

Choose 1 or 2 of these activities to complete at home over the course of this half term. You have 6 weeks to complete it so don't rush! Please bring your project into school during the last week of term.

## What will you choose to do?

- Writing a non-fiction informative page/book about weather.
- Writing a weather poem
- Keeping a weather diary and recording your findings in a tally chart or table. Can you create a pictogram?
- Writing and acting out your own weather report for your family. You could create a map of the UK as your own green screen!
- Comparing the temperatures and different types of weather in different countries. Can you create a fact file about the different countries?
- Making your own instruments to sound like the weather - create a song that you can teach to your family!
- Create your own weather game (e.g. Snap, board games etc.). Can you write instructions explaining how to play the game?
- Making a wind sock or even using an old plastic bottle to measure water levels. Can you write instructions for how to make your instrument or wind sock?
- Designing clothes for hot or cold weather. Create a poster to advertise your new clothing line!
- Finding out about animals and the weather they are most suited to. Can you sort these animals into different groups and label their features? Can you write an explanation as to how you sorted them?
- Writing a story (e.g. 'The Stormy Day').
- Finding out about how weather changes in each season - can you create a piece of art inspired by this?
- Finding out about weather around the world. Can you record your findings in a fact file?
- Create a piece of art inspired by the weather around you.
