

Hot and Cold Places – Creative Home Learning Project

Due: Monday 16th December at 2:30pm

Choose one activity from the list below to complete and bring in to school. You can choose more if you wish.

- *Make up a new song, acronym or poem to help you remember the seven continents.*

Remember to make your creation catchy so it sticks in your memory.

- *Plan your dream road trip. Have a conversation with your grown up about a place they have never visited. Choose somewhere very different to the UK. You could create a map of the destination and information about the place. What would you need to pack?*
- *Create a round globe and label the continents, oceans, equator and the North and South Poles.*
- *Gather photos from around the world and put them on a world map.*
- *Compare two places – one that is very cold and one that is very hot.*
