**Roxaboxen: McLerran, A. (1991). *Roxaboxen*. (B. Cooney, Illus.). New York, NY : HarperCollins.**

Roxaboxen celebrates the imagination of children who, no matter the time or place, can create whole worlds out of what they find around them--here, rocks and boxes, cacti and sand. Marian and her friends find a "special place" in the desert where in time-honored fashion, they play the games that will prepare them for their grown-up lives. They make houses, drive pretend cars, bake bread, ride stick ponies, fight their wars and bury their dead. Drawn from her mother's reminiscences, McLerran's gentle text is both particular and universal, as she fondly tells this evocative story--"Of course, if you broke the speed limit you had to go to jail. The jail had cactus on the floor to make it uncomfortable, and Jamie was the policeman." With its gently rolling terrain, blossoming ocotillos and cacti, and vast skies of ever-changing hues, Cooney's (*Hattie and the Wild Waves* ; *Island Boy* ) desert is a wondrous and beautiful place. The doll-like children in their knickers and sailor dresses emphasize the timelessness of this place where "seasons changed, and the years went by but Roxaboxen was always there." Ages 5-8.

**Pebble: Milord, S. (2007): *a story about belonging*. New York, NY: Harper Collins Publishers.**

One small, smooth pebble is searching for something but doesn't know what it is that it wants. Through storms and sunny days, the pebble is yearning for a purpose. If it was larger it could be used to build a foundation. If it was smaller, it could become a sandcastle. A boy goes to the beach with his family and is searching for the perfect souvenir of his day. He passes up beach glass, feathers, and shells until he discovers the perfect small, round, smooth pebble. It is warm in his hand and can be carried

in his pocket. The pebble realizes this is what it has been looking for also. The pebble represents us as we look for our purpose on our journey through life. This is a picture book with muted colours, and easy to read text on each page. This would be a good book to pair with a nonfiction title about rocks.
