ay/queer-
someone who
loves the
same gender
as themselves
esc

LGBTQ+-
Lesbian, gay,
bisexual,
Transgender
and q is queer
or questioning

If there is anything else
feel free to ask a teacher
or classmate to help you!

Family

Families can be a mixture of anything (parents in particular). Some people have two mothers, some people have two dads others have a mum and dad. Some people even have a mum, mum and a dad/ dad, dad and mum.

Can you think of anymore combinations?

A rainbow flag with horizontal stripes of red, orange, yellow, green, blue, and purple is waving on a black flagpole against a grey background. The flag is slightly wrinkled and has a small tassel at the top.

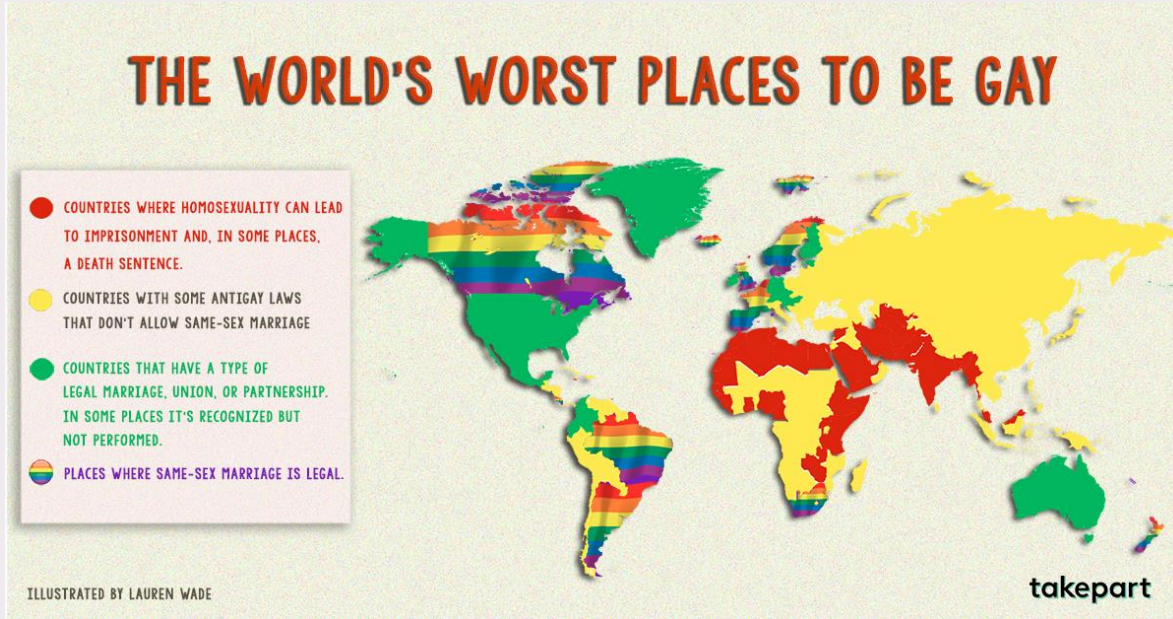

Accept your differences

Being the same as everyone else is boring and so our differences are what make us special and unique. Some of those differences are to do with who you love. It doesn't matter what gender you love, it doesn't matter what gender you are, you should always be happy in any relationship you are in. Boys can love boys. Girls can love girls. Girls can love boys. Boys can love girls.

Human rights

Gay rights are human rights. –Hillary Clinton
This famous quote should be known everywhere due to how true it shall stay forever and always. Saying gay rights is still acceptable but what matters more is if you are homosexual or not you will always be human and no one can take that away from you.

- You maybe asking why do members of the LGBTQ+ get a month to celebrate being themselves, well we're here to answer that. In many countries it is illegal to be homosexual. Sometimes you can even be put in jail or maybe even killed for simply loving someone that might be the same gender as you. So, to embrace being homosexual in countries where it is legal we have pride month.

The reason behind gay pride

What do the colours mean?

Each colour has a different meaning that will be represented in the picture to the right.
