

What is Safeguarding?

Safeguarding is all the things that we do in our school to keep everyone safe.

So what is a Safeguarding Policy?

A Safeguarding Policy is made when we write down all the things that we agree to do to keep everyone safe.

How does the policy work?

Staff follow the rules in the policy and promise to work hard to :

Protect you from harm,

Help you to grow up in a healthy way,

make sure that you are safe in the real world and online

And to help you to have a brilliant life

Sometimes things aren't brilliant so it's really important to let your parents carers or trusted adult know if you are feeling sad or upset by something.

But what if I am too embarrassed to tell my parents or a teacher?

You can call Childline on : 0800 111 and they will listen to you and give really good advice.

It's really important that you never feel alone. Remember there are lots of lovely people here at WLCCHS who want to help make your life amazing 😊
