

Cultural Capital in PE

Cultural capital is the accumulation of knowledge, behaviours, and skills that a student can draw upon and which demonstrates their cultural awareness, knowledge and competence; it is one of the key ingredients a student will draw upon to be successful in society, their career and the world.

To support our pupils at waterside we provide experiences that we hope will allow children to be in touch with their overall **well-being** by inspiring them to live physically active lifestyles, we hope to provide children with **possibilities** in the sporting world as future careers, we hope to get children more involved in their **communities** via physical exercise and we hope more children take up physical transportation with the **environment** in mind. Also, it is having assets that give students the desire to aspire and achieve social mobility whatever their starting point. We recognise that for children to aspire and be successful academically and in the wider areas of their lives, they need to be given rich and sustained opportunities to develop their cultural capital

We are committed to the broadest educational offering, and that can mean looking beyond the National Curriculum. We offer an enrichment programme that draws upon a wide range of adult skills and is offered through:

- Teaching a wide range of inclusive activities including outdoor adventure skills/Forest School within our PE curriculum
 - We share dance, song and drama productions which are greatly appreciated by all.
 - Broad and inclusive curricula Clubs
 - We take part in Interschool Competitions
 - PE Trips
 - PE assemblies to recognising our values within PE and achievements
