

you need, for each player:

- two 1-9 dice
- scrap paper
- pencil and eraser

# Read my mind for 2 players

**Aim**

In this game your aim is to guess the question in the other player's mind.

**First of all**

Decide who is the Chooser and who is the Mind reader.

**Chooser**

Choose one of the questions below and write it down in secret.

**Mind reader**

Roll both dice and say the numbers. Arrange those numbers to make a two-digit number, and show it to your partner.

**Chooser**

In your head, ask your question about that number but only tell your partner the answer – 'Yes' or 'No'.

**Mind reader**

Write that number in the correct box – Yes or No.

Go on like this until the Mind reader can guess which is the question in the Chooser's mind.

Then rub out the numbers, swap roles, and play again.

is it odd?	is it even?	is it over 20?	is it under 50?
is it more than 60?	is it a multiple of 5?	is it a multiple of 10?	does it divide exactly by 4?

<b>Yes</b>	<b>No</b>
------------	-----------

**Sample game**

Amal chose 'is it even?' in secret.  
 Amy made several numbers with her dice.  
 Finally she guessed Amal's question.

<b>Yes</b>	<b>No</b>
36 35	48 17
