

you need:

- 6 counters each

Making Dominoes

 for 2 players**When it's your turn**

Put some counters on one end of the domino.

Tell your friend how many of their counters to put on the other end.

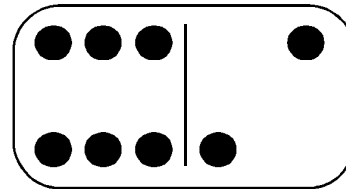

Count up all the counters and write the number in the box.

Take back your counters.

Write your numbers here

Sample game

8

Sian put 6 counters on her end.
She asked Rosy to put 2 on her end.
Sian counted them up and wrote '8'
in the box.

Then it was Rosy's turn.
