

	Working Towards	Expected Standard	Greater Depth
	By the end of Year 8 a student should be able to:	By the end of Year 8 a student should be able to:	By the end of Year 8 a student should be able to:
<u>Climate Change</u>	<p>Label a diagram of the greenhouse and enhanced greenhouse effect</p> <p>State renewable and non-renewable sources of energy</p> <p>State what a carbon footprint is</p> <p>Categorise the social, economic and environmental impacts of climate change</p>	<p>Describe the greenhouse and enhanced greenhouse effect</p> <p>Explain the advantages and disadvantages of renewable and non-renewable sources of energy</p> <p>Compare carbon footprints globally</p> <p>Explain the social, economic and environmental impacts of climate change</p> <p>Describe the local, national and global responses to climate change.</p>	<p>Justify how the greenhouse effect is linked to climate change</p> <p>Evaluate renewable and non-renewable sources of energy</p> <p>Evaluate the social, economic and environmental impacts of climate change</p> <p>Assess the local, national and global responses to climate change.</p>
<u>India</u>	<p>Locate and map the physical and human features of India.</p> <p>Compare the Geography of India to the UK</p> <p>Describe the opportunities, challenges and solutions of life in Dharavi</p> <p>Partially describe and label</p>	<p>Locate and label the physical and human features of India.</p> <p>Compare and give reasons for differences in the geography of India to the UK</p> <p>Explain the opportunities, challenges and solutions of life in Dharavi</p> <p>Describe and label population pyramids</p>	<p>Locate and annotate the physical and human features of India.</p> <p>Compare and fully explain differences in the geography of India to the UK</p> <p>Assess the opportunities, challenges and solutions of life in Dharavi</p> <p>Explain and annotate population pyramids</p>

	<p>population pyramids</p> <p>Describe the monsoon season</p> <p>Define and describe the impacts of outsourcing on India and the UK.</p>	<p>Complete and label climate graphs to show the climate of India.</p> <p>Explain the advantages and disadvantages of the monsoon season</p>	<p>Evaluate the opportunities, challenges and solutions of life in Dharavi</p> <p>Evaluate the monsoon season for India</p> <p>Define and discuss with detail the impacts of outsourcing on India and the UK.</p>
<p><u>Our Dangerous World</u></p>	<p>Label the structure of the earth</p> <p>Describe continental and oceanic crust.</p> <p>Locate and describe the 4 plate boundaries</p> <p>Label a volcano and describe the different volcano states</p> <p>Describe the local and global impacts of the Iceland Volcano.</p> <p>Describe the shape of glaciers and mostly their location and landforms</p> <p>Give reasons for glaciation</p> <p>Describe the positive and negative impacts of tourism</p>	<p>Label and describe the structure of the earth</p> <p>Describe continental and oceanic crust.</p> <p>Locate and describe the 4 plate boundaries</p> <p>Label a volcano and describe the different volcano states.</p> <p>Explain the local and global impacts of the Iceland Volcano.</p> <p>Describe the shape of glaciers and their location and landforms</p> <p>Explain reasons for glaciation</p> <p>Explain the positive and negative impacts of tourism</p>	<p>Label and explain the structure of the earth</p> <p>Explain between continental and oceanic crust.</p> <p>Locate, describe and give reasons for the differences between the 4 plate boundaries.</p> <p>Annotate a volcano and explain the different volcano states</p> <p>Discuss the local and global impacts of the Iceland Volcano.</p> <p>Explain the shape of glaciers and their location and landforms</p> <p>Assess reasons for glaciation</p> <p>Evaluate the positive and negative impacts of tourism</p>
<p><u>Globalisation</u></p>	<p>Describe the economic links between the UK and the rest of the</p>	<p>Explain the links between the UK and the rest of the world</p>	<p>Assess the significance of links between the UK and the rest of the</p>

	<p>world</p> <p>Describe the social, economic and environmental impacts of globalisation</p> <p>Identify and describe the reasons for the location of industry</p> <p>Describe the location of global sport and palm oil manufacturing</p> <p>Describe their positive and negative impacts with some understanding of fairer solutions</p>	<p>Explain the social, economic and environmental impacts of globalisation</p> <p>Identify and discuss the reasons for the location of industry</p> <p>Describe with detail the location of global sport and palm oil manufacturing</p> <p>Assess their positive and negative impacts with some understanding of fairer solutions</p>	<p>world</p> <p>Assess the social, economic and environmental impacts of globalisation</p> <p>Identify and evaluate the reasons for the location of industry</p> <p>Explain with detail the location of global sport and palm oil manufacturing</p> <p>Evaluate their positive and negative impacts with understanding of fairer solutions</p>
<p><u>Rivers and Coasts</u></p>	<p>Describe why the River Nile is important to study</p> <p>Label changes in the physical geography of a river</p> <p>Describe the challenges of many countries relying on the River Nile</p> <p>Label the River Nile's Water Cycle</p> <p>Describe why the Horn of Africa is important to study</p> <p>State the location and causes of a wave</p> <p>Mostly draw and label graphs to show the development of the region</p>	<p>Explain why the River Nile is important to study</p> <p>Describe changes in the physical geography of a river</p> <p>Explain the challenges of many countries relying on the River Nile</p> <p>Label and describe the River Nile's Water Cycle</p> <p>Explain why the Horn of Africa is important to study</p> <p>Describe the location and cause of a wave</p> <p>Draw and label graphs to show the development of the region</p>	<p>Assess the significance of the River Nile</p> <p>Explain changes in the physical geography of a river</p> <p>Explain the geopolitical challenges of many countries relying on the River Nile</p> <p>Annotate and explain the River Nile's Water Cycle</p> <p>Assess the significance of the Horn of Africa</p> <p>Explain the location and cause of a wave</p>

			Draw and annotate graphs to show the development of the region
Rivers Fieldwork	<p>Describe the Bradshaw Model and it's links to Edale</p> <p>State the predictions for the river study at Edale and the methods to be used</p> <p>Complete and record Edale Fieldwork at most sites</p> <p>Describes results</p>	<p>Explain the Bradshaw Model and it's links to Edale</p> <p>Describe the predictions for the river study at Edale and the methods to be used</p> <p>Complete and record Edale Fieldwork</p> <p>Explains and begins to evaluate results</p>	<p>Assess the Bradshaw Model and it's links to Edale</p> <p>Explain the predictions for the river study at Edale and the methods to be used</p> <p>Complete, record and contribute to leading Edale Fieldwork</p> <p>Explains and evaluates results</p>
