

Why is our World Wonderful

Our geography learning this half term is all about the world.

Choose one continent to focus on and present to the class about.
You may want to create a poster, map, fact file, picture or video to help you present your information.

Here are some things you may want to research about for your project:

- How many people live there?
- What food do they eat?
- What are some of the biggest cities there?
- What languages do they speak?
- What are some famous landmarks there?
- What animals live there?
- What different landscapes are there?
- What interesting facts can you find out?

Create fact files about the four capital cities in the UK.

Make a model of your favourite landmark/monument from a country of your choice. E.g. Leaning Tower of Pisa, Eiffel Tower, Statue of Liberty, etc.
