

Dear Parents/Carers,

In the event that you find that your Son cannot attend lessons in school, I would like to make you aware of the Science resources we have made available for him to access at home.

Kerboodle

Your Son's Science teacher will assign Kerboodle lessons and homework assignments via a link that will be emailed directly to your Son's school email address. The email will contain all of the instructions regarding the tasks. He will need to log in using his password and username.

The kerboodle resources include digital versions of the text books that we use in class with summary questions for each unit. Interactive activities and worksheets are accessible from links on the lesson pages. The homework assignments can be completed on-screen and the results will be sent directly to the Teacher. If possible, print and save any worksheets in a folder and show the teacher upon return. **Please ignore any instructions to undertake practical work.**

School VLE

The West Hill School VLE can be accessed directly from the school website. In the Science course area, you can find resources appropriate for each year group: Year 7, 8,9,10 and 11.

These resources contain question papers and mark schemes, power point presentations, keyword glossaries and other useful revision resources.

We have also included a copy of the curriculum map and assessment schedule.

Doddle

Students have open access to all 'boardworks' topic presentations and worksheets for KS3 and KS4 content. They are able to search for the resources by first clicking on the 'Learn' tab, then selecting either KS3 (years 7 and 8) or KS4 (years 9 to 11).

Details of which resources to search for will be given by the Teacher in the student email.

Doddle can be accessed directly from the school website or via this link:

<https://www.doddlelearn.co.uk/app/login>

Any issues with forgotten login details can be resolved by emailing the class teacher.
