Making Stick Picture Frames

How To Make A
Stick Picture Frame

TheBoyandMe.co.uk

What you will need ...

1. 4 sticks of equal length, or 2 pairs of sticks of equal length.
2. String.
3. A collection of leaves, flowers, pine cones or other natural 'treasures' found outside to decorate the frame with.

Instructions ...

1. Lay the four sticks for the frame on top of each other to create a square. Carefully wind a length of string around each of the joins, overlapping and winding from one corner to the other. This will hold them in place.
2. Complete for each corner, winding any extra string along the sides which will help create somewhere to secure the 'treasures'.
3. Tie a selection of natural 'treasures' to the frame and thread leaves and flowers through the string.
4. Tie some string from two corners to create a loop to hang it from a tree in your garden at home!

Have fun and I can't wait to see photographs of yourself inside your picture frame 😊 Post them on your class Dojo page or on Tapestry.
