16$$

$$7 + 8 = 15$$

$$18 + 3 = 20$$
