

## Art – Year 9 Term 3

### What are we learning this half-term?

This half-term students will be exploring the theme of Landscapes using a variety of materials. Students will firstly complete their work based on Van Gogh, with a focus on mark making. Students will then explore abstract ways of representing landscapes using collage, monoprint and a variety of other techniques.

### Optional home learning tasks

- Students can choose a landscape of importance to them. Using two contrasting colours, students should create an abstract version of that landscape. Consider how tonal shading will affect the outcome.
- Students can create a research page on Andy Goldsworthy's land art. Students should then use materials found in their local area to create a piece of artwork. Students should consider how materials of different colours could be used to develop their work.
