

Year 11

School Closure Work

Please aim to complete as many of the steps below as you can during the time school is closed, you should aim for at least an hour per day of science:

1. Log in to www.senecalearning.com
If you don't have an account type the web address above into google go to the site and follow the steps to set up an account, its simple and free.
2. Select the appropriate course on Seneca e.g. AQA Combined Science Biology Foundation, and complete the revision and quizzes. Choose your weakest areas first.
3. Now have a go at a past paper from the Science folder, if you do not have a printer write the answers down on a piece of blank paper, once you have completed it select the mark scheme and green pen it.
4. Continue step 3 until you have completed all the past papers for Biology, Chemistry and Physics.
5. Use the Equation flash cards in the Physics folder to learn the physics equations. Ask a family member to help you.
6. Complete the 6-mark question booklet, and then green pen your answers using the mark schemes provided in the back of the booklet.
7. In the Chemistry folder, learn the formulae of common ions, ask a family member to help you
8. If you are a Higher tier student, in the chemistry folder complete the Maths – The Chemistry Bits - task.

If you need help at any stage, please email Mrs. Priest:
