Apprenticeships within Oxfordshire

Apprenticeships webinar for parents and carers

Careers **Live**

11th February 2025
6:00pm-7:00pm

Like to know more about apprenticeships to help support your young person with deciding on their best next step?

During National Apprenticeship Week, Oxfordshire Careers Hub is teaming up with Careers Live to run an apprenticeships awareness broadcast for parents and carers. Students are encouraged to attend too!

- Find out everything you need to know about apprenticeships
- Get advice on finding and applying for apprenticeships
- Hear from apprentices and employers from Airbus, Blenheim Palace, Oxfordshire County Council and Williams Racing
- Ask all your questions via the chat

Mechanical Engineering

WHITELANDS ACADEMY

Careers Newsletter Issue 1

In a few words

Mechanical engineers design and manufacture a diverse range of products, from cars, trains and turbines in power stations through to space rockets, satellites, mobile phones and the components that power medical equipment.

10 most popular school subjects

Mathematics (82.66%)
Physics (79.05%)
Chemistry (33.27%)
Engineering (17.86%)
English (12.71%)
Design Technology (11.65%)
Biology (9.62%)
Economics (8.38%)
Computer Science (7.53%)

Careers

Studying mechanical engineering will help you gain specific technical training, knowledge of environmental and safety issues and the ability to plan, prioritise and solve problems under pressure and to deadlines. Engineers are in demand across multiple industries, but most stay in engineering, particularly in the oil industry, and in the car industry, in design and manufacturing.

Study

Courses involve combining physics, maths and computing to analyse engineering systems. You'll also develop the skills needed to design, make and test the products you have built. You'll take modules such as: materials and manufacture, dynamics and control, materials under stress, and systems modelling.
