STARS OF THE WEEK

Stars of the week - WB 30.09.24

Resilient

To all our stars: It is lovely to see your **happy** faces light up the school.

Class	Star(s) of the week	Description
Mondrian	Arthur	Arthur has shown a fantastic positive attitude this week, never letting mistakes define him. His determination to keep trying and his increased effort have really stood out. Well done, Arthur – keep up the great work
Matisse	Sofia	I have seen wonderful progress in the resilience of the class at the start of the year but no other child has been as resilient as Sofia! She has been making great improvements at coming into school. When Sofia gave an incorrect answer in maths today she thought about it again and remained calm, showing great resilience!
Monet	Tonirose	This half term I have seen such resilience in Tonirose. Every single day Tonirose tries her best in her learning. When something is difficult she tries her best - if it is still too hard she asks an adult for help. It has been so wonderful to have Tonirose in my class this year and I am so proud of how well she has transitioned into our new class.
Shonibare	Yasmin	Yasmin often shows a great display of resilience. Firstly with her timestables last year and this year she continues to push herself even if it's out of her comfort zone. She showed this recently by standing in front of the class to present a speech she had written and also a song she had wrote for RE, despite being nervous to do so.
Riley	Malak	Malak has been a delight to have in class so far this term. She is hard working, resilient and always listening. Malak has amazing behaviours for learning and attempts everything. She gives things a go and will try again without fuss to make improvements or to develop her understanding. Malak is resilient and conscientious to always try and do her best. Thank you for your hard work!

The annual **Stoptober** programme encourages thousands of smokers to quit the habit **every October**.

Smoking remains the single biggest cause of preventable illness and death in England.

People are **5 times** more likely to quit for good if they can make it to at least **28 days** smoke free

Smokers in England are being urged to stub out the habit as part of the annual **Stoptober** public health campaign launching next month, as latest statistics show smoking costs the NHS £2.4 billion a year while causing at least 15 types of cancers, including lung cancer and acute myeloid leukaemia.

Second-hand smoke is dangerous, especially for children. The best way to protect loved ones is to quit smoking.

Those who breathe in second hand smoke regularly are more likely to get the same diseases as smokers, including lung cancer and heart disease.

Children who live in a smoky house are at a higher risk of breathing problems including asthma and allergies.

Have a read and see the available resources.
