

## Phonics & Reading

We will begin learning the letters of the alphabet and their corresponding sounds, in the following order:

s a t p i n m d g o c k c k e u r h b f l

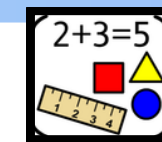

Once we have learned a few sounds, we will start to blend sounds together to make short words, e.g. sat, man, pin, dog.

## Writing

We will start learning to copy shapes and patterns in handwriting and will also learn some animal body positions that will help us develop the core strength needed to write successfully.

## Maths

We will be learning to sort items according to their colour, shape, size or type. We will encourage children to tell us how they have sorted a group of objects. We will also be learning to use positional language to place objects on top, under, next to, in front and behind.

## Discovery Time

We will continue to go on daily adventures during our Discovery Time. We will start to talk about our dinosaurs who help us to understand how we learn best. The first one is the Solvatops, who knows that it's OK to make mistakes and keeps trying when something is tricky.

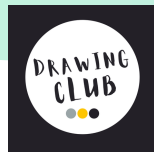

# Autumn 1 Year R

## Our Wonderful World

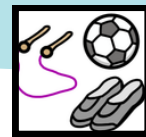

We will be learning to talk about our families and noticing how we all have different families. We will also be investigating outside about the seasons and how the weather changes with the seasons.

## Drawing Club

We will begin to learn all about Drawing Club & draw characters and events from different nursery rhymes and stories.

## PE & Physical Development

We will work on building strength in our fingers through Dough Disco. We will also start our PE lessons with a focus on moving in different ways: running, jumping, hopping & skipping.

## Art

We will explore mark making with colour and will experiment with mixing colours.

## Music

We will explore making sounds with instruments and singing some fun Boogiemites songs.
