

Computing - Y7 Term 5 - Spreadsheets

What are we learning this half-term?

This half-term our Unit Topic is **Spreadsheets**. This unit will introduce to learners the wonderful world of spreadsheets and the concept of cell referencing. Students will collect, analyse, and manipulate data, before turning it into graphs and charts. Learners will go from having very little knowledge of spreadsheets to being able to confidently model data with a spreadsheet. The unit uses engaging activities to progress learners from using basic formulas to writing their own COUNTIF statements. This unit will give learners a good set of skills that they can use in computing lessons and in other subject areas.

Resources you can use at home

BBC Bitesize - [KS3 ICT - BBC Bitesize](#)

Teach-ICT - <https://teach-ict.com/> (Students are provided with login details)

CGP book - Key Stage 3 Computing – Complete revision and practise

Optional home learning tasks

Students can search for the topics that we are currently covering and complete the quizzes
