

Home learning- Vikings & Living things and their habitats

<p>Viking Timeline</p> <p>Create a timeline showcasing key events in Viking history. Include dates, illustrations, and brief descriptions of events.</p>	<p>Create a Viking Longship Model:</p> <p>Design and construct a model of a Viking longship using materials such as cardboard, wood, or even Lego bricks. Include details like the dragon head at the prow and oars for rowing.</p>	<p>Habitat Investigation</p> <p>Explore different habitats in their surroundings (e.g garden, park or woods) and observe the living things that inhabit each habitat. Record your findings in a journal or create a presentation.</p>
<p>Create a Habitat Diorama</p> <p>Choose a specific habitat (e.g rainforest, desert, ocean) and create a diorama representing that habitat. Include various living things found in the habitat, such as plants, animals, and insects.</p>	<p>Viking Sagas</p> <p>Write and illustrate your own Viking saga. You can base it on existing Norse myths or create an original story featuring Viking heroes, gods, and monsters. Use your imagination to weave an exciting narrative!</p>	<p>Create a Habitat Scrapbook</p> <p>create a scrapbook showcasing different habitats and the living things found within them. Include photographs, drawings, and information about the organisms' classifications.</p>
