

Going for Grade 5

Thursday 3rd October 2024

Aims of evening:

- To give a brief overview of Y11 and the support/incentives we are offering students
- To share advice about how to support your son/daughter as they study for GCSEs
- To share a range of revision/retrieval techniques/grade tips
- To share advice about aspirations and post-16 choices

Year 11 Team

Team member	Role
Ms Wheeler	Head of Year – pastoral care, mental wellbeing
Mr West	Head of Key Stage 4 – attendance, general progress
Tutor team	Ms Clare, Mrs Pickup, Mr Kelly/Mrs Whiteside – daily standards and support
Mrs Day	Interim Deputy Headteacher for Quality of Education & current Y11 SLT link
Intervention leads	English – Ms Snowden and Maths – Mrs Fitzpatrick
Miss Butterworth	SENDCO

Additional Year 11 support team:

Mr Trainor – Interim Deputy Headteacher for Behaviour & Attitudes

Mrs Cadman – Interim Assistant Headteacher for Teaching & Learning

Attendance and Punctuality

- Arrival at the gates for 8.40am
- In tutor by 8.45am
- Punctual to all lessons around school throughout the day
- High levels of attendance
- Catching up on work missed when absent

Studies show that 10% absence can bring a student down by one grade at GCSE.

The "big picture" of the year...

- October 3rd - Y11 revision evening for parents and students
- November 4th - Practice Exams begin (lasting 2 weeks)
- December 10th - “Brown Envelop” Day and Report sent home
- December 12th - Parents’ Evening – just before the Christmas holiday
- December 18th – Rewards trip to Trafford centre
- January 23rd - FPN practical examinations
- February 10th - Assessments week (1 week only)
- February 24th - Core Practice Exams begin (1 week only)
- March 25th - Final Y11 Report sent home
- March 27th - Parents’ Evening – just before the Easter holiday
- May 8th - GCSE examinations start (31 weeks to go)
- June 17th - GCSE examinations end

10th July - Prom

21st August – GCSE results day

Practice Exams timetable

Practice Examination Timetable November 2024

Day	Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
Monday 4 th	English language 1hr 45 mins (2hr 11)		Geography Paper 1 1hr (1hr 15)		Timetabled lessons – bring in your revision materials
Tuesday 5 th	Maths Paper 1 - calculator 1hr 30 mins (1hr 53)		Religious Studies 1hr 30 mins (1hr 53) Computer Science P1 1hr 30 mins (1hr 53)		
Wednesday 6 th	Chemistry Combined 1hr 15 mins (1hr 34) Chemistry Triple 1hr 45 mins (2 hrs 11)		Spanish Listening 35 mins (FT) 45 mins (HT) Spanish Reading 45 mins (FT) 1hr (HT)		
Thursday 7 th	Maths Paper 2 – non-calculator 1hr 30 mins (1hr 53)		History Paper 2 55 mins (1hr 9)		
Friday 8 th	English Literature 2hr mins (2hr 30)		Music 1hr 15 mins (1hr 34)		
Day	Lesson 1	Lesson 2	Lesson 3	Lesson 4	Lesson 5
Monday 11 th	Biology Combined 1hr 15 mins (1hr 34) Biology Triple 1hr 45 mins (2 hrs 11)		History Paper 1 1h 20 mins (1hr 40)		Timetabled lessons – bring in your revision materials
Tuesday 12 th	Maths Paper 3 - calculator 1hr 30 mins (1hr 53)		Drama 1hr 30 mins (1hr 53)		
Wednesday 13 th	Physics Combined 1hr 15 mins (1hr 34) Physics Triple 1hr 45 mins (2 hrs 11)		Spanish Writing 1hr 15 mins (FT) 1hr 20 mins (HT) – max 1hr 28 – 10 Sports Studies 1hr 15 mins (1hr 34)		
Thursday 14 th	Geography Paper 2&3 1hr and 45 mins (2hr 11)		Computer Science P2 1hr 30 mins (1hr 53)		
Friday 15 th	Food PN 1hr 45 mins (2hr 11) Art all day		Art all day		
Monday 18 th	Spanish Speaking				

Students will sit at least 1 exam in each of their GCSE subjects in November. These exams help us to identify knowledge gaps for re-teaching. If students don't revise this invalidates the process.

Prom Passport

To get financial support with the prom itself, or to get a free leavers hoodies or simply to earn some goodies for the prom table, students need to achieve as many points as possible on their Prom Passport.

There will also be other treats to earn during the year
eg

Freddo Friday/Munchie Monday

Trafford centre Christmas trip

Prom Passport

Year 11 Prom Passport

Name: _____

Tutor group: _____

Passport item:	Credits achieved:	Signed by:
Attendance and engagement at Revision Evening	10	
Attendance and engagement at intervention clinic	2 per clinic (must be engagement not just attendance)	
Active engagement with mentor	1 per meeting	
Attendance and engagement with careers interview	5	
Attendance at careers fair	2	
Completed CV	5	
Attendance at college open day/evening	5	
Bronze homework badge	2 per badge	
Silver homework badge	4 per badge	
Gold homework badge	6 per badge	
Classwork merit	1	
Progress merit	1	

Once the Practice Exams are complete more categories will be added. For example: each student will have a PLC for the Paper 1 Science Modules. They will be able to earn credits by doing Seneca work to bridge any gaps from these modules.

Clinics and Intervention

Clinics – at lunchtime or after school - refer to extra-curricular timetable

Monday mornings – Maths interventions in B6 with Mrs Fitzpatrick

Friday mornings – English interventions in B2 with Ms Snowden

Friday lunchtime – Revision timetable preparation in B4 with Ms Scott

‘Reading together’ – Tuesdays, Wednesdays & Thursdays

Extra-curricular timetable **example**

Extra-Curricular Timetable						
Autumn Term 1 (September – October 2023)						
	Lunchtime			Afterschool*		
Monday	Y7-9 All Y7 Y9 & 11 All Y7 & 8	History Film Club Debate Society Inter-House Sports Outdoor Court Sports Library Open Band	A9 Library Sports Hall Tennis Courts Library B1	Y11 Y11 All All Y10 Y11 All	Maths Clinic (Higher) Maths Clinic (Found.) SLT and MLT Mentors

Mentors will communicate things to other teachers – for example if you are feeling particularly anxious or overwhelmed.

Mentors will help you keep on track with your revision and studies and even help you organise your planner and homework.

Mentors can also advise you about post-16 choices.

Personal Development lesson

You will have a dedicated lesson once a fortnight to develop a range of skills:

Personal Development Overview of the Year				
Year 11				
External Influences and Informed Decisions	Life Changes	Considering Others	Relationships	Bespoke PD
Encouraging year 11 students to recognise their freedom as young adults to make positive choices, this topic will build on previous learning and appreciate external factors that can influence their decisions and how to counteract this.	Looking beyond the fundamental learning across the PD curriculum so far to understand the life changes they will come to experience, how to deal with these and support others.	Personal development is about empowering young people to make good life choices for themselves but also to have the emotional resilience to support others. This topic should build on previous learning and help them to reflect on why it is legally and morally right to treat others with respect and support others with their health and	We end the personal development journey looking at relationships to empower the changes in their relationships as they leave school as young adults. Students will also explore online relationships, prejudices, sexual assault and victim blaming.	Throughout the year bespoke PD opportunities are available to have an impact on emergent issues. (See footnote also)

		wellbeing.		
Sessions: Labour Market, Personal Data, Social Influences, Body Image and Informed Health Choices.	Sessions: To begin with UK Parliament Week lesson, Money, Unintended Pregnancy, Pregnancy, Fertility and Menopause, Being a Parent.	Sessions: Relationship Values, Equality Act, Mental Health Support, CPR, Donation.	Sessions: Relationship Status, Online Relationships, Prejudice, Assault and Victim Blaming and Governance.	Sessions: TBC
Skills:  	Skills:  	Skills:  	Skills:  	Skills:  

Each scheme of learning will occupy 6 weeks of a half-term with added lessons in the half-term for Skills Builder sessions and assessments. Flexibility in the last half-term to support days out of school, timetable disruption and potential bespoke PD. For further information, please refer to individual schemes of learning.

Support from parents

Hints for an Ideal Revision Area

providing some of these will go a long way to helping your child...

Helping your son/daughter to create a 'workspace' at home that is quiet, organised and free from distractions, such as social media, will be of enormous benefit to them.

Recommended equipment for KS4:

- Revision guides that match the exam board
- Pens, pencils, ruler, rubber and coloured pens
- **The Y11 revision pack:**
 - Highlighters
 - Post-it-notes
 - Blank flash cards
 - A4 Paper
 - Revision booklet.....

Revision booklet

Revision booklet contains:

- the exam board details for each GCSE
- advice on the purchasing of revision guides
- the content of the November exams
- colleague information (key dates etc)
- advice websites
- a blank revision timetable
- a raffle ticket!

Contents
Year 11 key dates and contacts
Qualifications and Exam Boards
College open days and contact information
Recommended revision guides – orders can now be placed
Content to be examined in the November Practice Exams
Subject specific revision advice
General revision advice
Useful websites
Blank revision timetables

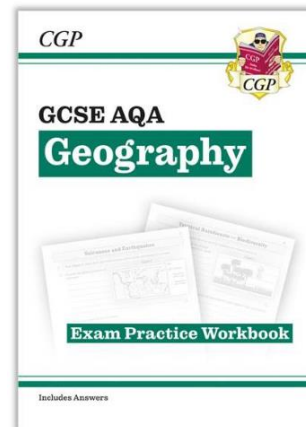

Support from parents

Revision guides –
orders can be placed
through Gateway

Workbooks – these
come with lots of
questions and an
answer booklet

Flash cards – these can
also be ordered via
Gateway

Support from parents

Students have got to start revision somewhere and everybody likes to be praised, so praise their efforts in getting on with their revision even if they only do 20 minutes at first. With encouragement they will do more. Discuss their work in school and praise their achievements (there is a button on ClassCharts for you to use). Help them to organise their time effectively with a [revision schedule](#).....

Week beginning:

Revision Timetable

Time	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
9:00-10:00	At school						
10:00-11:00							
11:00-12:00							
12:00-1:00							
1:00-2:00							
2:00-3:00							
3:00-4:00	Time to get home, get changed and have a snack						
4:00-5:00							
5:00-6:00							
6:00-7:00							
7:00-8:00							
8:00-9:00							
9:00-10:00							

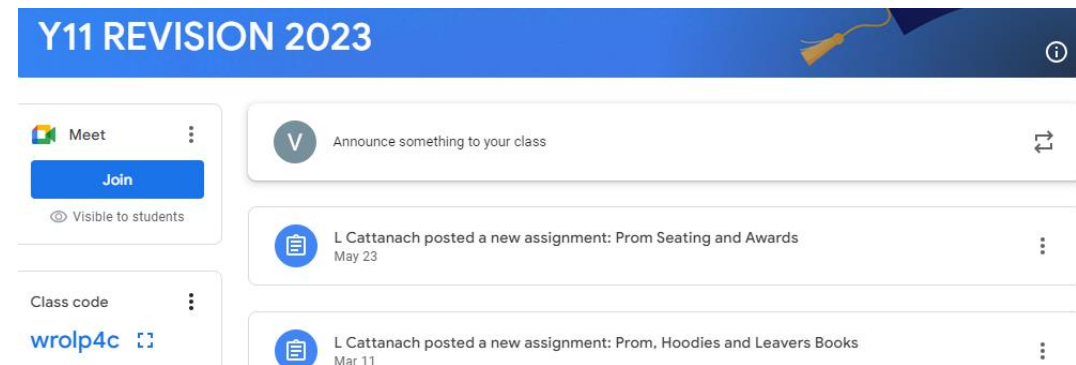

Revision support

There is a dedicated school portal with lots of revision resources including past papers and mark schemes.

You can access through the Y11 Revision 2024 Google Classroom.

More useful website links, revision materials etc. will be added as the year progresses

Revision portal – link on ClassCharts

<https://sites.google.com/wellfieldacademy.org/revision-portal/home>

Year 11 tips for achieving your best

- Have a vision for the future (what do you want to be?)
- Put effort you put into your classwork (you have to be there so make the time count!)
- Put yourself under pressure (your brain will thank you for it)
- Stay positive – from time to time you will find things difficult (get support from others)
- Have systems that make it easy for you to effectively revise (plan a revision timetable) and most importantly...

Year 11 tips for achieving your best

... put your phone away whilst you study!

Academic distraction facts:

- The average teen receives 237 smartphone notifications a day – one every few minutes – making focusing on schoolwork hard.
- Studies show that excessive smartphone use has negative impacts on academic performance.
- Children with effective smartphone bans get GCSE's 1-2 grades higher than those without bans.

Food for thought!

... and finally

- Grades are awarded based on the entire cohort of students sitting that exam (for English Language in 2024 this was 845,834 students in the UK)
- Grade boundaries are not fixed – students are ranked and then divided into groups to be awarded a grade
- You are therefore competing for your grades
- To be competitive you must work hard

English Language Revision

AQA 

Effective English Language Revision has three phases:

1. Revising content covered during the lesson- focusing on what you are less confident with.
2. Reading and annotating.
3. Practice!

Where should you start?

1. Revision: Using your classwork

Method	Definition	Example
Simile		
Metaphor		
Alliteration		
Onomatopoeia		
Superlative		
Imagery		
Connotation		
Symbolism		
Allusion		
Pathetic fallacy		
Repetition		
Rhetorical question		

- Revising key subject terminology;
- Write the definition and include an example;
- Check them and correct if needed.

1. Revision: Youtube

YouTube videos

As well as being a source of entertainment, YouTube can also be a great platform for education. For English Language, there are a number of recommendations we would point you towards:

Mr Bruff

Mr Bruff is an English teacher with a YouTube channel. He has put together a playlist of videos, please find the video tutorials for language paper 1 and 2.

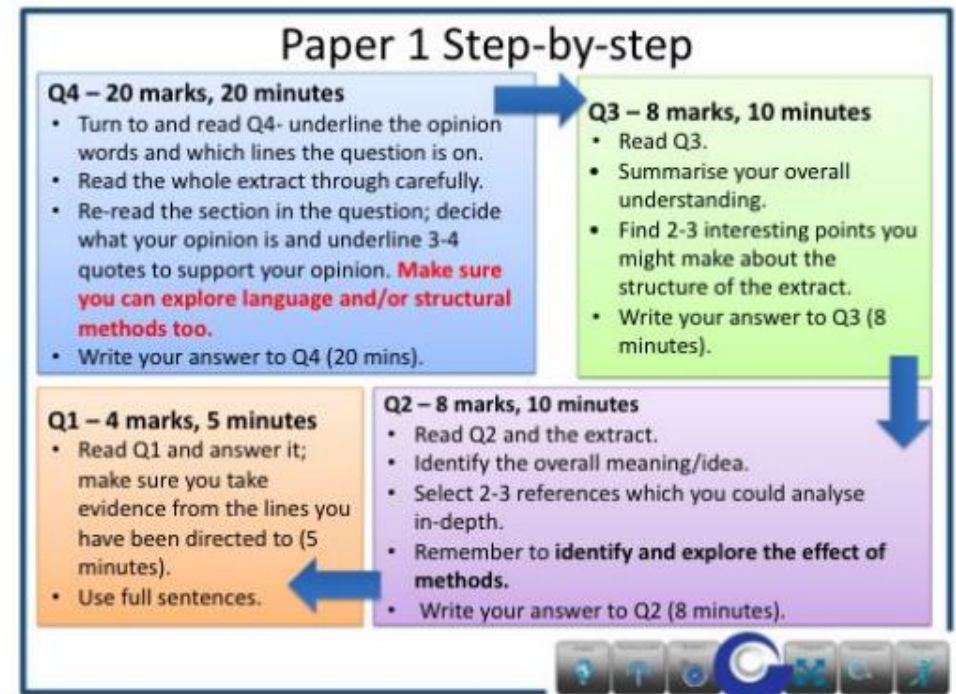

1. Revision: how to answer each question

Both English Language paper 1 and paper 2 are 1 hour 45 minute exams in total. On both papers, you should spend 1 hour on section A (reading) and 45 minutes on section B (writing).

Here is a reminder of how to spend your time and structures you can use to help you respond to each question:

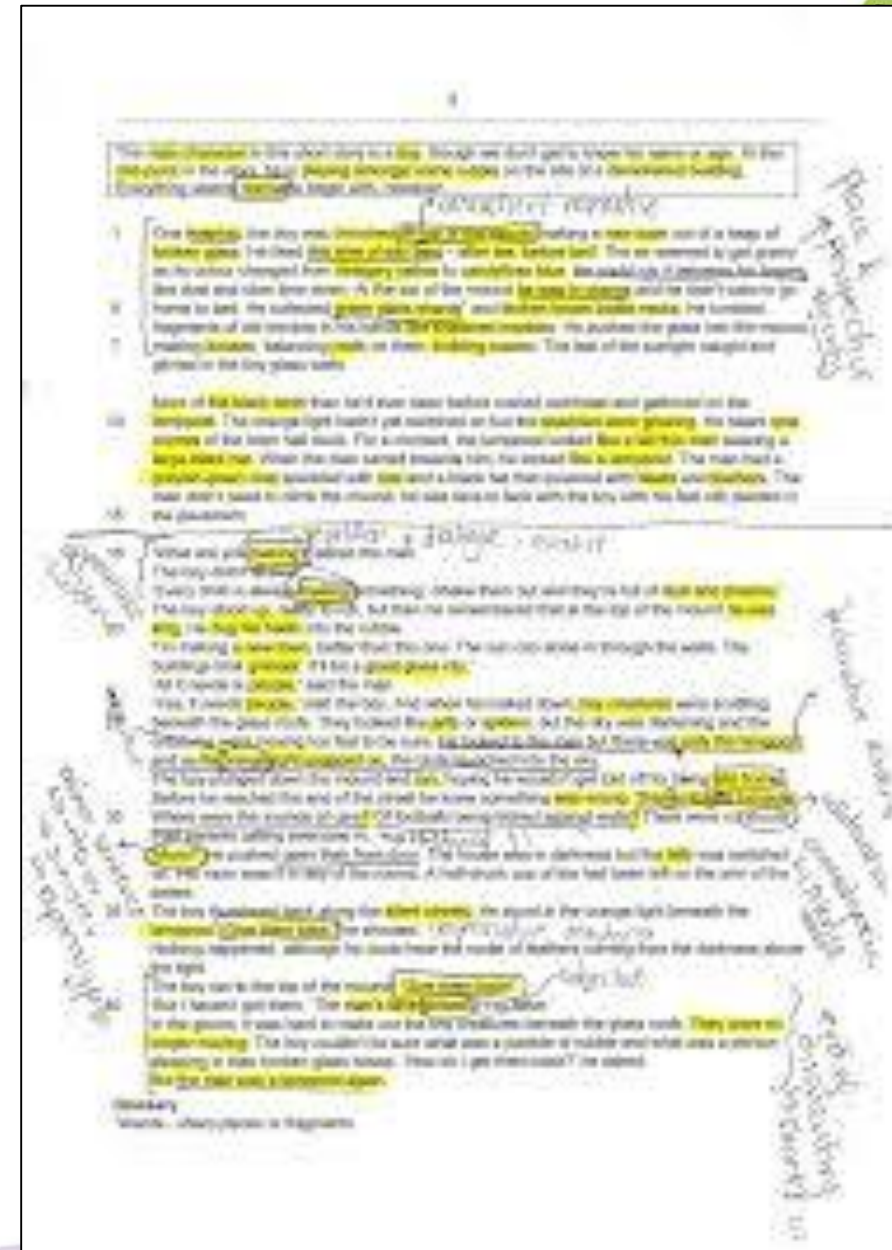

Paper 1 - section A (reading) 1 hour

2. Reading and annotating.

Paper 1:

1. Reading homework set every Friday;
2. Read the extract;
3. Annotate for Language and Structure devices;
4. Divide the paper into 4 and summarise each section.

2. Reading and annotating.

News provider of the year

News Opinion Sport Culture Lifestyle

The Guardian UK

The Guardian view Columnists Cartoons Opinion videos Letters

Opinion

Comment is free... but facts are sacred
CP Scott, 1921 Guardian editor

As the waters rise, a two-year sentence for throwing soup. That's the farcical reality of British justice
George Monbiot

Why do the mass killers of the fossil fuel industry walk free while the heroes trying to stop them are imprisoned?

4h ago

Call this a party conference? It's more like a weird Tory festival of mass delusion
Polly Toynbee

459

Paper 2:

The title of English Language paper 2 is 'Writers' viewpoints and perspectives'. In section A, the reading section, you will need to identify the writer's point of view. In section B, the writing section, you will be asked to write a piece of non-fiction in which you share your own point of view.

To prepare for this section of the exam, you could read opinion articles online. This will allow you to practise identifying a writer's point of view. At the same time, it will also inform your own opinions. I would recommend looking at the 'opinion' articles on the Guardian website:

<https://www.theguardian.com/uk/commentisfree>

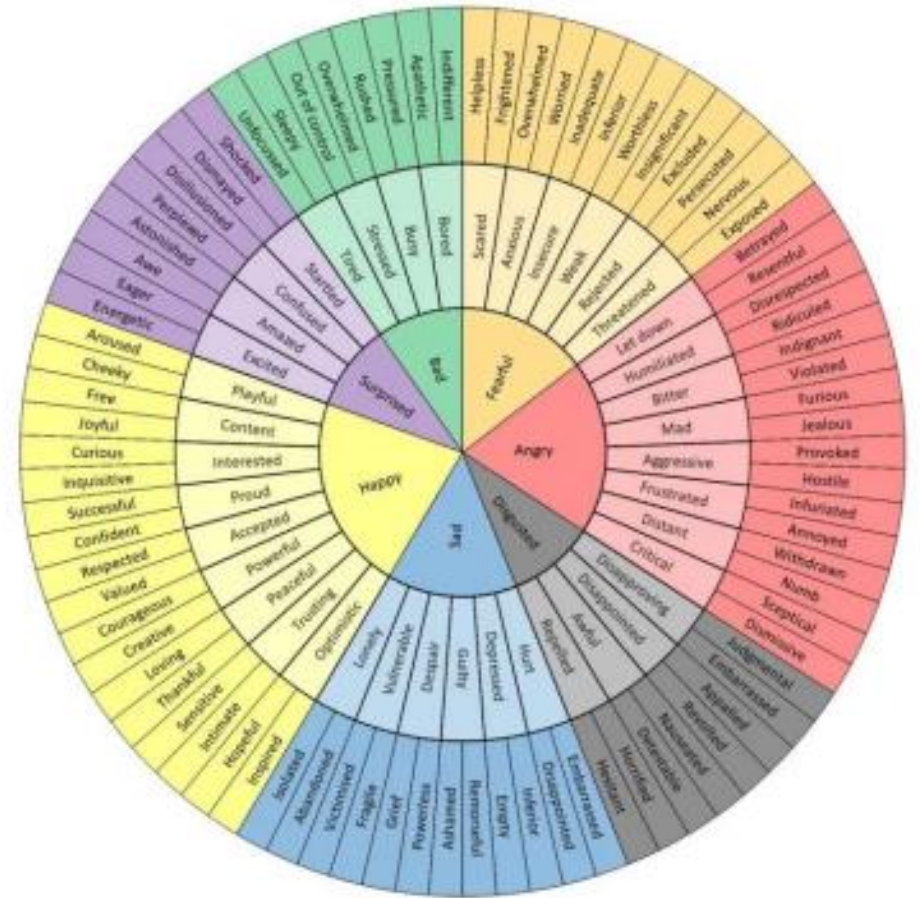

2. Reading and annotating.

Paper 2

The emotion wheel here will help you to identify a writer's viewpoint for language paper 2 question 4 more accurately.

- Start with the centre of the wheel and identify a basic emotion.
- Then look at the second ring to determine a more specific emotion.
- When you move to the third outer ring, you should be able to choose a piece of ambitious vocabulary to specifically identify the writer's viewpoint.

3. Practice

Complete past papers under timed conditions.

Week commencing 8th October: English Masterclasses

Mr McCarrick: Questions 2 and 3

Ms Snowden: Question 4

Miss Scott: Writing section

English Literature Revision

Effective English Literature Revision has three phases:

1. Knowledge and Understanding
2. Key Quote Analysis
3. Context

Where should you start?

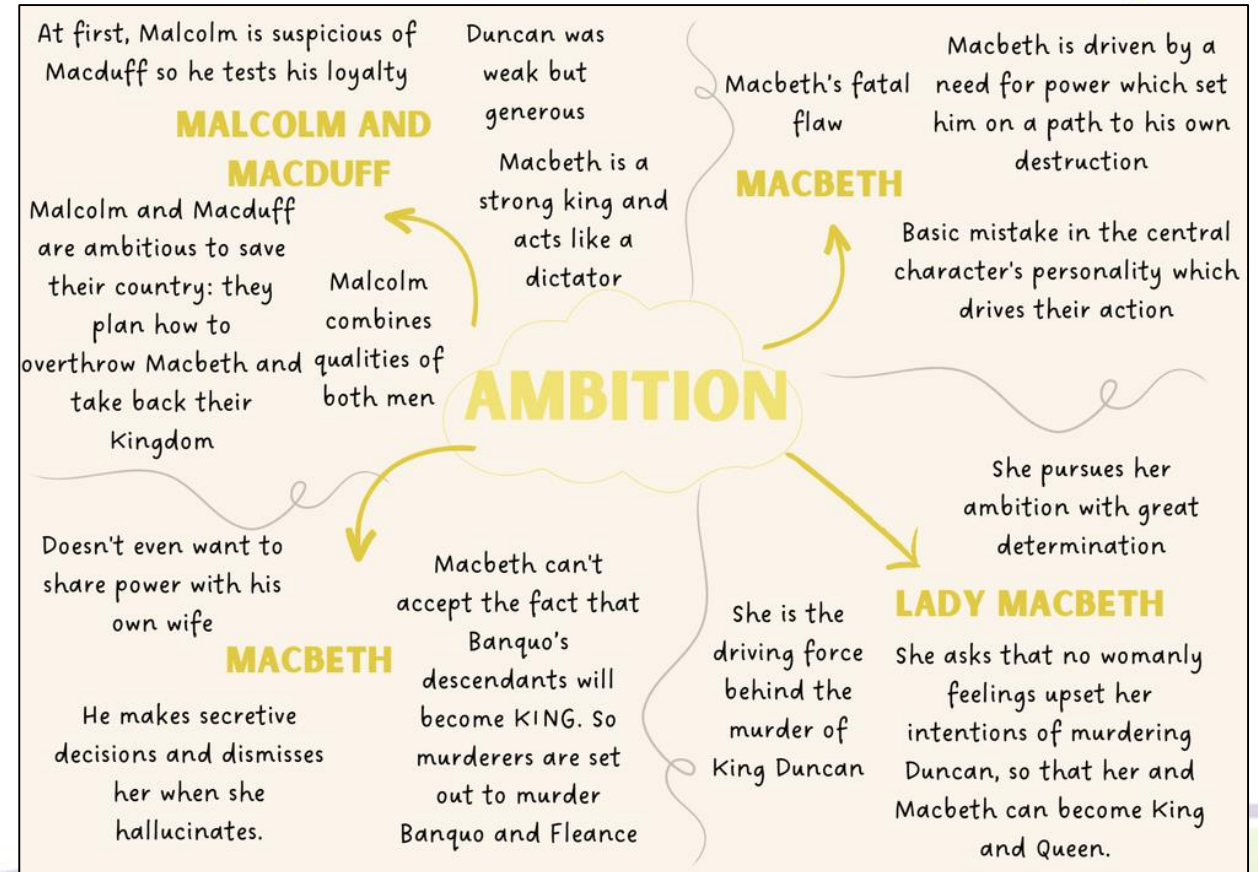

1. Knowledge and Understanding: Using your classwork

Creating revision resources

for:

- Plot
- Key Characters
- Themes
- Key quotes (weekly homework)

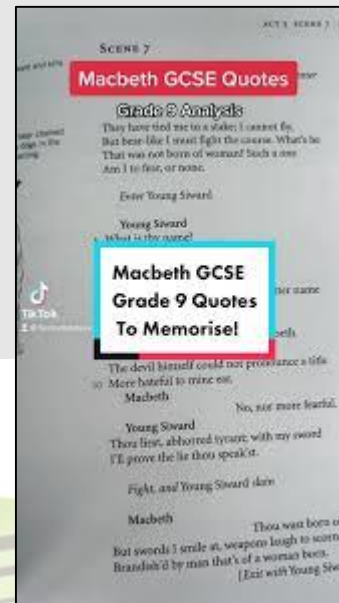

1. Knowledge and Understanding: Youtube

Mr Bruff

Mr Bruff is an English teacher with a YouTube channel. He has put together a playlist of videos, please find the video tutorials for language paper 1 and 2.

TikTok

2. Key Quote Analysis

Great! You know your quotes!

But which ones would you include and analyse if you were given the theme of:

Supernatural?

Violence?

Guilt?

Tyranny?

You need to practice retrieving quotes for different themes and characters

And then ANALYSE them...

2. Key Quote Analysis

ENGLISH LITERATURE QUOTATION RETRIEVAL

<p>MACBETH</p> <p>'Fair is _____ and foul is _____'</p>	<p>MACBETH</p> <p>'So ___ and ___ a day I have not _____!'</p>
<p>'The ___ himself is ___ that croaks the _____ of Duncan under my _____'</p> <p>MACBETH</p>	<p>TASKS:</p> <ol style="list-style-type: none">1. Fill in the missing words of the quotation.2. If the quotation is spoken, who says it?3. What is the context of the quotation? What is happening at that moment in the play/novella?4. Highlight a maximum of three key words you would choose to analyse in each quotation and be prepared to discuss your choices.

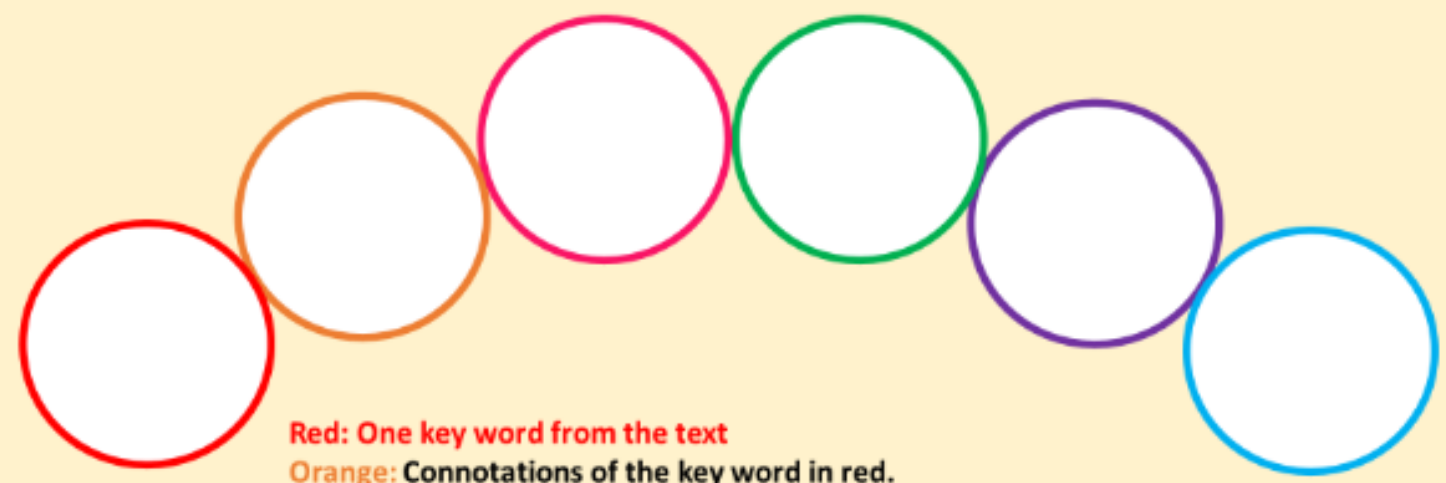

Try to highlight any interesting language or devices used in the extract and annotate the text thinking carefully about the effect of language on the reader.

2. Key Quote Analysis

Rainbow analysis- What is rainbow analysis?

We use this technique to analyse texts by taking one word and working through various connotations. This helps us gather a deeper understanding of the words the author chose

Red: One key word from the text
Orange: Connotations of the key word in red.
Pink: Connotations of the second word (linked to key word) and so on.

3. Context.

What do we mean by context?

the circumstances that form the setting for an event, statement, or idea

Context is worth 1/3 of your marks on the following questions:

Paper 1: Poetry Anthology

Paper 2: A Christmas Carol

Flashcards are key for learning context (especially for 18 poems!)

Write it, cover it, read it, check it!

Include it in your thesis statement where possible

Weave it into your responses where it is appropriate.

No context and you have lost 1/3 of your marks- no matter how good your quote analysis is!

Practice

Complete past papers under timed conditions.

Week commencing 14th October: English Masterclasses

Mr McCarrick: Poetry anthology

Ms Snowden: Macbeth Essay

Miss Scott: Macbeth extract

Maths Revision

What does effective maths revision look like?

DOING questions of appropriate challenge and checking the answers.

To improve at Maths, you need to do LOTS of practice. You may need to do a bit of reading or watching videos to get started, but you need to spend as much time as you can actually attempting questions.

Where should you start?

Effective Maths Revision has two phases:

1. Revisiting and learning work undertaken during the course – establish what you don't know!
2. Practice, practice, practice.

1. Revisiting and learning work undertaken during the course – establish what you don't know!

Topic	Maximum mark available	Mark scored	% of maximum mark
Number	13	4	31%
Algebra	29	8	28%
Ratio, proportion and rates of change	17	13	76%

17aii	2	Geometry and measures	AO2	0	0.0%	Use circle theorems to work out an angle	U251, U808
17bi	3	Geometry and measures	AO2	0	0.0%	Use circle theorems to work out angle size in terms of x	U459, U807
17bii	1	Geometry and measures	AO2	0	0.0%	Use circle theorems to prove opposite angles in a cyclic quadrilateral	U807

Use your most recent QLA (question level analysis) sheet to pinpoint areas that need most revision. Use the Sparx code to complete independent learning on these topics.

All students have been given another copy their QLA sheet (from the final year 10 assessments) two weeks ago. If you haven't got a copy speak to your class teacher.

Compulsory

XP Boost

Target

Independent Learning

Hey [blurred name]

This is your personalised Compulsory homework. You need to answer every question correctly to complete it.

0/3

▼ Homework due Monday 30th September 9am

Not started

▼ Homework due Monday 23rd September 9am

Late

Bookwork  21%

▼ Introducing Sparx Maths

Bookwork  44%

Complete ALL your Sparx homework to the best of your ability. Watch the videos, make notes and complete the book work checks.

Compulsory and XP Boost is a combination of what you have been doing recently in lesson and consolidation of previous topics.

The Target section is based on those topics you've found most difficult in previous homeworks this is your opportunity to have another go.

COMPLETE ALL OF IT!

2. Practice, practice, practice.

Nearer to the exams you will be completing a lot more exam papers in class.

You have already started “Mini Mock Mondays”. Use this as an opportunity to work on your exam technique.

- Underline key information to help you pick out the things you need.
- Write neatly. The easier you make it for the examiner to read your answers, the more marks you could obtain.
- Show all your working out. You might obtain method marks if your final answer is incorrect.
- Read the question again to make sure you’ve answered it correctly. If it says give a reason for your answer make sure you do.

What else can you do?

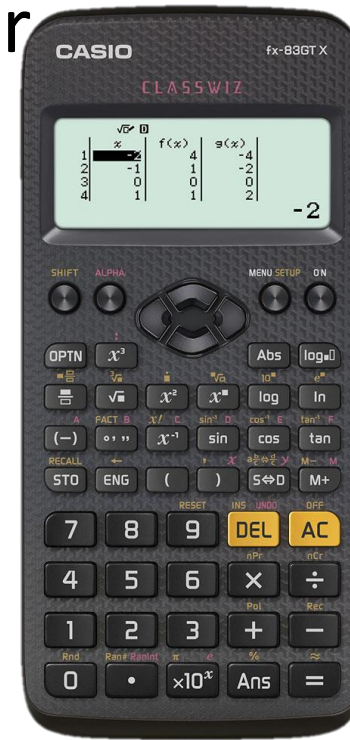

Invest in your own calculator

All students need a scientific Calculator for the exam.

They need to be familiar with their calculators before the exam so they know how different functions like sin, cos, tan, square root work on their calculators. To ensure they have one they know how use its best if they have their own.

Casio calculators like those shown are best.

Learn the Maths Command Words

Estimate

Don't work out exactly!
Round the numbers to one significant figure first.

Estimate 4.7×6.2
Answer: $5 \times 6 = 30$

Explain

You must state why.

Work out

A written or mental calculation is needed.

Work out 6^2
Answer: $6 \times 6 = 36$

Simplify

Collect like terms together

Simplify $e + 7e$
Answer: $8e$

Give your answer in its simplest form

Cancelling of a fraction or ratio is needed.

$12 : 15$
simplified is $4 : 5$

Calculate

You will need to do a sum either with or without your calculator.

Expand

Multiply out the brackets

Expand $4(3x - 2)$
Answer: $12x - 8$

You must show your working

If you don't show your working you won't get ALL the marks!

Describe fully

Usually with transformations:

- Translation by a vector (2 marks)
- Enlargement of a scale factor about a point (3 marks)
- Reflection in a mirror line (2 marks)
- Rotation through an angle about a point (3 marks)

Solve

Find the value of the variable in the question.

Solve: $3x = 12$
Answer: $x = 4$

Factorise

To find factors and put brackets in.

Factorise $6x + 10x^2$
Answer: $2x(3 + 5x)$

Sketch

An accurate drawing is not needed; freehand will do!

Construct, using ruler and compasses

Use your ruler and pair of compasses to make an accurate drawing.

Measure

Use a ruler or protractor to accurately measure lines or angles.

Diagram NOT accurately drawn
Don't measure angles or sides.

Memorise key formulae

For GCSE (9-1) Mathematics, all students should know...

Area of triangle = $\frac{1}{2} bh$

Area of parallelogram = bh

Circumference of circle = $\pi d = 2\pi r$

Area of circle = πr^2

Area of trapezium = $\frac{1}{2} (a + b)h$

Volume of cuboids =
length \times width \times height

Volume of cylinders or prisms =
length \times area of cross section

For right-angled triangles, label the hypotenuse c & the other sides a and b

Pythagoras' theorem $a^2 + b^2 = c^2$

For right-angled triangles, label the hypotenuse h , the side adjacent to the angle a & the side opposite the angle o

$\sin \theta = \frac{o}{h}$ $\cos \theta = \frac{a}{h}$ $\tan \theta = \frac{o}{a}$

speed = $\frac{\text{distance}}{\text{time}}$

density = $\frac{\text{mass}}{\text{volume}}$

Compound interest where P is principal amount

Amount = $P \left(1 + \frac{r}{100} \right)^n$ r is interest rate
 n is times interest applied

Probability $P(A \text{ or } B) = P(A) + P(B) - P(A \text{ and } B)$
where $P(A)$ is the probability of outcome A
 $P(B)$ is the probability of outcome B

Use flash cards to help; ask family and friends to test you.

Decorate your bedroom with formulae posters and say them out loud as frequently as possible.
