

Year 1 & 2: Plants & Seeds Knowledge Mat

Subject Specific Vocabulary Dozen

blossom	a flower or lots of flowers, especially on a tree or bush
seeds	small parts of a flowering plant that grow into new plants
petal	soft, brightly-coloured part of a flower
fruit	sweet and fleshy part of a plant that contains seeds
stem	the main stalk of a plant
roots	part of the plant that is underground. They suck water and nutrients from the soil.
bulb	a plant bud that begins to grow underground
trunk	the main stem of a tree
evergreen	trees that keep their leaves all year round
deciduous	trees that shed their leaves once a year
germination	when seeds sprout and begin to grow
branches	stems that grow from a tree trunk

What I will know at the end of the unit:

Identify and name a variety of common wild and garden plants, including deciduous and evergreen.
 Identify and describe the basic structure of a variety of common flowering plants, including trees.
 Explore and compare the differences between things that are living, dead, and things that have never been alive.
 Identify and name a variety of plants and animals in their habitats, including micro-habitats.
 Observe and describe how seeds and bulbs grow into mature plants.
 Find out and describe how plants need water, light and a suitable temperature to grow and stay healthy.

Exciting Books

Sticky Knowledge about plants and seeds?

- The word 'Plant' includes lots of different living organisms, such as trees, shrubs, grasses, ferns and mosses.
- Plants have common parts, but they vary between the different types of plants.
- Some trees keep their leaves all year while other trees drop their leaves during autumn and grow them again during spring.
- Plants may grow from either seeds or bulbs. These then germinate and grow into seedlings which then continue to grow into mature plants.
- Mature plants may have flowers which then develop into seeds, berries, fruits etc.
Plants need different amounts of water, light and space to grow well and stay healthy
- Plants need different amounts of water, light and space to grow well and stay healthy.
