

# Animal Habitats

## Woodland

| Creature    | Tally | Number |
|-------------|-------|--------|
| wood ant    |       |        |
| hedgehog    |       |        |
| small fly   |       |        |
| slug        |       |        |
| caterpillar |       |        |
| squirrel    |       |        |

What is woodland? \_\_\_\_\_

## Heathland

| Creature    | Tally | Number |
|-------------|-------|--------|
| wood ant    |       | 7      |
| hedgehog    |       | 0      |
| small fly   |       | 20     |
| slug        |       | 7      |
| caterpillar |       | 9      |
| squirrel    |       | 0      |

What is heathland? \_\_\_\_\_

1. Which creatures are the most common in woodland?

\_\_\_\_\_

2. Which creatures are the least common in heathland?

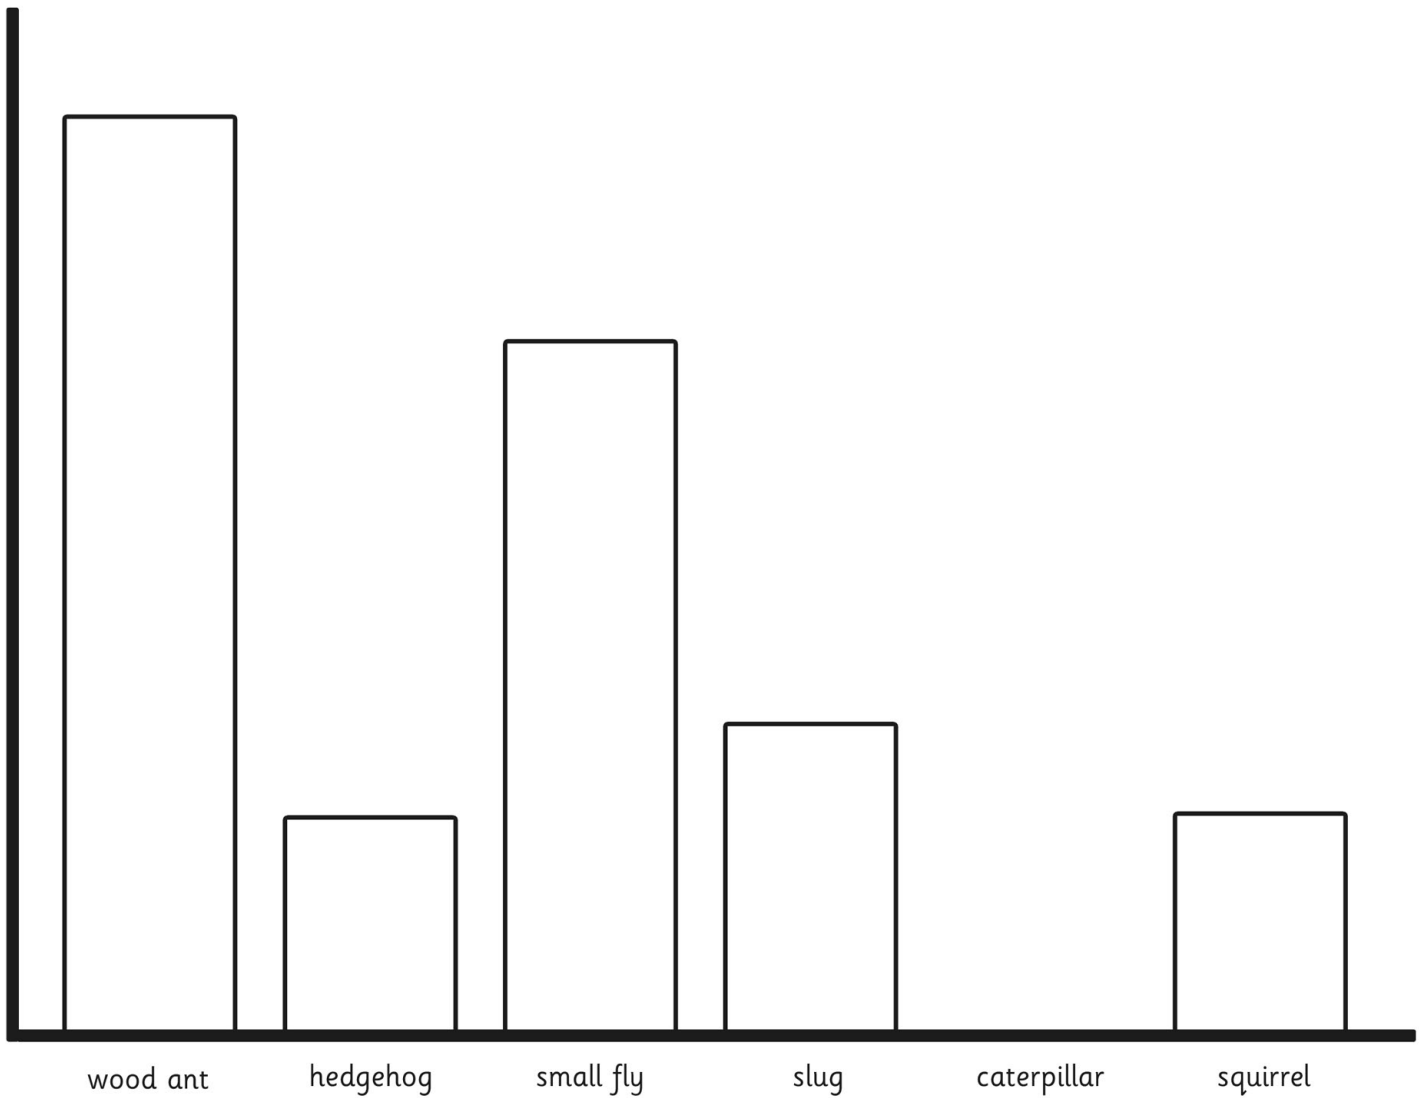

\_\_\_\_\_

3. Why do you think there are more hedgehogs living in woodland than in heathland?

\_\_\_\_\_

\_\_\_\_\_

# Animal Habitats

1. What is this graph called?

---

2. When comparing with the tally charts, which habitat do you think this is?

---

3. Draw in the information for the caterpillar.
