

# COVID 19 Catch Up Funding

## What is Catch-up Funding?

Children and young people across the country have experienced unprecedented disruption to their education as a result of coronavirus (COVID-19). Those from the most vulnerable and disadvantaged backgrounds will be among those hardest hit.

The government has announced £1 billion of funding to support children and young people to catch up. This includes a one-off universal £650 million catch-up premium for the 2020 to 2021 academic year to ensure that schools have the support they need to help all pupils make up for lost teaching time.

## Allocation

School allocations will be calculated on a per pupil basis, providing each mainstream school with a total of £80 for each pupil in years reception through to 11.

Wellfield High School will receive £26,080 for the 2020/21 academic year.

## Utilisation

Schools should use this funding for specific activities to support their pupils to catch up for lost teaching over the previous months, in line with the guidance on curriculum expectations for the next academic year. Schools have the flexibility to spend their funding in the best way for their cohort and circumstances.

To support schools to make the best use of the funding, the EEF has published a support guide: <https://educationendowmentfoundation.org.uk/covid-19-resources/covid-19-support-guide-for-schools/#nav-covid-19-supportguide-for-schools1>

Strategy	Rationale	Action	Total Cost	Assessment of Impact
Additional Staffing Teaching and Learning Lead	Quality first teaching makes the biggest difference to students learning	Senior Leader responsible for ensuring quality first teaching within the classroom	£16,950	Staff training for developing remote learning showed an increase in personalisation of lessons and student engagement
