

Geography Learning Journey

Paper 3: Physical Fieldwork

Our first piece of GCSE fieldwork investigates whether the regeneration of Salford Quays has been a success?

Paper 3: Issue Evaluation

The issue evaluation is a synoptic assessment that encourages students to think geographically about a problem.

Paper 2: The challenge of resource management

Food, water and energy. Is there enough of each to go round? How can we manage what we have?

Paper 1: The living world

We study ecosystems at a range of scales from small UK habitats to global deserts and rainforests.

11

Paper 3: Physical Fieldwork

Our second piece of GCSE fieldwork investigates erosion and deposition rates of a river in the Lake District National Park

Paper 2: Urban Issues and Challenges

We build on previous work on Rio de Janeiro by contrasting the process and challenges of urbanisation.

Paper 2: Urban Issues and Challenges

We finish Year 10 by contrasting the process and challenges of urbanisation in Rio de Janeiro.

Paper 1: The challenge of natural hazards.

We investigate the causes, effects and responses to tectonic, weather and climate hazards.

Paper 2: The changing economic world

There are global variations in economic development and quality of life. This topic finds out why.

Paper 1: Landscapes of the UK

We begin GCSE by studying how the UK landscape has been shaped by coastal and fluvial processes, and how management tries to control these processes.

10

Our Planet, Our Future!

What is the state of our planet for us and for future generations? What can we do about it?

Rethinking Rainforests

Why is one of Earth's most beautiful biomes so threatened?

Frozen World!

How does ice shape our landscape and what is life like in some of the coldest places on Earth?

9

Cracking Coasts

Is the coastline of our country, the UK, disappearing? In this topic, we'll answer this question!

Hazardous Earth

How vulnerable are we to natural hazards? How can we protect ourselves from them?

8 billion and counting!

There are now 8 billion of us on Planet Earth. What issues does this create?

Disease Dilemmas

What are the reasons for the gap between the world's poorest and richest and are the world's poorest the most vulnerable to diseases?

Modern Middle East

We continue our place studies by investigating the rapidly changing Middle East!

Raging Rivers

How do rivers shape the landscape of the UK and in other countries? In this topic, we'll find out why!

Fast Fashion!

How are the clothes that we wear made and how does this industry affect the people who make our clothes?

How well do we know the world?

We now investigate how we perceive the world. Is what we think about places true?

Africa is NOT a country!

Africa is a continent that suffers from many misconceptions. What is this diverse place really like?

8

Weather and Climate

We love talking about this in the UK, but what's the difference between the two?

Rocky World!

Why does the UK look like it does? We focus on weathering and erosion and the amazing landforms it creates.

The Almighty Dollar

We finish Y7 by following a dollar around the world and seeing how the economy differs in many countries.

7

OS Map Skills

Mapskills are so important. You'd be lost without them!

The UK, our home!

We continue with the theme of places by studying our home country. What is it like to live in the UK today?

Fantastic Places

Discover and explore some of the most interesting places on Earth!
