

## Year 5 Home Learning Project Summer 2

- Investigate and present ways of reducing your Carbon Footprint.
- Write your own poem or rap about saving the earth.
- Explore how Electric Cars use Renewable energy.
- Build a 3D Model of the Solar System
- Create a moon diary - Observe and record the phases of the Moon over a month.  
Draw or take photos of the Moon each night.
- Design your own spacecraft – Make sure to include all the features
- Design a Sustainable Dream Home – Find out how to make homes more energy-efficient.
- Create a recycled invention - Use only recycled or waste materials to build a useful invention (e.g., bird feeder, pencil holder, toy).
