1. Aims

The aims of relationships and sex education (RSE) at our school are to:

- › Provide a framework in which sensitive discussions can take place
- › Prepare pupils for puberty, and give them an understanding of sexual development and the importance of health and hygiene
- › Help pupils develop feelings of self-respect, confidence and empathy
- › Create a positive culture around issues of sexuality and relationships
- › Teach pupils the correct vocabulary to describe themselves and their bodies

2. Statutory requirements'

This policy has been written to ensure the school is fully compliant with 'Relationships Education, Relationships and Sex Education (RSE) and Health Education' statutory requirements which were updated in September 2021. As a secondary academy school we must provide RSE to all pupils as per section 34 of the [Children and Social work act 2017](#).

In teaching RSE, we are required by our funding agreements to have regard to [guidance](#) issued by the secretary of state as outlined in section 403 of the [Education Act 1996](#).

At West Hill School we teach RSE following the principles set out in this policy.

You can also refer to your funding agreement and articles of association for further information.

3. Policy development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

1. Review – a member of staff or working group pulled together all relevant information including relevant national and local guidance
2. Staff consultation – all school staff were given the opportunity to look at the policy and make recommendations
3. Parent/stakeholder consultation – parents and any interested parties were invited to provide feedback on this policy via online comments facility and were invited to attend a meeting about the policy if they chose to do so.
4. Pupil consultation – we investigated what exactly pupils want from their RSE through pupil voice and a pupil focus group.
5. Ratification – once amendments were made, the policy was shared with governors and ratified

Minor updates were made in September 2020 and 2021. A full review and consultation will take place again 2022 following the 5 steps above,

4. Definition

RSE is about the emotional, social and cultural development of pupils, and involves learning about relationships, sexual health, sexuality, healthy lifestyles, diversity and personal identity. RSE involves a combination of sharing information, and exploring issues and values. RSE is not about the promotion of sexual activity.

5. Curriculum

Our curriculum is set out as per Appendix 1 but we may need to adapt it as and when necessary.

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of pupils. If pupils ask questions outside the scope of this policy, teachers will respond in an appropriate manner so they are fully informed and don't seek answers online.

For more information about our curriculum, see our curriculum map in Appendix 1.

6. Delivery of RSE

The Individual Development Programme is designed to give our pupils the skills that are required to stay safe and healthy whilst preparing them for life in the modern world. All boys receive 1 timetabled hour per week at KS3 and up to ten lessons in Years 10 and 11. Such curriculum time gives us the space to offer a broad curriculum that goes beyond statutory requirements and underscores the importance we place on ensuring that all pupils are prepared for the physical, emotional, social and financial challenges that they may encounter throughout their lives.

RSE will be taught to each year group in predominantly mixed ability groups by qualified teachers who understand the need to differentiate resources accordingly for those students with SEND. Where students are working 1-2-1 with learning support SRE teachers will liaise directly with learning support to ensure that these pupils receive the same provision as all other students.

RSE is taught within the personal, social, health and economic (PSHE) education curriculum known as IDP (Individual Development Programme). Biological aspects of RSE are taught within the science curriculum, and other aspects are included in religious education (RE).

Pupils also receive stand-alone sex education sessions delivered by a trained health professional.

RSE focuses on giving young people the information they need to help them develop healthy, nurturing relationships of all kinds including:

- › Families
- › Respectful relationships, including friendships
- › Online and media
- › Being safe
- › Intimate and sexual relationships, including sexual health

These areas of learning are taught within the context of family life taking care to ensure that there is no stigmatisation of children based on their home circumstances (families can include single parent families, LGBT parents, families headed by grandparents, adoptive parents, foster parents/carers amongst other structures) along with reflecting sensitively that some children may have a different structure of support around them (for example: looked after children or young carers).

- › The programmes also includes drugs education and there may be stand-alone sessions delivered by trained health professionals. If staff have any concerns the impact of legal or illegal substances on pupils or their families then the following document is to be referred to: [Drugs guidance 2012](#)

For more information about our RSE curriculum, see Appendices 1 and 2. Any changes to our planned sequence of lessons will be updated on our website in the curriculum section.

7. Roles and responsibilities

7.1 The governing board (trustees)

The trustees will approve the RSE policy, and hold the headteacher to account for its implementation.

7.2 The headteacher

The headteacher is responsible for ensuring that RSE is taught consistently across the school, and for managing requests to withdraw pupils from any non-statutory components of RSE (see section 8).

7.3 Staff

Staff are responsible for:

- › Delivering RSE in a sensitive way
- › Modelling positive attitudes to RSE
- › Responding to the needs of individual pupils. This includes ensuring lessons are accessible to all pupils including those with SEND.
- › Responding appropriately to pupils whose parents wish them to be withdrawn from the non-statutory components of RSE

Staff do not have the right to opt out of teaching RSE. Staff who have concerns about teaching RSE are encouraged to discuss this with the Head of IDP in the first instance.

There is a core of staff who teach the SRE element of IDP. However, it is not always possible to keep staffing consistent from year to year.

7.4 Pupils

Pupils are expected to engage fully in RSE and, when discussing issues related to RSE, treat others with respect and sensitivity.

8. Parents' right to withdraw

Parents have the right to withdraw their children from the non-statutory components of sex education within RSE up to and until 3 terms before the child turns 16. After this point, if the child wishes to receive sex education rather than being withdrawn, the school will arrange this.

Requests for withdrawal should be put in writing using the form found in Appendix 3 of this policy and addressed to the headteacher.

A copy of withdrawal requests will be placed in the pupil's educational record. The headteacher will discuss the request with parents and take appropriate action.

Parents will be given the opportunity to discuss the RSE themes, examine schemes of work and look at examples of current pupils' work and raise specific concerns they may have with the Head of IDP.

Alternative work will be given to pupils who are withdrawn from sex education.

9. Training

All staff involved take part in an annual induction section and are offered training annually on the delivery of RSE. The national college has a number of training sessions that can be accessed at any time. Teaching staff should discuss any training needs with the Head of IDP or the SLT member responsible for CPD.

The headteacher will also invite visitors from outside the school, such as school nurses or sexual health professionals, to provide support and training to staff teaching RSE.

10. Monitoring arrangements

The delivery of RSE is monitored by the Head of IDP and the line manager of IDP through:

Reviews of schemes of work, scrutiny of pupil books, lesson observations, pupil voice and learning walks.

Pupils' development in RSE is monitored by class teachers as part of our internal assessment systems.

This policy will be reviewed every three years by the Board of Trustees unless there are any national changes which require the policy to be updated sooner.

Appendix 1: Curriculum map

Relationships and sex education curriculum map from September 2020 – subject to change, for example when trialling new resources. Latest versions can be found on the school website on the IDP curriculum page.
